Annales Benjamin Constant 1990

Dictionnaire François-Italien Francesco "d'" Alberti di Villanuova 1810

Literary Figures in French Drama (1784-1834) Eric H. Kadler 1969 The general aim of this book is to present a study of a dramatic genre which was a significant facet of French drama in the period from 1784 to 1834 and has never before been singled out or analyzed. The striking feature of the plays of this genre is that the protagonists represent French literary figures. A casual examination of a collection of late eighteenth-and early nineteenth-century plays, many of which concern literary figures, led to the initial idea for this study. Conscientious cross-checking was subsequently done in a number of reference works and contemporary newspapers to obtain complete coverage and to draw up a list of all the plays in which French literary figures appeared as characters. From the total number of such plays, 153 have been used as the primary source of information. They were found scattered either in different collections or as separate copies in various libraries. This source has been supplemented by use of theatrical journals and almanacs giving reviews of some of the plays which were not published.

**Memory, History, Forgetting** Paul Ricoeur 2009-01-01 Why do major historical events such as the Holocaust occupy the forefront of the collective consciousness, while profound moments such as the Armenian genocide, the McCarthy era, and France's role in North Africa stand distantly behind? Is it possible that history "overly remembers" some events at the expense of others? A landmark work in philosophy, Paul Ricoeur's *Memory, History, Forgetting* examines this reciprocal relationship between remembering and forgetting, showing how it affects both the perception of historical experience and the production of historical narrative. *Memory, History, Forgetting*, like its title, is divided into three major sections. Ricoeur first takes a phenomenological approach to memory and mnemonical devices. The underlying question here is how a memory of present can be of something absent, the past. The second section addresses recent work by historians by reopening the question of the nature and truth of historical knowledge. Ricoeur explores whether historians, who can write a history of memory, can truly

break with all dependence on memory, including memories that resist representation. The third and final section is a profound meditation on the necessity of forgetting as a condition for the possibility of remembering, and whether there can be something like happy forgetting in parallel to happy memory. Throughout the book there are careful and close readings of the texts of Aristotle and Plato, of Descartes and Kant, and of Halbwachs and Pierre Nora. A momentous achievement in the career of one of the most significant philosophers of our age, *Memory, History, Forgetting* provides the crucial link between Ricoeur's *Time and Narrative* and *Oneself as Another* and his recent reflections on ethics and the problems of responsibility and representation. "His success in revealing the internal relations between recalling and forgetting, and how this dynamic becomes problematic in light of events once present but now past, will inspire academic dialogue and response but also holds great appeal to educated general readers in search of both method for and insight from considering the ethical ramifications of modern events. . . . It is indeed a master work, not only in Ricoeur's own vita but also in contemporary European philosophy."—Library Journal "Ricoeur writes the best kind of philosophy—critical, economical, and clear."— New York Times Book Review

**Candide** Voltaire 2002 A flamboyant and controversial personality of enormous wit and intelligence, Voltaire remains one of the most influential figures of the eighteenth-century Enlightenment. *Candide*, his masterpiece, is a brilliant satire of the theory that our world is "the best of all possible worlds." The book traces the picaresque adventures of the guileless *Candide*, who is forced into the army, flogged, shipwrecked, betrayed, robbed, separated from his beloved *Cunegonde*, tortured by the Inquisition, et cetera, all without losing his resilience and will to live and pursue a happy life. This Modern Library edition, published to celebrate the seventy-fifth anniversary of Random House, is a facsimile of the first book ever released under the Random House colophon. It includes the timeless illustrations by Rockwell Kent, a twentieth-century artist whose wit and genius serve as a counterpart and compliment to Voltaire's.
