Explorers Matthew Cordell 2019-09-24 From Caldecott Medalist Matthew Cordell, *Explorers* is a new picture book about an extraordinary trip to a museum. When a family goes to a local museum, a boy notices a homeless man sitting outside, making brightly colored origami birds. He convinces his dad to buy a bird the man makes just for him. Once inside the museum, his little sister takes the bird and launches it into the air. Is it lost? Soon another boy helps him look, and the paper bird brings two families—and two new friends—together. With the style he used in *Wolf in the Snow*, Matthew Cordell shows how an ordinary family outing can be both extraordinary and magical.

Being Frank Donna W. Earnhardt 2015-01-01 Frank follows the motto, "Honesty is the best policy." He tells the truth, the whole truth, and nothing but the truth. Frank never lies to his schoolmates, he always tells the truth to adults, and he's always honest with police officers. The balancing act of finding tact, that fine line between telling the truth and telling too much truth, is the main theme of this story, and it's very funny—although not necessarily to his friend Dotti whose freckles remind Frank of the Big Dipper, or to the teacher who hears that her breath smells like onions, or to the principal who is told that his toupee looks like a weasel. No one is quite as impressed with Frank's honesty as he thinks they should be. He is sweet and straightforward, and, well, very frank, but with everyone annoyed at him, Frank is now honestly unhappy. He decides to visit his confidante and pal, Grandpa Ernest, who has a history of frankness himself. With a few lessons from Grandpa, Frank begins to understand that the truth is important, but so is not being hurtful. With amusing characters and expressive artwork, this story tells the powerful message of finding the good in everything—a lesson that sends compassion and understanding to take the place of rudeness in the complex concept of truth.

Kemet Leonardo Paolo Lovari 2016-09-30 The Egyptian civilization, which flourished along the banks of the Nile for about 3000 years, was one of the most extraordinary and enduring of the ancient world. Even today, after two thousand years since its setting, it continues to exert considerable charm. The Egyptians left many traces of their culture, thanks to the climate dry desert that has preserved over the centuries. The Sphinx and many pyramids, mummies, funerary masks, funerary decorations, the papyri, have thus been preserved from destruction, the common fate of many ancient remains. Egypt is in fact also known as the "gift of the Nile", because the flooding of the river deposited on the fields a layer of fertile silt, vital for the growth of crops. Already in prehistoric times, the first settlers learned to sow and plant their crops in the fields still covered by mud after the waters had receded. I collected, almost always abundant, they allowed that civilization to thrive and achieve a brilliance never known before. The ancient Egyptians

called the fertile valley of the Nile kemet, "black earth", and themselves remet-en-kemet, "the people of the black earth", while the desert surrounding the town was said deshret, "red earth."
