**Family and Succession Law in Nigeria** Nwudego Nkemakonam Chinwuba 2021-10-21  
Derived from the renowned multi-volume International Encyclopaedia of Laws, this concise exposition and analysis of the essential elements of law with regard to family relations, marital property, and succession to estates in Nigeria covers the legal rules and customs pertaining to the intertwined civic status of persons, the family, and property. After an informative general introduction, the book proceeds to an in-depth discussion of the sources and instruments of family and succession law, the authorities that adjudicate and administer the laws, and issues surrounding the person as a legal entity and the legal disposition of property among family members. Such matters as nationality, domicile, and residence; marriage, divorce, and cohabitation; adoption and guardianship; succession and inter vivos arrangements; and the acquisition and administration of estates are all treated to a degree of depth that will prove useful in nearly any situation likely to arise in legal practice. The book is primarily designed to assist lawyers who find themselves having to apply rules of international private law or otherwise handling cases connected with Nigeria. It will also be of great value to students and practitioners as a quick guide and easy-to-use practical resource in the field, and especially to academicians and researchers engaged in comparative studies by providing the necessary, basic material of family and succession law.

Alternative Dispute Resolution and Peace-building in Africa Ernest E. Uwazie 2014-06-26  
Conflicts in Africa have a great deal in common, and striking parallels can be drawn between them at all levels. Dynamics affecting the most complex war-time conflicts, civil unrest and other macro disputes are in play even in the smallest community conflicts. The converse is also true: lessons learned through community mediation, for example in South Africa, are applicable to the most complex and largest conflicts to be found on the continent. Together, the eleven chapters in this publication, in addition to the prologue and epilogue, suggest that a comprehensive assessment of efforts and investments in conflict resolution and peace studies in Africa since the mid-1990s is due in order to identify lessons and challenges, as well as best practices. Just as conflict dynamics are comparable between African conflicts,

whether large or small, local or international, so are alternative dispute resolution processes. Effective approaches to resolving large-scale conflicts and civil wars are effective at the community level, and ineffectual techniques at the community level are just as likely to be counter-productive in mediating international disputes. While there may be some differences in mediating macro- and micro-conflicts (such as the time required, the need for negotiation teams, and the complexities of agenda development or pre-negotiations), as far as the mediation process is concerned, the differences are more like variations on a theme than real substantive dissimilarities. This volume provides case studies of programs and policies, and legislations on alternative dispute resolution and peace building, and examines and proposes some new, promising ideas for conflict prevention, as well as maintenance of peace, justice and security in Africa.

Spain, Japan, Somalia, Nigeria, Brazil, and Peru, the contributions presented here offer much-needed, context-informed insights on whether – and if so, why, how and to what extent – the development of contract law is being influenced by constitutional values and fundamental rights issues (or vice-versa). The book represents a valuable addition to comparative law literature on the interplay between public (i.e., constitutional) and private (i.e., contract) law by revealing the inner dynamics through which these two branches interact and (at times) inform each other, whilst also enhancing our understanding of the law's nature, function, and transformative potential at the macro, meso, and micro levels.

*Promoting Foreign Judgments* Pontian N. Okoli 2019-10-07 In many African countries, litigants experience significant uncertainty in their attempts to enforce foreign judgments. Drawing on the experiences of the United Kingdom and the United States (vis-à-vis efforts to attain an effective global legal framework on foreign judgments), this book undertakes a comparative analysis of how South African and Nigerian courts can promote the recognition and enforcement of foreign judgments in a fair manner. This comparative analysis is made considering both African countries as paradigms of their respective legal traditions. The author, a legal consultant and academic in private international law analyses, stage by stage, the challenging process that litigants face when they seek to enforce foreign judgments in South Africa and Nigeria. This analysis includes insightful consideration of broader issues such as the following: how challenges faced by judgment creditors may be circumvented; practical issues impeding the free movement of foreign judgments; impact of globalisation, increase in international commercial transactions, and regionalism on private international law; application of 'fairness'; how territorial sovereignty and State interests in international commerce impede the free movement of foreign judgments; and 'qualified obligation', under which courts would presumptively enforce foreign judgments subject to certain exceptions and to the balancing of competing interests between private litigants and the State. The comparative analysis is undergirded by relevant

case law – spanning decades in Africa and centuries in Europe and the United States. In summary, the author projects a clear case for predictability and certainty in the recognition and enforcement of foreign judgments, as well as how to go about it, thus offering lawyers a strategic position to weigh their options in contemplating enforcement of foreign judgments in any jurisdiction even beyond the African region. This innovative approach will also be of particular value to policymakers at national levels, international and regional economic organisations, as well as scholars in private international law and international commercial law generally. This is regardless of their specific legal area or niche, especially considering the dearth of literature in African private international law.

The Palgrave Handbook of African Social Ethics Nimi Wariboko 2020-03-30 This Handbook provides a robust collection of vibrant discourses on African social ethics and ethical practices. It focuses on how the ethical thoughts of

Africans are forged within the context of everyday life, and how in turn ethical and philosophical thoughts inform day-to-day living. The essays frame ethics as a historical phenomenon best examined as a historical movement, the dynamic ethos of a people, rather than as a theoretical construct. It thereby offers a bold, incisive, and fresh interpretation of Africa's ethical life and thought.

**Dismissal in Nigeria Labour Law** Celestine N. Omehia 2011-08-02 It is important to note that this is the second edition of this book and like I rightly pointed out in the first edition, the choice of this title and the subject matter was not a thing of accident. It was predicated upon my observations of the unwholesome Labour Relations in the Nigerian Industrial set-ups. As at the time of making up my mind about this book, there was an unequal balanced relationship between the employers of labour in all segments of our Labour Relations on the one hand and those employed to do any kind of work on the other. The other reason is my realization that there is every need for legal practice to go into minute specialization. We could specialize in every aspect of the law for purposes of effective practice, specialization and representation.
