**Madness in Medieval French Literature** Sylvia Huot 2003 "This new book, from one of the leading critics in medieval studies, ties in with contemporary interest in the politics of identity, and literary constructions of identity. There are many studies of gender, sexuality, race and ethnicity, and class in medieval literature and society, but far fewer of madness. Yet madness is the ultimate 'queerness' or 'otherness, ' the limit of the human condition. Madness has been identified as an important topic in feminist criticism, but has been explored largely with regard to nineteenth- and twentieth-century studies. The cultural significance of madness in the Middle Ages is often misrepresented in contemporary discussions. Sylvia Huot redresses that imbalance."--Résumé de l'éditeur.

**Marguerite de Navarre** Patricia Francis Cholakian 2006 Sister to the king of France, queen of Navarre, gifted writer, religious reformer, and patron of the arts -- in her many roles, Marguerite de Navarre (1492-1549) was one of the most important figures of the French Renaissance. In this, the first major biography in English, Patricia F. Cholakian and Rouben C. Cholakian draw on her writings to provide a vivid portrait of Marguerite's public and private life. Freeing her from the shadow of her brother François I, they recognize her immense influence on French politics and culture, and they challenge conventional views of her family relationships. The authors highlight Marguerite's considerable role in advancing the cause of religious reform in France--her support of vernacular translations of sacred works, her denunciation of ecclesiastical corruption, her founding of orphanages and hospitals, and her defense and protection of persecuted reformists. Had this plucky and spirited woman not been

sister to the king, she would most likely have ended up at the stake. Though she remained a devout catholic, her theological poem *Miroir de l'âme pécheresse*, a mystical summa of evangelical doctrine that was viciously attacked by conservatives, remains to this day an important part of the Protestant corpus. Marguerite, along with her brother the king, was a key architect and animator of the refined entertainments that became the hallmark of the French court. Always eager to encourage new ideas, she supported many of the illustrious writers and thinkers of her time. Moreover, uniquely for a queen, she was herself a prolific poet, dramatist, and prose writer and published a two-volume anthology of her works. In reassessing Marguerite's enormous oeuvre, the authors reveal the range and quality of her work beyond her famous collection of tales, posthumously called the *Heptaméron*. The Cholakians' groundbreaking reading of the rich body of her work, which uncovers autobiographical elements previously unrecognized by most scholars, and their study of her surviving correspondence portray a life that fully justifies Marguerite's sobriquet, "Mother of the Renaissance."

**Attached** Amir Levine 2012-01-05 "Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what

to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.
