Edie and the Box of Flits (Edie and the Flits 1) Kate Wilkinson 2021-07-22 A modern classic for readers of THE BORROWERS - about eleven-year-old Edie Winter and her magical box of winged people that only children can see. When eleven-year-old Edie Winter finds a mysterious shoebox on the London Underground she's amazed to discover that it's home to a family of Flits - tiny winged people. But Impy, Speckle and Nid need Edie's help. Not only do they need supplies (rice crispies, sugar sprinkles, digestive biscuits and raisins) and someone to look after them, but their brother Jot has run away and they need Edie's help to find him. Set against the backdrop of London and its Underground network, EDIE WINTER AND THE BOX OF FLITS is a story about friendship, family and noticing the little things in life. With stunning black and white artwork throughout.

Doing Business 2017 World Bank 2016-10-25 Fourteenth in a series of annual reports comparing business regulation in 190 economies, Doing Business 2017 measures aspects of regulation affecting 10 areas of everyday business activity: • Starting a business • Dealing with construction permits • Getting electricity • Registering property • Getting credit • Protecting minority investors • Paying taxes • Trading across borders • Enforcing contracts • Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. Doing Business also measures features of labor market regulation, which is not included in these two measures. This year's report introduces major improvements by expanding the paying taxes indicators to cover postfiling processes—tax audits, tax refunds and tax appeals—and presents analysis of pilot data on selling to the government which measures public procurement regulations. Also for the first time this year Doing Business collects data on Somalia, bringing the total number of economies covered to 190. Using the data originally developed by Women, Business and the Law, this year for the first time Doing Business adds a gender component to three indicators—starting a business, registering property, and enforcing contracts—and finds that those economies which limit women's access in these areas have fewer women working in the private sector both as employers and employees. The report updates all indicators as of June 1, 2016, ranks economies on their overall “ease of doing business†”, and analyzes reforms to business regulation †“ identifying which economies are strengthening their business environment the

most. Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. More than 137 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2,182 articles in peer-reviewed academic journals since its inception.

The Tree and the Canoe Joël Bonnemaïson 1994-01-01 This personal observation of Tanna, an island in the southern part of the Vanuatu archipelago, presents an extraordinary case study of cultural resistance. Based on interviews, myths and stories collected in the field, and archival research, *The Tree and the Canoe* analyzes the resilience of the people of Tanna, who, when faced with an intense form of cultural contact that threatened to engulf them, liberated themselves by re-creating, and sometimes reinventing, their own *kastom*. Following a lengthy history of Tanna from European contact, the author discusses in detail original creation myths and how Tanna people revived them in response to changes brought by missionaries and foreign governments. The final chapters of the book deal with the violent opposition of part of the island population to the newly established National Unity government.

Accounting for Culture Caroline Andrew 2005-03-30 Many scholars, practitioners, and policy-makers in the cultural sector argue that Canadian cultural policy is at a crossroads: that the environment for cultural policy-making has evolved substantially and that traditional rationales for state intervention no longer apply. The concept of cultural citizenship is a relative newcomer to the cultural policy landscape, and offers a potentially compelling alternative rationale for government intervention in the cultural sector. Likewise, the articulation and use of cultural indicators and of governance concepts are also new arrivals, emerging as potentially powerful tools for policy and program development. *Accounting for Culture* is a unique collection of essays from leading Canadian and international scholars that critically examines cultural citizenship, cultural indicators, and governance in the context of evolving cultural practices and cultural policy-making. It will be of great interest to scholars of cultural policy, communications, cultural studies, and public administration alike.

A Long Way from Douala Max Lobe 2021-10-26 Bursting with local color, this hilarious, heartwarming coming-of-age tale follows two friends on a raucous journey across Cameroon as they grapple with grief, sexuality, and dreams of leaving. After their father's sudden death, Jean's older brother Roger decides he's had enough of their abusive mother and their city. He runs away to try his luck crossing illegally into Europe, in the hope of becoming a soccer star abroad. When no news of him reaches the family, and the police declare that finding some feckless brat isn't worth their time, Jean feels he has to act. Aiming to catch up with Roger before he gets to the Nigerian border, Jean enlists the help of the older Simon, a close neighborhood friend, and the two set out on the road. Through a series of joyful, sparky vignettes, Cameroon life is revealed in all its ups and downs. Max Lobe insightfully touches on grave, complex issues, such as the violence Boko Haram has inflicted on the region, yet still recounts events with remarkable humor and levity.

Visual Arts in Cameroon Schemmel, Annette 2016-02-27 Annette Schemmel provides a highly illuminating case study of the major actors, discourses and paradigm that shaped the history of visual arts in Cameroon during the second part of the 20th century. Her book meticulously reconstructs the multiple ways of artistic knowledge acquisition - from the consolidation of the "Système de Grands Frères" in the 1970s to the emergence of more discursively oriented small artists' initiatives which responded to the growing NGO market of social practice art opportunities in the 2000s. Based on archival research, participant observation and in depth interviews with art practitioners in Douala and Yaoundé, this study is a must read for everyone who wants to better understand the vibrant artistic scenes in countries like Cameroon, which until today lack a proper state-funded infrastructure in the arts.

Great Power Competition Mahir J Ibrahimov 2021-01-18 November 2020 Great Power Competition: The Changing Landscape of Global Geopolitics is a collection of essays originating from the Cultural and Area Studies Office of the Combined Arms Center in Fort Leavenworth, Kansas. Editor Mahir J. Ibrahimov has culled together an expansion of his previous volume, Cultural Perspectives, Geopolitics, & Energy Security of Eurasia: Is the Next Global Conflict Imminent? In this volume, experts consider cultural and geopolitical implications of Chinese and Russian power projections throughout Europe, Asia, the Americas, and Africa. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com We include a Table of Contents on the back cover for quick reference. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, pocket-size (6 by 9 inches), with large text and glossy cover. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

Terra 2008 Leslie Rainer 2011-06-14 Earthen architecture constitutes one of the most diverse forms of cultural heritage and one of the most challenging to preserve. It dates from all periods and is found on all continents but is particularly prevalent in Africa, where it has been a building tradition for centuries. Sites range from ancestral cities in Mali to the palaces of Abomey in Benin, from monuments and mosques in Iran and Buddhist temples on the Silk Road to Spanish missions in California. This volume's sixty-four papers address such themes as earthen architecture in Mali, the conservation of living sites, local knowledge systems and intangible aspects, seismic and other natural forces, the conservation and management of archaeological sites, research advances, and training.

Safeguarding Traditional Cultures Peter Seitel 2001 Proceedings from a conference "A global assessment of the 1989 recommendation on the safeguarding of traditional culture and folklore" held at the Smithsonian Institution June 27-30 1999. The purpose of the conference was to assess the implementation of the Recommendation (an international normative instrument adopted by UNESCO in 1989), to bring together points of view and perspectives on the Recommendation from around the world, and suggest ways in which the Recommendation might develop in the future so that its purpose, the safeguarding of traditional culture and folklore, might be achieved.

The Book Worlds of East Asia and Europe, 1450-1850 Joseph P. McDermott 2015-10-01 This volume provides the first comparative survey of the relations between the two most active book worlds in Eurasia between 1450 and 1850. Prominent scholars in book history explore different approaches to publishing, printing, and book culture. They discuss the extent of technology transfer and book distribution between the two regions and show how much book historians of East Asia and Europe can learn from one another by raising new questions, exploring remarkable similarities and differences in these regions' production, distribution, and consumption of books. The chapters in turn show different ways of writing transnational comparative history. Whereas recent problems confronting research on European books can instruct researchers on East Asian book production, so can the privileged role of noncommercial publications in the East Asian textual record highlight for historians of the European book the singular contribution of commercial printing and market demands to the making of the European printed record. Likewise, although production growth was accompanied in both regions by a wider distribution of books, woodblock technology's simplicity and mobility allowed for a shift in China of its production and distribution sites farther down the hierarchy of urban sites than was common in Europe. And, the different demands and consumption practices within these two regions' expanding markets led to different genre preferences and uses as well as to the growth of distinctive female readerships. A substantial introduction pulls the work together and the volume ends with an essay that considers how these historical developments shape the present book worlds of Eurasia. "This splendid volume offers expert new insight into the ways of producing, financing, distributing, and reading printed books in early modern Europe and East Asia. This is comparative history at its best, which leaves us with a better understanding of each context and of the challenges common to book cultures across space and time." —Ann Blair, author of *Too Much to Know: Managing Scholarly Information before the Modern Age* and professor of history, Harvard University "This engrossing account of the history of the book by leading specialists on the European and East Asian publishing worlds takes stock of

what we know—and how much we still need to know—about the places that books had in the lives of our early modern forebears. Each chapter is masterful state-of-the-field coverage of its subject, and together they set a new standard for future studies of the book, East and West.” —Timothy Brook, author of *The Troubled Empire: China in the Yuan and Ming Dynasties*

The Employee Experience Advantage Jacob Morgan 2017-03-01 Research Shows Organizations That Focus on Employee Experience Far Outperform Those That Don't

Recently a new type of organization has emerged, one that focuses on employee experiences as a way to drive innovation, increase customer satisfaction, find and hire the best people, make work more engaging, and improve overall performance. *The Employee Experience Advantage* is the first book of its kind to tackle this emerging topic that is becoming the #1 priority for business leaders around the world. Although everyone talks about employee experience nobody has really been able to explain concretely what it is and how to go about designing for it...until now. How can organizations truly create a place where employees want to show up to work versus need to show up to work? For decades the business world has focused on measuring employee engagement meanwhile global engagement scores remain at an all time low despite all the surveys and institutes that been springing up tackle this problem. Clearly something is not working. Employee engagement has become the short-term adrenaline shot that organizations turn to when they need to increase their engagement scores. Instead, we have to focus on designing employee experiences which is the long term organizational design that leads to engaged employees. This is the only long-term solution. Organizations have been stuck focusing on the cause instead of the effect. The cause is employee experience; the effect is an engaged workforce. Backed by an extensive research project that looked at over 150 studies and articles, featured extensive interviews with over 150 executives, and analyzed over 250 global organizations, this book clearly breaks down the three environments that make up every single employee experience at every organization around the world and how to design for them. These are the cultural, technological, and physical environments. This book explores the attributes that organizations need to focus on in each one of these environments to create COOL spaces, ACE technology, and a CELEBRATED culture. Featuring exclusive case studies, unique frameworks, and never before seen research, *The Employee Experience Advantage* guides readers on a journey of creating a place where people actually want to show up to work. Readers will learn: The trends shaping employee experience How to evaluate their own employee experience using the Employee Experience Score What the world's leading organizations are doing around employee experience How to design for technology, culture, and physical spaces The role people analytics place in employee experience Frameworks for how to actually create employee experiences The role of the gig economy The future of employee experience Nine types of organizations that focus on employee experience And much more! There is no question that engaged employees perform better, aspire higher, and achieve more, but you can't create employee engagement without designing employee experiences first. It's time to rethink your strategy and implement a real-world framework that focuses on how to create an organization where people want to show up to work. *The Employee Experience Advantage* shows you how to do just that.

Cultural Heritage as Civilizing Mission Michael Falser 2015-03-04 This book investigates the role of cultural heritage as a constitutive dimension of different civilizing missions from the colonial era to the present. It includes case studies of the Habsburg Empire and German colonialism in Africa, Asian case studies of (post)colonial India and the Dutch East Indies/Indonesia, China and French Indochina, and a special discussion on 20th-century Cambodia and the temples of Angkor. The themes examined range from architectural and intellectual history to historic preservation and restoration. Taken together, they offer an overview of historical processes spanning two centuries of institutional practices, wherein the concept of cultural heritage was appropriated both by political regimes and for UNESCO World Heritage agendas.
