Advanced Accounting Joe Ben Hoyle 2014-02-01 The approach used by Hoyle, Schaefer, and Douppnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced

appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

Case Studies in Marriage and Family Therapy Larry B. Golden 2004 The authors

believe that prospective counselors must learn from the experience of practicing counselors. This enjoyable-to-read, inexpensive casebook offers nineteen live marriage and family therapy case studies that exemplify the major approaches taken to marriage and family counseling. The nineteen contributors provide real-life data about their counseling sessions, their decision-making process, their personal feelings, and even their mistakes. A common organization for each case study features: the problem, the diagnosis, goals, strategies, session-by-session accounts, results, and a "post-mortem." It is telling that the contributing authors have provided the case that touched them most, not their most successful case. For future counselors, therapists, and social workers.
