Living Languages: An Integrated Approach to Teaching Foreign Languages in Secondary Schools Catherine Watts 2013-06-17 Living Languages is simply bursting with practical and original ideas aimed at teachers and trainee teachers of foreign languages in secondary schools. Written by a team of experienced linguists, this book will inspire and motivate the foreign language classroom and the teachers who work within it. Living Languages comprises eight chapters and is structured around the integrated classroom, merging language learning with different aspects of the wider curriculum such as multimedia, theatre and music, celebrations and festivals, sport, and alternative approaches to teaching languages. A DVD is also included with the book containing additional teaching materials and the associated films and audio recordings which make this a fully developed and effective teaching resource. Twenty-eight real-life case studies and projects are presented, all of which have been tried and tested in the classroom with many having won recent educational awards. Ideas and activities outlined in this unique resource include: Languages and multi-media projects involving different uses of technology such as film-making, Digital Storytelling and subtitling in different languages; Languages and theatre and music including the work of the Théâtre Sans Frontières with its Marie Curie Science Project; Motivating pupils to learn languages whilst keeping fit including examples from Score in French, The German

Orienteering Festival and Handball in Spanish; Continuing Professional Development to inspire secondary language teachers to continue their individual professional development. The chapter contains concrete examples of others' experiences in this area and includes details of support organisations and practical opportunities. Each project is explored from the teachers' perspective with practical tips, lesson plans and reflections woven throughout the text such as what to budget, how to organise the pre-event period, how to evaluate the activity and whom to contact for further advice in each case. Activities and examples throughout are given in three languages - French, German and Spanish.

Marguerite Yourcenar and the USA Bérengère Deprez 2009 This is a very welcome contribution to the debate on the real effect of the United States on Yourcenar's life and thought, a good read on a fascinating subject which critics have often treated dismissively. Future scholarship will be obliged to weigh Berengere Deprez's arguments and evidence seriously, and thank her for her clearheaded thoroughness. Prof. Brian Gill, University of Calgary, Canada --

Mémoires du général de Caulaincourt, duc de Vicence, grand écuyer de l'Empereur Général de Division Armand Augustin Louis de Caulaincourt, Duc de Vincence 2013-02-18 « Caulaincourt n'avait cessé sous l'Empire de prendre des notes chaque jour au bivouac ou dans le cabinet de Tuileries. Il se serait décidé à les mettre en forme entre 1822 et 1825. L'énorme documentation réunie quotiennement explique la valeur du témoignage du duc de Vicence... le récit ne commence qu'à l'entrevue d'Erfurt. Il se poursuit avec la campagne de Russie et la retraite. C'est dans les chapitres VII-VIII et XI [« En traîneau avec l'Empereur »] souvent rééditées que l'on dispose d'un document de premier ordre sur l'état d'esprit de Napoléon après le désastre de 1812. Quittant la Grande Armée, l'Empereur voyage en la seule compagnie de Caulaincourt de Smorgoni à Paris. Pendant ce long voyage, Napoléon se confie au Grand Ecuyer avec d'autant plus de franchise qu'il ignore que Caulaincourt prend des notes. « Puis Caulaincourt narre les péripéties de Congrès de Châtillon et y justifie son attitude. On notera d'importants développements sur l'entrée des Alliés à Paris, l'attitude de Napoléon, la défection de Marmont, l'abdication et la tentative de suicide de l'Empereur. Baroque Fictions Margaret Elizabeth Colvin 2005 Marguerite Yourcenar's election to the prestigious, tradition-bound French Academy in 1981 as its first female "immortal" cemented her already well-established niche as a neoclassical author of the modern French canon. A self-taught classicist and historian with a polished, "classical" style and a penchant for using myth and universal themes such as death, sacrifice, time, and human suffering, which in the tradition of ancient and modern classical moralists seem to transcend the limitations of time and place and speak to the ages, Yourcenar often situates her fictions, including her two most internationally acclaimed works *Mémoires d'Hadrien* and *L'Œuvre au Noir*, in distant historical settings, re-creating the past with uncanny insight and precision. While these factors viewed as a whole have justifiably earned Yourcenar the neoclassical label by which she is most recognized, I argue in a close reading of four fictional works that they fail to account for her writings' opacity and subversive resistance to closure, rejection of stable interpretations, and her deconstruction of what postmodernists call grand Narratives. The classical balance between form and substance is frequently upset in her fictions, aesthetic virtuosity serving as a substitute for the inefficacy and limitations of human knowledge and western epistemologies in general. Not only do these qualities demand that we reassess the cultural biases restricting Yourcenar's oeuvre to the neoclassical pantheon; they also strongly suggest that her fictions model certain characteristics of what in the latter half of the twentieth century was identified as the neobaroque: an aesthetic which favors artistic play, instability, opacity, and infinite multiplicity. Neobaroque "logic" in turn emphasizes the absence of theoretical assurances and the limitations of reason. The author's drive for aesthetic perfection suggests a nostalgic attempt to overcome the void of meaning and achieve some form of mystic transcendence. The coincidence of the new millennium—which in many ways reflects Yourcenar's disquieting vision—and her centenary offers us, instead of an excuse to discard her neoclassical label, the obligation to reassess it.

Legacies of the Rue Morgue Andrea Goulet 2016 Taking Edgar Allan Poe's 1841 "The Murders in the Rue Morgue" as an inaugural frame, Andrea Goulet traces shifting representations of violence, space, and nation in French crime fiction from serial novels of the 1860s to cyberpunk fictions today. She argues that the history of spatial sciences—geology, paleontology, cartography—helps elucidate the genre's fundamental tensions: between brutal murder and pure reason; historical past and reconstructive present; national identity and global networks. As the sciences underlying her analysis make extensive use of strata and grids, Goulet employs vertical and horizontal axes to orient and inform her close readings of crime novels. Vertically, crimes that take place underground subvert above-ground modernization, and national traumas of the past haunt present criminal spaces. Horizontally, abstract crime scene maps grapple with the sociological realities of crime, while postmodern networks of international data trafficking extend colonial anxieties of the French nation. Crime gangs in the catacombs of 1860s Paris. Dirt-digging detectives in coastal caves at the fin-de-siècle. Schizoid cartographers in global cyberspace. Crime fiction's sites of investigation have always exposed central rifts in France's national identity while signaling broader, enduring unease with violent disruptions to social order. Reading murder novels of the last 150 years in the context of shifting sciences, *Legacies of the Rue Morgue* provides a new spatial history of modern crime fiction.

Le tour de la prison Marguerite Yourcenar 2013 De tant de périple, voilà des bribes saisissantes. Si Marguerite Yourcenar évoque sa traversée d'est en ouest du continent américain, le centre de ce recueil posthume est le Japon. La voyageuse nous parle du poète errant Bashô, du théâtre kabuki, des jardins zen avec chaque fois la fraîcheur miraculeuse de la découverte. Après tant d'années d'enfermement, voici le grand large, le total dépaysement. Qui serait assez insensé pour mourir sans avoir fait au moins le tour de sa prison ?

Japan, France, and East-West Aesthetics Jan Hokenson 2004 Japan, France is the first comprehensive history of the idea of Japan in France, as tracked through close readings of canonical French writers and thinkers from the 1860s to the present. The focus is literary and intellectual, the context cultural. The discovery of Japanese woodblock prints in Paris, following the opening of Japan to the West in 1854, was a startling aesthetic encounter that played a crucial role in the Impressionists' and Post-Impressionists' invention of Modernism. French writers also experimented with Japanese aesthetics in their own work, in ways that similarly thread into the foundations of literary Modernism. Japonisme (the practice of adapting Japanese aesthetics to creative work in the West) became a sustained French tradition, in texts by such writers as Zola and Proust through Barthes and Bonnefoy. Each generation discovered new Japanese arts and genres, commented on the work of their predecessors in this vein, and broke still more ground in East-West aesthetics to innovate in the forms of Western literature and thought. To read literary history in this way unsettles Eurocentric assumptions about many of the French writers who are commonly considered the
