Roman Religion and Roman Empire Robert Everett Allen Palmer 1988

The Pagan God Javier Teixidor 2015-03-08 Javier Teixidor has found evidence that belief in a supreme god developed during the first millennium B.C. The Phoenician and Aramaic inscriptions he discusses indicate a trend toward monotheism that facilitated the spread of Judaism, Christianity, and Islam. The author concludes that the traditional characteristics of the popular religions were preserved during this period and that the Hellenistic culture and the mystery cults did not have a significant effect on popular piety. Here, then, is a major reinterpretation of the religious life of the Near East in the Greco-Roman period based on a reliable source of information. Originally published in 1977. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Fall of Rome Michael Curtis Ford 2007-05-15 476 a.d.: The Roman Empire, riddled with corruption and staggered by centuries of barbarian onslaughts, now faces its greatest challenge---not only to its wealth and prestige, but to its very existence. In his riveting novel *The Sword of Attila*, Michael Curtis Ford thrilled

readers with his recounting of a cataclysmic clash of ancient civilizations. Now, in *The Fall of Rome*, he takes on the bloody twilight of empire, as the legacy of Attila---once thought destroyed on the battlefield---emerges again to defy the power of the Western World. In this powerful saga of Roman warfare, the sons of Attila's great officers wage battle with one another as the dramatic confrontation between Rome's last emperor and Rome's barbarian conqueror leads to the thrilling dénouement that becomes the fall of a mighty empire. Pulsing with intrigue, saturated with historical detail, *The Fall of Rome* brings readers to new places—pressed into the trenches as catapult bolts fly overhead, lurking within the palace where betrayal is plotted, imprisoned in a tower stronghold where an emperor turns mad. Once again, Ford demonstrates his mastery as a chronicler of battle, honor, and ancient worlds in this masterfully plotted epic novel that will leave readers begging for more. Praise for the Novels of Michael Curtis Ford *The Sword of Attila* "Supremely well executed . . . again, Ford offers solidly researched and lustily violent military historical fiction." ---Kirkus Reviews *The Last King* "Michael Curtis Ford's love for the ancient world emanates from every page: in his magical settings and spectacular re-creation of monuments and landscapes, in his bold portraits of the protagonists, and in his intriguing and swiftly moving plot." ---Valerio Massimo Manfredi, author of the *Alexander Trilogy* and *Spartan* "This is Ford's best so far, and only those who have read his first two know just how good that makes this book." ---The Statesman Journal *Gods and Legions* "Powerful and passionate. A truly compelling story--- one not just of gods and legions but of men." ---Library Journal (starred review) "Thanks to the author's excellent research of both his subject and era, the reader experiences this great man's transformation step by determined step. Highly recommended." ---The Historical Novels Review *The Ten Thousand* "A worthy successor to Steven Pressfield's *Gates of Fire*." ---Library Journal (starred review) "Michael Curtis Ford's moving account of the fighting and dying of these heroic Greek mercenaries is not only historically sound, but very human, in making Xenophon's tale come alive in a way that no ancient historian or classicist has yet accomplished." ---Professor Victor Davis Hanson, author of *The Soul of Battle*

The State, Law, and Religion Alan Watson 1992 Written by one of our most respected legal historians, this book analyzes the interaction of law and religion in ancient Rome. As such, it offers a major new perspective on the nature and development of Roman law in the early republic and empire before Christianity was recognized and encouraged by Constantine. At the heart of the book is the apparent paradox that Roman private law is remarkably secular even though, until the late second century B.C., the Romans were regarded (and regarded themselves) as the most religious people in the world. Adding to the paradox was the fact that the interpretation of private law, which dealt with relations between private citizens, lay in the hands of the College of Pontiffs, an advisory body of priests. Alan Watson traces the roots of the paradox--and the way in which Roman law ultimately developed--to the conflict between patricians and plebeians that occurred in the mid-fifth century B.C. When the plebeians demanded equality of all citizens before the law, the patricians prepared in response the Twelve Tables, a law code that included only matters considered appropriate for plebeians. Public law, which dealt with public officials and the governance of the state, was totally excluded from the code, thus preserving gross inequalities between the classes of Roman citizens. Religious law, deemed to be the preserve of patrician priests, was also excluded. As Watson notes, giving a monopoly of legal interpretation to the College of Pontiffs was a shrewd move to maintain patrician advantages; however, a fundamental consequence was that modes of legal reasoning appropriate for judgments in sacred law were

carried over to private law, where they were often less appropriate. Such reasoning, Watson contends, persists even in modern legal systems. After sketching the tenets of Roman religion and the content of the Twelve Tables, Watson proceeds to such matters as formalism in religion and law, religion and property, and state religion versus alien religion. In his concluding chapter, he compares the law that emerged after the adoption of the Twelve Tables with the law that reportedly existed under the early Roman kings.

Roman Architecture Frank Sear 2002-01-04 In this comprehensive, accessible and beautifully illustrated book, Frank Sear traces the evolution of Roman architecture during the four centuries from the late Republic to AD 330, when Constantine moved the empire's capital to Constantinople. With over 200 diagrams, maps and photos, this lucid and eminently readable account is a detailed overview of the development of architecture from Augustus to Constantine. Covering building techniques and materials as well as architecture and patronage, features include: * deployment of the most recent archaeological evidence * consideration of building materials and methods used by Roman engineers and architects * examination of stylistic innovations * analysis of the historical and cultural contexts of Roman architecture * detailed exploration of key Roman sites including Ostia and Pompeii. In high demand since its initial publication, this book will not disappoint in its purpose to educate and delight those in the field of Roman architecture.

The Bloody Countess Valentine Penrose 2013-10-12 Descended from one of the most ancient aristocratic families of Europe, Erzsebet Bathory bore the psychotic aberrations of centuries of intermarriage. From adolescence she indulged in sadistic lesbian fantasies, where only the spilling of a woman's blood could satisfy her urges. By middle age, she had regressed to a mirror-fixated state of pathological necro-sadism involving witchcraft, torture, blood-drinking, cannibalism and wholesale slaughter. These years, at the latter end of the 16th century, witnessed a reign of cruelty unsurpassed in the annals of mass murder, with the Countess' depredations on the virgin girls of the Carpathians leading to some 650 deaths. Her many castles were equipped with chambers where she would hideously torture and mutilate her victims; hundreds of girls were killed and processed for the ultimate, youth-giving ritual: the bath of blood. The Bloody Countess is Valentine Penrose's true, disturbing case history of a female psychopath, a chillingly lyrical account beautifully translated by Alexander Trocchi (author of Cain's Book), which has an unequalled power to evoke the decadent melancholy of doomed, delinquent aristocracy in a dark age of superstition.

The Mediterranean World in Late Antiquity Averil Cameron 2002-09-11 This book provides both a detailed introduction to the vivid and exciting period of 'late antiquity' and a direct challenge to conventional views of the end of the Empire.

Dance of the Tiger Björn Kurtén 1995-10-10 Björn Kurtén's compelling novel gives the reader a detailed picture of life 35,000 years ago in Western Europe. One of the world's leading scholars of Ice Age fauna, Kurtén fuses extraordinary knowledge and imagination in this vivid evocation of our deepest past. This novel illuminates the lives of the humans who left us magnificent paintings in the caves of France and Spain.

The Greek Armies Peter Connolly 1979-01-01 Den græske hær fra 1500 år f.Kr. til Alexander den Stores tid.

Udrustning, taktik og vigtigste slag

The Later Roman Empire, AD 284-430 Averil Cameron 1993 Marked by a power shift from Rome to Constantinople and the Christianization of the Empire, this era requires a narrative and interpretative history of its own. Cameron, an authority on later Roman and early Byzantine history and culture, captures the pivotal fourth century, doing justice to the enormous explosion of recent scholarship.

Dictionary of World Biography Frank Northern Magill 1998 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Imperial Rome Martin Persson Nilsson 1926

The Penguin Dictionary of Ancient History Graham Speake 1995 Ranging from the year of the first Olympic Games in 776 BC to the fall of the Roman Empire in AD 476, this dictionary contains over 2000 entries providing a reference guide to the ancient Greco-Roman world. It includes entries on personalities, events, politics, literature, art and society.

Roman Religion J. A. North 2000-11 Provides an account of the religious history of Rome starting from its mythical origins.
