Fourth a Lie Pepper Winters 2020-05-19 From New York Times Bestseller, Pepper Winters, comes the fourth book in Goddess Isles A USA Today Bestselling Dark Romance “There was a truth once. Truth we shared in the dark and scribed scars upon our hearts. There was a lie once. A lie that shattered our hard-earned truth apart.” Eleanor Grace did the unbelievable. She fell for a man who trades in women, dabbles in myth, and has the morals of a cold-hearted beast. However, love isn't enough where past sins are concerned, and only pain can follow. Sully Sinclair did the impossible. He gave his trust to a goddess who has the ultimate power to break him. Unfortunately, paradise is just an illusion, his islands aren't impenetrable, and now he has to pay the price. A fledgling connection. A war they can't stop. A future that doesn't bow to fate. 5 Stars - This series is forever going to be one of my favorites from Pepper. Heather, GR 5 Stars - This book! Everything is about Goddess Isles at this point. I don't feel like I will be whole, until the last book. It's a MUST! Ash.imagery

Turns out, Prosper's great-great-great-great-great-something grandfather made, and then broke - a contract with a malefactor, a demon who exchanges fortune for eternal servitude. Now Alastor, the malefactor, has reawakened and is intent on destroying the Redding fortune, unless they can kill him in the body he inhabits, which, oh, wait, that's Prosper, and why is his grandmother coming at him with a silver blade? In danger from both the demon trying to take over his soul and the family that would rather protect their fortune than their own kin, Prosper narrowly escapes with the help of his long lost Uncle Barnabas and Barnabas's daughter, Nell, a witch in training. According to Barnabas and Nell, they have only days to break the family curse and find a way to banish Alastor back to the demon realm. Until then, Prosper has to deal with Alastor's vengeful mutterings inside his head (not to mention his nasty habit of snacking on spiders). And, every night, Alastor's control over his body grows stronger. . . As the deadline to the curse draws nearer, Prosper and Nell realize there's more at stake than just the Redding family fortune. . . that there might be something else out there, something worse than Alastor, that could destroy the balance between the human and demon realms and change the world as they know it forever.

The Age of Catastrophe Heinrich August Winkler 2015-01-01 One of Germany's leading historians presents an ambitious and masterful account of the years encompassing the two world wars. Characterized by global war, political revolution and national crises, the period between 1914 and 1945 was one of the most horrifying eras in the history of the West. A noted scholar of modern German history, Heinrich August Winkler examines how and why Germany so radically broke with the normative project of the West and unleashed devastation across the world. In this total history of the thirty years between the start of World War One and the dropping of atomic bombs on Hiroshima and Nagasaki, Winkler blends historical narrative with political analysis and encompasses military strategy, national identity, class conflict, economic development and cultural change. The book includes astutely observed chapters on the United States, Japan, Russia, Britain, and the other European powers, and Winkler's distinctly European perspective offers insights beyond the accounts written by his British and American counterparts. As Germany takes its place at the helm of a unified Europe, Winkler's fascinating account will be widely read and debated for years to come.

The Ascendancy of Finance Joseph Vogl 2017-09-05 The global financial crisis of 2008 ushered in a system of informal decision-making in the grey zone between economics and politics. Legitimized by a rhetoric of emergency, ad hoc bodies have usurped democratically elected governments. In line with the neoliberal credo, the recent crisis has been used to realize the politically impossible and to re-align executive power with the interests of the finance industry. In this important book, Joseph Vogl offers a much longer perspective on these developments, showing how the dynamics of modern finance capitalism have always rested on a complex and constantly evolving relationship between private creditors and the state. Combining historical and theoretical analysis, Vogl argues that over the last three centuries, finance has become a "fourth estate," marked by the systematic interconnection of treasury and finance, of political and private economic interests. Against this historical background, Vogl explores the latest phase in the financialization of government, namely the dramatic transfer of power from states to markets in the latter half of the 20th century. From the liberalization of credit and capital markets to the privatization of social security, he shows how policy has actively enabled a restructuring of the economy around the financial sector. Political systems are "imprisoned" by the regime of finance, while the corporate model suffuses society, enclosing populations in the production of financial capital. *The Ascendancy of Finance* provides valuable and unsettling insight into the genesis of modern power and where it truly resides.
