Carrots for Charlie Rhonda Brazina 2012-07-01 A cheerful, friendly man named Max who loves to walk on the beach and enjoy the outdoors in his beautiful hometown of Naples, Florida, visits the local shelter to adopt a dog. The dog, a loveable spaniel named Charlie, likes to do all of the outdoor activities that Max likes to do. Charlie also likes to listen to Max sing, which he does nearly all of the time. Max makes up songs about all sorts of things, including exercise, rules, and his friendship with Charlie. When Max begins teaching singing lessons and is away from home, Charlie is left alone in front of the television with an overflowing bowl of treats. Soon the neighbors notice that Charlie is walking slower and becoming chubby, which leads to a helpful visit to the vet. Both Charlie and Max begin a routine of exercise and healthy eating. Things are going well with the new plan until Max makes a discovery under the sofa cushions. Fortunately problems are resolved for the two best friends as they work toward fitness and good health and discover that carrots are their favorite healthy treat. This delightful children's story of friendship has an important message about health, nutrition and caring for children and pets.

Notes of a Russian Sniper Vassili Zaitsev 2016-11-30 'As a sniper, I've killed more than a few Nazis. I have a passion for observing enemy behaviour. You watch a Nazi officer come out of a bunker, acting all high and mighty, ordering his soldiers every which way, and putting on an air of authority. The officer hasn't got the slightest idea that he only has seconds to live.' Vassili Zaitsev's account of the hell that was Stalingrad is moving and harrowing. This was a battle to the death - fighting street by street, brick by brick, living like rats in a desperate struggle to survive. Here, the rules of war were discarded and a psychological war was being waged. In this environment, the sniper was king - an unseen enemy who frayed the nerves of brutalised soldiers. Zaitsev volunteered to fight at Stalingrad in 1942. His superiors recognized quickly his talent, and made him a sniper. He adapted his hunting skills to the ruins of the city, watching his prey with nerves of steel. In his first 10 days, Zaitsev killed 40 Germans. He achieved at least 225 kills and the tactics he developed are still being studied. Zaitsev was used a symbol of Russian resistance against the Nazis. His exploits, including a famous 'duel' with a Nazi sniper, remain the stuff of legend. His account is absorbing to anyone interested in World War II and seeing how one person could survive in the most extreme of conditions.

The Lost Secret of Speaking Perfect English Peter F. Bulmer Do you want to learn The Lost Secret of Speaking Perfect English? The Moving Mouth Dictionary technique provides a very simple approach to perfecting English speaking and pronunciation. The book takes a down-to-earth approach for speaking clear English, as it breathes some fresh air into the stuffy corridors of academic learning. It is geared to help students and business people speak impressive and naturally clear English, taking much of the guessing out of pronunciation and spelling. English will become more of a physical activity, rather than a cerebral academic

subject. The key is in identifying and improving specific types of reverse and forward mouth movements, actions based on using simple vertical mouth movement notations that have simple associations with key phonetics sounds for specific letters. The technique's forward and reverse mouth movements combined with a natural English rhythm also helps trigger and access vocabulary and verbs, while aiding in word retention, fluency and auto correcting. The book features a dictionary of over 11,000 words, including some of the most difficult words in the English language, which have been broken down, putting these notations into "mouthables." The process draws heavily on early humans' natural ability to howl and growl, using their mouths vertically. Hence, the lost connection between our near ancestors can aid our ability to speak clear English, an ability we have lost and need to rediscover.

Transnational Organized Crime in East Asia and the Pacific United Nations 2013
Human trafficking and smuggling of migrants: Four of the 12 illicit flows reviewed in this report involve human beings. The first two concern movement between the countries of the region, one for general labour and one for sexual exploitation. The third concerns the smuggling of migrants from the region to the rich countries of the West, and the last focuses on migrants smuggled through the region from the poor and conflicted countries of South and Southwest Asia. Drug trafficking: The production and use of opiates has a long history in the region, but the main opiate problem in the 21st century involves the more refined form of the drug: heroin. In addition, methamphetamine has been a threat in parts of East Asia for decades (in the form of yaba tablets), but crystal methamphetamine has recently grown greatly in popularity. Virtually every country in the region has some crystal methamphetamine users, and some populations consume at very high levels. Resources: Resource-related crimes include those related to both extractive industries, such as the illegal harvesting of wildlife and timber, and other crimes that have a negative impact on the environment, such as the dumping of e-waste and the trade in ozone-depleting substances. In all cases, the threat goes beyond borders, jeopardizing the global environmental heritage. These are therefore crimes of inherent international significance, though they are frequently dealt with lightly under local legislation. Counterfeit goods: The trade in counterfeit goods is often perceived as a "soft" form of crime, but can have dangerous consequences for public health and safety. Fraudulent medicines in particular pose a threat to public health, and their use can foster the growth of treatment resistant pathogens.

In Search of Lost Time Marcel Proust 2015 "'In Search of Lost Time' is widely recognized as the major novel of the twentieth century."--Harold Bloom "At once the last great classic of French epic prose tradition and the towering precursor of the 'nouveau roman'."--Bengt Holmqvist "Proust so titillates my own desire for expression that I can hardly set out the sentence. Oh if I could write like that!"--Virginia Woolf "The greatest fiction to date."--W. Somerset Maugham "Proust is the greatest novelist of the 20th century."--Graham Greene On the surface a traditional "Bildungsroman" describing the narrator's journey of self-discovery, this huge and complex book is also a panoramic and richly comic portrait of France in the author's lifetime, and a profound meditation on the nature of art, love, time, memory and death. But for most readers it is the characters of the novel who loom the largest: Swann and Odette, Monsieur de Charlus, Morel, the Duchesse de Guermantes, Françoise, Saint-Loup and so many others--Giants, as the author calls them, immersed in Time. "In Search of Lost Time" is a novel in seven volumes. The novel began to take shape in 1909. Proust continued to work on it until his final illness in the autumn of 1922 forced him to break off. Proust

established the structure early on, but even after volumes were initially finished he kept adding new material, and edited one volume after another for publication. The last three of the seven volumes contain oversights and fragmentary or unpolished passages as they existed in draft form at the death of the author; the publication of these parts was overseen by his brother Robert.

Transforming Masculinities Vic Seidler 2006-03-20 Critically exploring the ways in which men and masculinities are commonly theorized, this multidisciplinary text opens up a discussion around such relationships, and shows that, as with feminisms, there is a diversity of theoretical traditions. It draws on a variety of examples, and explores new directions in the complexities of diverse male identities and emotional lives across different histories, cultures and traditions. This book: considers the experiences of different generations explores connections between masculinity and drugs investigates men and masculinities in a post-9/11 world considers new ways of thinking about male violence recognizes the importance of culture and provides spaces to explore different class, 'race' and ethnic masculinities. Written in a practical, versatile manner by an established author in this field, it points to new directions in thinking, and makes essential reading for advanced undergraduates, postgraduates and researchers in the fields of sociology, gender studies, politics, philosophy and psychology.

Black Jacks and Leather Bottels Oliver Baker 2018-03-22 The revolution which the 18th and 19th century witnessed in English domestic life has been so complete, the changes so vast and so radical, that it is hard to realise how near the past is to us. The wanderer through this island of ours (so ancient under its veneer of newness) may sometimes encounter in castle, college, or manor-house, certain strange vessels-huge pitchers and corpulent bottles, of leather. So venerable are they, and in their material so unlike any now in use, that one is apt to regard them as belonging of necessity to some foreign land, or to some far distant age.

The Lesser Key of Solomon Aleister Crowley 2022-01-04 The Lesser Key of Solomon, also known as Lemegeton Clavicula Salomonis or simply Lemegeton, is an anonymous grimoire on demonology. It was compiled in the mid-17th century, mostly from materials a couple of centuries older. It is divided into five books—the Ars Goetia, Ars Theurgia-Goetia, Ars Paulina, Ars Almadel, and Ars Notoria. This edition was translated by Samuel Liddell MacGregor Mathers and published by Aleister Crowley under the title *The Book of the Goetia of Solomon the King*. Crowley added some additional invocations previously unrelated to the

original work, as well as essays describing the rituals as psychological exploration instead of demon summoning.

African Youth Languages Ellen Hurst-Harosh 2018 This book showcases current research on language in new media, the performing arts and music in Africa, emphasising the role that youth play in language change and development. The authors demonstrate how the efforts of

young people to throw off old colonial languages and create new local ones has become a site of language creativity. Analysing the language of 'new media', including social media, print media and new media technologies, and of creative arts such as performance poetry, hip-hop and rap, they use empirical research from such diverse countries as Zimbabwe, Nigeria, Kenya, the Ivory Coast and South Africa. This original edited collection will appeal to students and scholars of African sociolinguistics, particularly in the light of the rapidly changing globalized context in which we live. Ellen Hurst-Harosh is Senior Lecturer in the Humanities Education Development Unit at the University of Cape Town, South Africa. She has been an active researcher in the field of urban youth language since 2005, focusing in particular on the South African phenomenon 'tsotsitaal'. Fridah Kanana Erastus is Senior Lecturer at the Department of English and Linguistics, Kenyatta University, Kenya. Her research interests lie in dialectology, language use and multilingualism, language contact, African urban and youth languages, and English language pedagogy. She has published widely on these topics. From 2013, she has been a Project Leader for the Commonwealth of Learning funded Projects on "Open Resources for English Language Teaching (ORELT) in Kenya and East Africa.

Iran's Foreign and Defense Policies Kenneth Katzman 2019-08-03 Iran's national security policy is the product of many overlapping and sometimes competing factors such as the ideology of Iran's Islamic revolution, perception of threats to the regime and to the country, long-standing national interests, and the interaction of the Iranian regime's factions and constituencies. Iran's leadership: * Seeks to deter or thwart U.S. or other efforts to invade or intimidate Iran or to bring about a change of regime. * Has sought to take advantage of opportunities of regional conflicts to overturn a power structure in the Middle East that it asserts favors the United States, Israel, Saudi Arabia, and other Sunni Muslim Arab regimes. * Seeks to enhance its international prestige and restore a sense of "greatness" reminiscent of ancient Persian empires. * Advances its foreign policy goals, in part by providing material support to regional allied governments and armed factions. Iranian officials characterize the support as helping the region's "oppressed" and assert that Saudi Arabia, in particular, is instigating sectarian tensions and trying to exclude Iran from regional affairs. * Sometimes disagrees on tactics and strategies. Supreme Leader Ali Khamene'i and key hardline institutions, such as the Islamic Revolutionary Guard Corps (IRGC), oppose any compromises of Iran's national security core goals. Iran's elected president, Hassan Rouhani, and Foreign Minister Mohammad Javad Zarif have supported Iran's integration into regional and international diplomacy. * Supports acts of international terrorism, as the "leading" or "most active" state sponsor of terrorism, according to each annual State Department report on international terrorism since the early 1990s. The Trump Administration insists that an end to Iran's malign activities is a requirement of any revised JCPOA and normalization of relations with the United States. The Trump Administration has articulated a strategy to counter Iran's "malign activities" based on * Applying "maximum pressure" on Iran's economy and regime through sanctions. President Trump withdrew the United States from the JCPOA on May 8, 2018, and reimposed all U.S. sanctions as of November 5, 2018. * Attempting to diplomatically, politically, and economically isolate Iran. * Training, arming, and providing counterterrorism assistance to partner governments and some allied substate actors in the region. * Deploying U.S. forces to deter Iran and interdict its arms shipments to its allies and proxies, and threatening military action against Iranian actions that pose an immediate threat to U.S. regional interests or allies.

The Palgrave Handbook of Male Psychology and Mental Health John A. Barry 2019-03-01 This Handbook represents the first concerted effort to understand male mental health in a way that facilitates a positive step forward in both theory and treatment. An alarming number of men experience serious mental health issues, as demonstrated by high rates of suicide and violent offending. Despite these problems, the study of male psychology has either been overlooked, or viewed as a problem of defective masculinity. This handbook brings together experts from across the world to discuss men's mental health, from prenatal development, through childhood, adolescence, and fatherhood. Men and masculinity are explored from multiple perspectives including evolutionary, cross-cultural, cognitive, biological, developmental, and existential viewpoints, with a focus on practical suggestions and demonstrations of successful clinical work with men. Throughout, chapters question existing models of understanding and treating men's mental health and explore new approaches, theories and interventions. This definitive handbook encapsulates a new wave of positive theory and practice in the field of male psychology and will be of great value to professionals, academics, and those working with males through the lifespan in any sector related to male mental health and wellbeing.

English as a Local Language Christina Higgins 2009-07-08 When analyzed in multilingual contexts, English is often treated as an entity that is separable from its linguistic environment. It is often the case, however, that multilinguals use English in hybrid and transcultural ways. This book explores how multilingual East Africans make use of English as a local resource in their everyday practices by examining a range of domains, including workplace conversation, beauty pageants, hip hop and advertising. Drawing on the Bakhtinian concept of multivocality, the author uses discourse analysis and ethnographic approaches to demonstrate the range of linguistic and cultural hybridity found across these domains, and to consider the constraints on hybridity in each context. By focusing on the cultural and linguistic bricolage in which English is often found, the book illustrates how multilinguals respond to the tension between local identification and dominant conceptualizations of English as a language for global communication.

Brain Storm Rebecca M. Jordan-Young 2011-01-07 Jordan-Young has written a stunning book that demolishes most of the science associated with the dominant paradigm of the development of sex and gender identity, behavior, and orientation. The current paradigm, brain organization theory, proposes: "Because of early exposure to different sex hormones, males and females have different brains"; and these hormones also create "gay" and "straight" brains. Jordan-Young interviewed virtually every major researcher in the field and reviewed hundreds of published scientific papers. Her conclusion: "Brain organization theory is little more than an elaboration of longstanding folk tales about antagonistic male and female essences and how they connect to antagonistic male and female natures." She explains, in exquisite detail, the flaws in the underlying science, from experimental designs that make no statistical sense to "conceptually sloppy" definitions of male and female sexuality, contradictory results, and the social construction of normality. Her conclusion that the patterns we see are far more complicated than previously believed and due to a wider range of variables will shake up the research community and alter public perception.

At the Crossroads of Sahelian Conflicts Savannah de Tessières 2018 In addition to an analysis of the types of armed violence that prevail in Niger, including terrorism, communal conflict, and armed banditry, this Report examines arms trafficking in the country and the illicit possession of weapons by civilians, as well as by armed entities and terrorist groups. The Report also provides an overview of the responses to insecurity in Niger by the national authorities, their international partners, and non-state actors, and discusses the main impacts of insecurity on the country. Finally, the Report also includes an Annexe listing all illicit small-calibre ammunition documented by the Small Arms Survey in Niger in 2016 and 2017,

the type of armed actors from which it was seized, and information regarding where else in the Sahel it is also in use, shedding significant light on trends in the illicit movement of military materiel in the region.
