**Judgment At Istanbul** Vahakn N. Dadrian 2011-12-30 Turkey's bid to join the European Union has lent new urgency to the issue of the Armenian Genocide as differing interpretations of the genocide are proving to be a major reason for the delay of the its accession. This book provides vital background information and is a prime source of legal evidence and authentic Turkish eyewitness testimony of the intent and the crime of genocide against the Armenians. After a long and painstaking effort, the authors, one an Armenian, the other a Turk, generally recognized as the foremost experts on the Armenian Genocide, have prepared a new, authoritative translation and detailed analysis of the Takvim-i Vekâyi, the official Ottoman Government record of the Turkish Military Tribunals concerning the crimes committed against the Armenians during World War I. The authors have compiled the documentation of the trial proceedings for the first time in English and situated them within their historical and legal context. These documents show that Wartime Cabinet ministers, Young Turk party leaders, and a number of others inculpated in these crimes were court-martialed by the Turkish Military Tribunals in the years immediately following World War I. Most were found guilty and received sentences ranging from prison with hard labor to death. In remarkable contrast to Nuremberg, the Turkish Military Tribunals were conducted solely on the basis of existing Ottoman domestic penal codes. This substitution of a national for an international criminal court stands in history as a unique initiative of national self-condemnation. This compilation is significantly enhanced by an extensive analysis of the historical background, political nature and legal implications of the criminal prosecution of the twentieth century's first state-sponsored crime of genocide.

The Armenian Genocide in Perspective Stephen R. Graubard 2017-09-20 Seven decades after the destruction of the Armenian population in the Ottoman Empire, the Armenian genocide remains largely ignored by governments and forgotten by the world public, even though the annihilation of Armenians was headlined around the world in 1915. Scholarly investigation of the Armenian genocide is just beginning, made more difficult by the tendency of many establishment figures to rationalize the past and the attempt of perpetrator governments and their successors to deny the past. This volume is a pioneering collective attempt to assess and analyze the Armenian genocide from differing perspectives, including history, political science, ethics, religion, literature, and psychiatry. Focusing on the general implications of denial, rationalization, and responsibility, it is particularly important as a precursor to the study of the Holocaust and other genocides.

*Economic Migration, Social Cohesion and Development* Patrick A. Taran 2009-01-01 In the final declaration of their 8th conference, the European ministers responsible for migration affairs committed to promoting and protecting the human rights of migrants, with special attention to gender equality and the rights of women; to strengthening dialogue and co-operation between receiving, transit and origin countries, particularly within Europe; and to promoting coherence at all levels (international, national, regional and local) between migration, development and integration policies. The ministers also agreed to manage economic migration with a view to promoting economic and social progress in receiving, transit and origin countries; to enhance social cohesion by improving the integration of migrants and persons of immigrant background and the re-integration of migrants who return to their countries of origin; and to strengthen the contribution of migrants and persons of immigrant background to development in receiving and origin countries and their involvement in co-development programmes. This report was prepared to support the ministerial debate during the conference. It presents the main aspects and characteristics of migration in the member states of the Council of Europe, analyses policy challenges raised by contemporary migration and identifies an integrated policy agenda.

Changing the Terms Sherry Simon 2000 This volume explores the theoretical foundation and undercurrents of translation in diverse postcolonial contexts. In doing so the authors examine complex sequences of intercultural contact and encroachment, fusion, and breach. The impact that history and political relations have had on the role of translation in the evolution of literary and cultural relations is demonstrated and examined in detail. A strength of this collection of essays lies in the various postcolonial contexts it deals with the challenges posed to the commonly held views on postcolonial theory.

The Impact of War on Children Graça Machel 2001 Graca Machel, UNICEF's special rapporteur, also scrutinises sexual crimes in time of war, the fate of orphans, the disproportionate suffering of children endure in civil wars, and their special vulnerability to such side-effects of conflict as famine, disease and social fragmentation. "The Impact of War on Children" is an urgent call to action-for the commitment and tenacity needed to protect children from the atrocities of war. Children present a uniquely compelling motivation for mobilisation, and an opportunity to confront the problems that cause their suffering. This book is complemented by 16 evocative photographs by Sebastiao Salgado, a documentary photographer of world renown, covering Afghanistan, Iraq, Palestine, Rwanda and elsewhere.

**Creating "Greater Malaysia"** Tai Yong Tan 2008 Malaysia came into existence on 9/16/63 as a federation of Malaya, Singapore, Sabah (North Borneo), and Sarawak; in 1965 Singapore withdrew from the federation. Offers an in-depth and detailed analysis of the political processes that led to formation of the Federation of Malaysia in 1963. It argues that the Malaysia that came into being following the amalgamation of Malaya, Singapore, Sarawak and North Borneo was a political creation whose only rationale was that it served a convergence of political and economic expediency for the departing colonial power, the Malayan leadership and the ruling party of self-governing Singapore. 'Greater Malaysia' was thus an artificial political entity, the outcome of a concatenation of interests and motives of a number of political actors in London and Southeast Asia from the 1950s to the early 1960s. This led to a number of unresolved compromises between Singapore and Kuala Lumpur and did not obviate the possibility of future difficulties, and the seeds of dissension sown by the disagreements between the two governments were to sprout into major crises during Singapore's brief history in the Federation of Malaysia.

**The State of the World's Children 2017** United Nations 2018-07-29 As the debate about whether the internet is safe for children rages, The State of the World's Children 2017: Children in a Digital World discusses how digital access can be a game changer for children or yet another dividing line. The report represents the first comprehensive look from UNICEF at the different ways digital technology is affecting children, identifying dangers as well as opportunities. It makes a clear call to governments, the digital technology sector and telecom industries to level the digital playing field for children by creating policies, practices and products that can help children harness digital opportunities and protect them from harm.

**How Words Change Meaning** Antoine Meillet 2018-12-05 The language has for first condition the existence of human societies which it is his side constantly used and essential instrument; except historical accident, the limits of the various languages tend to coincide with those of social groups called nations; the lack of unity of language is the sign of a recent State, as in Belgium, or artificially constituted, as in Austria. The language is so eminently a social fact. Indeed, it exactly fits the definition proposed Durkheim; a language exists independently of the individuals who speak it, and although it has no reality outside the sum of these individuals, it is however, due to its generality, external to each of them; which shows, is that it does not depend on any of them to change and deviation individual usage causes a reaction. This reaction has no more often than other sanction than the ridicule to which she exposes the man who does not like everyone else. But in modern civilized

States, she goes up to exclude public jobs, by reviews, those who do not comply with the use allowed by a given social group. The characters of exteriority to the individual and coercion by which Durkheim defined the social fact appear in the language with the last evidence.

Homo Aestheticus Luc Ferry 1993 Can subjective, individual taste be reconciled with an objective, universal standard? In *Homo Aestheticus*, Luc Ferry argues that this central problem of aesthetic theory is fundamentally related to the political problem of democratic individualism. Ferry's treatise begins in the mid-1600s with the simultaneous invention of the notions of taste (the essence of art as subjective pleasure) and modern democracy (the idea of the State as a consensus among individuals). He explores the differences between subjectivity and individuality by examining aesthetic theory as developed first by Kant's predecessors and then by Kant, Hegel, Nietzsche, and proponents of the avant-garde. Ferry discerns two "moments" of the avant-garde aesthetic: the hyperindividualistic iconoclasm of creating something entirely new, and the hyperrealistic striving to achieve an extraordinary truth. The tension between these two, Ferry argues, preserves an essential element of the Enlightenment concern for reconciling the subjective and the objective—a problem that is at once aesthetic, ethical, and political. Rejecting postmodern proposals for either a radical break with or return to tradition, Ferry embraces a postmodernism that recasts Enlightenment notions of value as a new intersubjectivity. His original analysis of the growth and decline of the twentieth-century avant-garde movement sheds new light on the connections between aesthetics, ethics, and political theory.

**The Iron Curtain Over America** John Beaty 2016-11-08 This book is unique in that it not only discusses the internal decay and the external disasters which threaten the life of American people (in fact, of ALL the people), but diagnoses the growing cancer of which they are merely the symptoms. Going behind the iron curtain of propaganda, censorship and deception, the author, former Colonel of the Military Intelligence Service, gives to the reader the first comprehensive documented account of the origin, the scope, and the intentions of the insidious forces working from within, which are seeking to destroy Western civilization. Crossroads of European Histories R. A. Stradling 2006-01-01 This publication contains thirty-five papers written by European historians in relation to five key periods in European history: the year of revolutions 1848, the Balkan wars of 1912-13, the search for peace in 1919, the end of the Second World War and the beginning of the Cold War in 1945, and the events of 1989-90 in central and eastern Europe. The papers are drawn from five conferences organised by the Council of Europe based on the principles of Recommendation Rec (2001) 15 on European history teaching. They consider events based on the concept of 'multiperspectivity' which seeks to facilitate an open approach to historical debate based on critical analysis of different perspectives of historical developments, often involving controversial and sensitive issues. This publication is complemented by two related titles: a teaching manual and a DVD of original documents.

*America and the Armenian Genocide of 1915* Jay Winter 2004-01-08 Before Rwanda and Bosnia, and before the Holocaust, the first genocide of the twentieth century happened in Turkish Armenia in 1915, when approximately one million people were killed. This volume is an account of the American response to this atrocity. The first part sets up the framework for understanding the genocide: Sir Martin Gilbert, Vahakn Dadrian and Jay Winter provide an analytical setting for nine scholarly essays examining how Americans learned of this catastrophe and how they tried to help its victims. Knowledge and compassion, though, were not enough to stop the killings. A terrible precedent was born in 1915, one which has come to haunt the United States and other Western countries throughout the twentieth century and beyond. To read the essays in this volume is chastening: the dilemmas Americans faced when confronting evil on an unprecedented scale are not very different from the dilemmas we face today.

*Hot Money and the Politics of Debt* R.T. Naylor 2004-08-17 A ball of hot money rolls around the world. It seeks anonymity and political refuge. It dodges taxes and sidesteps currency controls. It rolls through offshore shell companies and secret bank accounts, phoney charities and fraudulent religious foundations. It is kept rolling by white-collar criminals, gun-runners, drug dealers, insurgent groups, scam artists, tax evaders, gold and gem smugglers, and, not least, secret service agents plotting coups and financing revolutions. R.T. Naylor explains the origins of this pool of hot and homeless money, its origins, its uses and abuses, how the world of high finance, corporate and governmental, became hostage to it, and the price the world is paying and will continue to pay until the hostages are released. This book was one of the first, and remains the most comprehensive, to dissect the world of offshore finance, capital flight, money laundering, and tax evasion. Once a subject of concern principally to tax authorities and finance ministries, since the

September 11, 2001 hot and homeless money has now become a central preoccupation for police forces and intelligence services around the world.

Young People from Lower-income Neighborhoods Council of Europe Publishing 2007-01-01 The question of young people from lower-income neighbourhoods is often on the political agenda, and the responses proposed vary according to circumstances and the social visibility of a problem which sometimes translates into violence. Nonetheless this problem is far from being resolved, nor is it approached via a long-term strategy aimed at devising alternatives. This guide proposes food for thought and instruments aimed at bringing to light the stigmatisation and stereotypical ideas that are often the starting point for so-called youth integration initiatives targeting young people from these neighbourhoods.

**The Holocaust in Historical Context** Steven T. Katz 1994 With this volume, Steven T. Katz initiates the provocative argument that the Holocaust is a singular event in human history. Unlike any previous work on the subject, *The Holocaust in Historical Context* maintains that the Holocaust is the only example of true genocide--a systematic attempt to kill all the members of a group--in history. In a richly documented, subtly argued, and amazingly wide-ranging comparative historical and phenomenological analysis, Katz explores the philosophical and historiographical implications of the uniqueness of the Holocaust. After he establishes the nature of genocide, Katz examines other occasions of mass death to which the Holocaust is regularly compared from slavery in the ancient world to the medieval persecution of heretics, from the depopulation of the New World to the Armenian massacres during World War I, and from the Gulag to Cambodia. In the first of three volumes, Katz, after setting the groundwork for his analysis with four chapters dealing with essential methodological issues, begins his comparative case studies with slavery in the ancient Greek and Roman world, and continues with such subjects as medieval antisemitism, the European witch craze, the medieval wars of religion, the medieval persecution of homosexuals, and the French campaign against Huguenots. Throughout this investigation of pre-modern Jewish and non-Jewish history, Katz looks at the ways in which the Holocaust has precedents and parallels, and in what way it stands alone as a singular, highly distinctive historical event.

*Child Friendly Schools Manual* 2009 This Child-Friendly Schools (CFS) Manual was developed during three-and-a-half years of continuous work, involving the United Nations Children's Fund education staff and specialists from partner agencies working on quality education. It benefits from fieldwork in 155 countries and territories, evaluations carried out by the Regional Offices and desk reviews conducted by headquarters in New York. The manual is a part of a total resource package that includes an e-learning package for capacity-building in the use of CFS models and a collection of field case studies to illustrate the state of the art in child-friendly schools in a variety of settings.

**Male Roles, Masculinities and Violence** Ingeborg Breines 2000 This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.
