Sometimes she wished she was an only child . . . "She's lovely! Look at those curls. Those blue eyes. She's just beautiful!" Berta was used to hearing comments like that. But they were not about her. . . . Whenever ladies came to the house or met her mother on the street, they exclaimed over Berta's little sister, Glenna. Somewhere along the way, Berta decided that whatever Glenna was, she would not be. Whatever Glenna did, she would not do. Whatever Glenna liked, she would not like. She would be the opposite. Sure enough, Glenna is sparkling, vivacious, outgoing, and adored, while Berta is serious, dependable, and prim. Their relationship grows more and more distant until, finally, Berta must look into her heart and discover what truly has caused the rift between them.

Democratic Republic of São Tomé and Príncipe: Staff Report for the 2011 Article IV Consultation. International Monetary Fund 2012-02-08 São Tomé & Príncipe remains at high risk of debt distress, although it has received substantial debt relief. The increases in world food and fuel prices have rekindled domestic inflation pressures. Inflation has declined substantially since 2008, but remains at double-digit levels. A tightening of fiscal and monetary policies in 2008 followed by a decline in world food and oil prices helped lower year-over-year inflation from a peak of 37 percent in July 2008 to 11.5 percent in June 2010.

Democracy and the Rise of Women's Movements in Sub-Saharan Africa Kathleen M. Fallon 2008-08-08 Despite a late and fitful start, democracy in Africa, Latin America, and Eastern Europe has recently shown promising growth. Kathleen M. Fallon discusses the role of women and women's advocacy groups in furthering the democratic transformation of formerly autocratic states. Using Ghana as a case study, Fallon examines the specific processes women are using to bring about political change. She assesses information gathered from interviews and surveys conducted in Ghana and assays the existing literature to provide a focused look at how women have become involved in the democratization of sub-Saharan nations. The narrative traces the history of democratic institutions in the region—from the imposition of male-dominated mechanisms by western states to latter-day reforms that reflect the active resurgence of women's political power within many African cultures—to show how women have made significant recent political gains in Ghana and other emerging democracies. Fallon attributes these advances to a combination of forces, including the decline of the authoritarian state and its attendant state-run women's organizations, newly formed constitutions, and newfound access to good-governance funding. She draws the study into the larger debate over gendered networks and democratic reform by exploring how gender roles affect and are affected by the state in Africa, Latin America,

and Eastern Europe. In demonstrating how women's activism is evolving with and shaping democratization across the region, *Democracy and the Rise of Women's Movements in Sub-Saharan Africa* reveals how women's social movements are challenging the barriers created by colonization and dictatorships in Africa and beyond.

Oxford Textbook of Global Health of Women, Newborns, Children, and Adolescents Delan Devakumar 2019-01-19 Maternal and child morbidity and mortality affect women and children all over the world. In low resource settings, it is often the result of an illness which under other circumstances would be preventable and treatable. The disease burden predominately occurs in developing countries, but the dangers facing women and children are global issues. To improve conditions for women and children everywhere, we must address maternal and child health in their own right, and ask how they affect each other. The Oxford Textbook of Global Health of Women, Newborns, Children, and Adolescents is a comprehensive study of the cycle of life. The development of children is traced from pre-natal through to newborns, childhood, and adolescence. Posing child health against maltreatment, injury, and malnutrition, this book asks uncomfortable but necessary questions, and discusses how to influence policy and inspire change. Following women from adolescence to motherhood, it discusses sexual and reproductive health, HIV, injury, pregnancy, mental health, and much more. With examples from high- and low-resource settings presented by experts in the field, the Oxford Textbook of Global Health of Women, Newborns, Children, and Adolescents is a unique resource for medical practitioners everywhere. Divided into eight sections, it takes a life course approach to female health. With a clear structure, helpful illustrations, and study questions at the end of each chapter, it is an easy to use manual for healthcare workers treating patients in the clinic and out in the field. Through its descriptions of the main challenges and explanations of the key theories in the field, this is the ideal textbook for medical students in paediatrics, obstetrics, nursing, midwifery, and other related areas. Looking to the future, it is also an invaluable starting point for policymakers and anyone with a general interest in the subject area.

Rien de plus simple en apparence : il lui suffit de le rejoindre à Berlin, où il séjourne le temps d'un colloque scientifique. Mais une révélation inattendue vient compliquer ses projets. Rattrapés une fois de plus par leur passé, Shania et Abel Rivkas vont se trouver au coeur d'une lutte secrète entre les services secrets américains et allemands. H.D. and Modernist Religious Imagination Elizabeth Anderson 2013-08-01 Exploring the intersection of religious sensibility and creativity in the poetry and prose of the American modernist writer, H.D., this volume explores the nexus of the religious, the visionary, the creative and the material. Drawing on original archival research and analyses of newly published and currently unpublished writings by H.D., Elizabeth Anderson shows how the poet's work is informed by a range of religious traditions, from the complexities and contradictions of Moravian Christianity to a wide range of esoteric beliefs and practices. H.D. and Modernist Religious Imagination brings H.D.'s texts into dialogue with the French theorist Hélène Cixous, whose attention to writing, imagination and the sacred has been a neglected, but rich, critical and theological resource. In analysing the connection both writers craft between the sacred, the material and the creative, this study makes a thoroughly original contribution to the emerging scholarly conversation on modernism and religion, and the debate on the inter-relation of the spiritual and the material within the interdisciplinary field of literature and religion.

Democratic Republic of São Tomé and Príncipe International Monetary Fund 2012-08-02 The Democratic Republic of São Tomé and Príncipe shows prudence in maintaining its fiscal stance assisted by the IMF extended credit facility (ECF). The authorities aim to concentrate on maintaining macroeconomic stability even though debt distress owing to a narrow export base and other issues loom as threats. Focus is on strengthening of existing monetary and public finances policies, banking supervision, and anti-money laundering, which will help in reducing poverty. Revenue from oil production is also expected to help achieve the target by 2015.
