**To Live and Think Like Pigs** Gilles Chatelet 2019-01-15 A startlingly prescient treatise on the cybernetic automation of society and a burlesque satire of its middle-class celebrants. An uproarious portrait of the evils of the market and a technical manual for its innermost ideological workings, this is the story of how the perverted legacy of liberalism sought to knead Marx's "free peasant" into a statistical "average man"—pliant raw material for the sausage-machine of postmodernity. Combining the incandescent wrath of the betrayed comrade with the acute discrimination of the mathematician-physicist, Châtelet scrutinizes the pseudoscientific alibis employed to naturalize "market democracy" and the "triple alliance" between politics, economics, and cybernetics. A bestseller in France on its publication in 1998, this book remains crucial reading for any future politics that wants to replace individualism with individuation and libertarianism with liberation, this new translation constitutes a major contribution to contemporary debate on neoliberalism, economics, and capitalist subjectivation.

**SUPPLEMENT AUX ANCIENNES EDITIONS DU GRAND DICTIONNAIRE HISTORIQUE DE Mre. LOUIS MORERI. OU LE MÊLANGE CURIEUX DE L'HISTOIRE SACRÉE ET PROFANE** Louis Moréri 1716

**Enlightenment Contested** Jonathan I. Israel 2006-10-12 This is a managerial survey and reinterpretation of the Enlightenment. The text offers an assessment of the nature and development of the important currents in philosophical thinking arguing that supposed national enlightenments are of less significance than the rift between conservative and radical thought.

EPZ Nietzsche and the Vicious Circle Pierre Klossowski 2005-06-05 'The greatest book of philosophy I have ever read, on a par with Nietzsche himself.' Michel Foucault Pierre Klossowski (1905-) is the author of numerous philosophical works, as well as several novels. He published many translations of German poets and philosophers, including Nietzsche himself. Recognised as a masterpiece of Nietzsche scholarship, *Nietzsche and the Vicious Circle* emphasises and explores the notion of Eternal Return - central to an understanding of Nietzsche's self-denial, self-refutation and self-consumption. Translated by Daniel W. Smith>

**La pathologie du pouvoir: vices, crimes et délits des gouvernants** Patrick Gilli 2015-12-09 FR: Rares mais marquantes ont été les dénonciations et les condamnations des crimes ou des vices des gouvernants. Le volume interroge les formes et les raisons de ces mises en cause, alors même que les traditions antiques, médiévales ou modernes étaient plutôt accommodantes envers les abus de pouvoir. EN: Denunciations and convictions of rulers' crimes or vices are uncommon but striking. This volume investigates the forms and reasons for these accusations, even though antique, medieval or modern tradition has tended to be quite accommodating towards the abuse of power.

Laboratory Life Bruno Latour 2013-04-04 This highly original work presents laboratory science in a deliberately skeptical way: as an anthropological approach to the culture of the scientist. Drawing on recent work in literary criticism, the authors study how the social world of the laboratory produces papers and other "texts," and how the scientific vision of reality becomes that set of statements considered, for the time being, too expensive to change. The book is based on field work done by Bruno Latour in Roger Guillemin's laboratory at the Salk Institute and provides an important link between the sociology of modern sciences and laboratory studies in the history of science.

The Hermeneutics of the Subject NA NA 2016-09-27 The Hermeneutics of the Subject is the third volume in the collection of Michel Foucault's lectures at the Collège de France, one of the world's most prestigious institutions. Faculty at the Collège give public lectures, in which they present works-in-progress on any subject of their choosing. Foucault's wide-ranging lectures influenced his groundbreaking works like *The History of Sexuality and Discipline and Punish*. In the lectures comprising this volume, Foucault focuses on how the "self" and the "care of the self" were conceived during the period of antiquity, beginning with Socrates. The problems of the ethical formation of the self, Foucault argues, form the background for our own questions about subjectivity and remain at the center of contemporary moral thought. This series of lectures throws new light on Foucault's final works and shows the full depth of his engagement with ancient thought. Lucid and provocative, *The Hermeneutics of the Subject* reveals Foucault at the height of his powers.

**Politiques du désir** Laura T. Ilea 2021-07-29T00:00:00+02:00 Les Politiques du désir plaident pour la force du questionnement qui ne croit pas aux solutions radicales. Ni le pardon, ni la réconciliation facile, ni le dialogue flamboyant ou belligérant. Mais la conscience que, quoiqu'on fasse, on est face aux Érinées, aux déesses de la vengeance. Que les forces auxquelles nous avons affaire nous dépassent de loin: la force de l'intelligence artificielle, la force des masses (et pas du tout la raison de la cité) et les tornades affectives du monde virtuel; les marginaux et les contre-réactions de ceux qui seront submergés par les conséquences de la crise pandémique actuelle. Je plaide pour la solution tragique des Euménides - c'est la force de notre humanité qui transformera les Érinées en Euménides.

The Atheist's Bible: Diderot's 'Éléments de physiologie' Caroline Warman 2020-11-16 'Love is harder to explain than hunger, for a piece of fruit does not feel the desire to be eaten': Denis Diderot's *Éléments de physiologie* presents a world in flux, turning on the relationship between man, matter and mind. In this late work, Diderot delves playfully into the relationship between bodily sensation, emotion and perception, and asks his readers what it means to be human in the absence of a soul. The *Atheist's Bible* challenges prevailing scholarly views on Diderot's *Éléments*, asserting its contemporary philosophical importance, and prompting its readers to inspect more closely this little-known and little-studied work. In this timely volume, Warman establishes the place of Diderot's *Éléments* in the trajectory of materialist theories of nature and the mind stretching back to Epicurus and Lucretius, and explores the fascinating reasons behind scholarly neglect of this seminal work. In turn, Warman outlines the hitherto unacknowledged dissemination and reception of Diderot's *Éléments*, demonstrating how Diderot's *Éléments* was circulated in manuscript-form as early as the 1790s, thus showing how the text came to influence the next generations of materialist thinkers. This book is accompanied by a digital edition of Jacques-André Naigeon's *Mémoires historiques et philosophiques sur la vie et les ouvrages de Denis Diderot* (1823), a work which, Warman argues, represents the first publication of Diderot's *Éléments*, long before its official publication date of 1875. The *Atheist's Bible* constitutes a major contribution to the field of Diderot studies, and will be of further interest to scholars and students of materialist natural philosophy in the Age of Enlightenment and beyond.

**Grand dictionnaire universel du XIXe siècle** Pierre Larousse 1866

*Music and Fantasy in the Age of Berlioz* Francesca Brittan 2017-09-14 The centrality of fantasy to French literary culture has long been accepted by critics, but the sonorous dimensions of the mode and its wider implications for musical production have gone largely unexplored. In this book, Francesca Brittan invites us to listen to fantasy, attending both to literary descriptions of sound in otherworldly narratives, and to the wave of 'fantastique' musical works published in France through the middle decades of the nineteenth century, including Berlioz's 1830 *Symphonie fantastique*, and pieces by Liszt, Adam, Meyerbeer, and others. Following the musico-literary aesthetics of E. T. A. Hoffmann, they allowed waking and dreaming, reality and unreality to converge, yoking fairy sound to insect song, demonic noise to colonial 'babbling', and divine music to the strains of water and wind. Fantastic soundworlds disrupted France's native tradition of marvellous illusion, replacing it with a magical materialism inextricable from republican activism, theological heterodoxy, and the advent of 'radical' romanticism.
