The 1998–2000 Eritrea-Ethiopia War and Its Aftermath in International Legal Perspective Andrea de Guttry 2021-04-01 This book centres on the war that raged between Eritrea and Ethiopia from 1998 to 2000, a war that caused great loss of life and tremendous devastation. It analyses the war in great detail from an international legal perspective: the nature and the state of the boundary conflict preceding the actual armed conflict, the military actions themselves, the role of the UN peace-keeping mission, the responsibility for the multitude of explosive remnants of the war left behind. Ample attention is paid to the decisions of the Eritrea-Ethiopia Claims Commission and the Eritrea-Ethiopia Boundary Commission. This study is not limited to the war and the period immediately following it, it also examines its more extended aftermath prolonging the analysis as far as the more recent improvement in the relations between Eritrea and Ethiopia, away from a situation of 'no war, no peace' that prevailed after the armed conflict ended. The analysis of the war and its aftermath is not only in terms of international legal issues, it has been placed in a wider than strictly legal perspective. The book is a valuable work for academics and practitioners in international law, human rights and humanitarian law in particular, for political scientists, diplomats, civil servants, historians, and all those others seriously interested in the Horn of Africa. Andrea de Guttry is Full Professor of Public International Law at the Scuola Superiore Sant'Anna in Pisa, Italy. Harry H.G. Post is Adjunct Professor in the Faculté Libre de Droit of the Université Catholique de Lille in Lille, France. Gabriella Venturini is Professor Emerita in the Dipartimento di Studi internazionali, giuridici e storico-politici of the Università degli Studi di Milano in Milan, Italy.

Ethiopian Yearbook of International Law 2016 Zeray Yihdego 2017-06-09 This first volume of EtYIL focuses on issues concerning the developing world in general and (the Horn of) Africa - and Ethiopia - specifically. It argues that rebalancing the international law narrative to reflect Africa's legitimate interests is an urgent priority, and can only succeed through the fair representation of African countries in the creation and interpretation of international law. The book begins by reflecting on the ICJ's West African Cases and provides a unique perspective on decolonisation as a source of jus cogens and obligations erga omnes. This is followed by a comprehensive analysis of the reception of international law in the Ethiopian legal system, and of the potential implications of Ethiopia joining the WTO. The book then delves into such topical issues as the relationship between competition for natural resources and international investment law, the UN Global Goals and the fledgling international climate change regime, with particular emphasis on the Paris Climate Agreement and their implications for developing countries. Further issues include the Declaration of Principles on the Grand Ethiopian Renaissance Dam signed by Ethiopia, Sudan and Egypt in light of Nile colonial treaties and contemporary international watercourses law, as well as selected legal implications of the armed conflict in South Sudan. Gathering high-quality

scholarship from diverse researchers, and examining a constellation of critical international law issues affecting developing countries, especially African countries, the book offers a unique resource.

Nationalism, Law and Statelessness John R. Campbell 2013-07-18 In 1998 a bloody war erupted in The Horn of Africa between Ethiopia and Eritrea. During the war Ethiopia arrested and expelled 70,000 of its citizens, and stripped another 50,000-plus of their citizenship on the basis of their presumed ethnicity. *Nationalism, Law and Statelessness: Grand Illusions in the Horn of Africa* examines the events which led up to the war, documents the expulsions and denationalisations that took place and follows the flight of these stateless Ethiopians out of the Horn into Europe. The core issue examined is the link between sovereignty and statelessness as this plays out in The Horn of Africa and in the West. The book provides a valuable insight into how nations create and perpetuate statelessness, the failure of law, both national and international, to protect and address the plight of stateless persons, and the illusory nature of nationalism, citizenship and human rights in the modern age. The study is one of a very few which examines the problem of statelessness through the accounts of stateless persons themselves. This book will be of great interest to students and researchers in anthropology, law, politics, African studies and refugee studies as well as professionals and all those interested in stateless persons in the West, including Eritreans, who continue to be denied basic rights.

Reconfiguring Ethiopia: The Politics of Authoritarian Reform Jon Abbink 2016-04-22 This book takes stock of political reform in Ethiopia and the transformation of Ethiopian society since the adoption of multi-party politics and ethnic federalism in 1991. Decentralization, attempted democratization via ethno-national representation, and partial economic liberalization have reconfigured Ethiopian society and state in the past two decades. Yet, as the contributors to this volume demonstrate, 'democracy' in Ethiopia has not changed the authority structures and the culture of centralist decision-making of the past. The political system is tightly engineered and controlled from top to bottom by the ruling Ethiopian Peoples' Revolutionary Democratic Front (EPRDF). Navigating between its 1991 announcements to democratise the country and its aversion to power-sharing, the EPRDF has established a de facto one-party state that enjoys considerable international support. This ruling party has embarked upon a technocratic

'developmental state' trajectory ostensibly aimed at 'depoliticizing' national policy and delegitimizing alternative courses. The contributors analyze the dynamics of authoritarian state-building, political ethnicity, electoral politics and state-society relations that have marked the Ethiopian polity since the downfall of the socialist Derg regime. Chapters on ethnic federalism, 'revolutionary democracy', opposition parties, the press, the judiciary, state-religion, and state-foreign donor relations provide the most comprehensive and thought-provoking review of contemporary Ethiopian national politics to date. This book is based on a special issue of the Journal of Eastern African Studies.

Competition Law in Ethiopia Asress Adimi Gikay 2016-05-09 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of competition law and its interpretation in Ethiopia covers every aspect of the subject and- the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control; tests of illegality; filing obligations; administrative investigation and enforcement procedures; civil remedies and criminal penalties; and raising challenges to administrative decisions. Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another, as well as the international aspects of competition law. Throughout the book, the treatment emphasizes enforcement, with relevant cases analysed where appropriate. An informative introductory chapter provides detailed information on the economic, legal, and historical background, including national and international sources, scope of application, an overview of substantive provisions and main notions, and a comprehensive description of the enforcement system including private enforcement. The book proceeds to a detailed analysis of substantive prohibitions, including cartels and other horizontal agreements, vertical restraints, the various types of abusive conduct by the dominant firms and the appraisal of concentrations, and then goes on to the administrative enforcement of competition law, with a focus on the antitrust authorities and powers of investigation and the right of defence of suspected companies. This part also covers voluntary merger notifications and clearance decisions, as well as a description of the judicial review of administrative decisions. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Ethiopia will welcome this very useful guide, and academics and researchers will appreciate its value in the study of international and comparative competition law. and and

It is precise from the dictation of article 1204 of the civil code that, ownership is the widest right that may be had on a corporeal thing. This implies that, if a trader owns a business s/he may exercise the various rights of ownership that may be had on such business. Law as Refuge of Anarchy Hermann Amborn 2019-04-02 A study of communities in the Horn of Africa where reciprocity is a dominant social principle, offering a concrete countermodel to the hierarchical state. Over the course of history, people have developed many varieties of communal life; the state, with its hierarchical structure, is only one of the possibilities for society. In this book, leading anthropologist Hermann Amborn identifies a countermodel to the state, describing communities where reciprocity is a dominant social principle and where egalitarianism is a matter of course. He pays particular attention to such communities in the Horn of Africa, where nonhierarchical, nonstate societies exist within the borders of a hierarchical structured state. This form of community, Amborn shows, is not a historical forerunner to monarchy or the primitive state, nor is it obsolete as a social model. These communities offer a concrete counterexample to societies with strict hierarchical structures. Amborn investigates social forms of expression, ideas, practices, and institutions that oppose the hegemony of one group over another, exploring how conceptions of values and laws counteract tendencies toward the accumulation of power. He examines not only how the nonhegemonic ethos is reflected in law but also how anarchic social formations can exist. In the Horn of Africa, the autonomous jurisdiction of these societies protects against destructive outside influences, offers a counterweight to hegemonic violence, and contributes to the stabilization of communal life. In an era of widespread dissatisfaction with Western political systems, Amborn's study offers an opportunity to shift from traditional theories of anarchism and nonhegemony that project a stateless society to consider instead stateless societies already in operation.

Jamaican Speech Forms in Ethiopia Rosanna Masiola 2015-04-01 This book is the first systematic cross-disciplinary survey on the use of Jamaican English in Ethiopia, describing the dynamics of language acquisition in a multi-lectal and multicultural context. It is the result of over eight years' worth of research conducted in both Jamaica and Africa, and is a recognition of the trans-cultural influence of the "Repatriation Movement" and other diasporic movements. The method and materials adopted in this book point to a constant spread and diffusion of Jamaican culture in Ethiopia. This is reinforced by the universalistic appeal of Rastafarianism and Reggae music and their ability to transcend borders. The data gathered here focus on how an Anglophone-based Creole has developed new speech-forms and has been hybridized and cross-fertilized in contact situations and by new media sources. The book focuses on the use of Jamaican English in four particular domains: namely, school, street, family, and the music studio. Its findings are drawn from an exceptional range of sources, such as field-work and video-recordings, interviews, web-mediated communication, artistic performance and relevant transcriptions. These sources highlight five topics of relevance—language acquisition and choice; English and Jamaican speech forms; hegemonic and minority groups, Rastafarian culture and Reggae music—which are explored in further detail throughout the book. These salient features, in turn, interface with the dynamics of influencing factors, reinforcing circumstances, significance and change. The book represents a journey to the "extreme-outer circle" of English language use, following a circular route away from Africa and back again, with all the languages used (and lost) along the slavery route and inside the plantation complex developing into creolized speech forms and Creoles. Such language use is now making its way back to Africa, with all the incendiary creativity of Reggae and resonant with Rastafarian language.

Legal Pluralism in Ethiopia Susanne Epple 2020-07-31 Being a home to more than 80 ethnic groups, Ethiopia has to balance normative diversity with efforts to implement state law across its territory. This volume explores the co-existence of state, customary, and religious legal forums from the perspective of legal practitioners and local justice seekers. It shows how the various stakeholders' use of negotiation, and their strategic application of law can lead to unwanted confusion, but also to sustainable conflict resolution, innovative new procedures and hybrid norms. The book thus generates important knowledge on the conditions necessary for stimulating a cooperative co-existence of different legal systems.

The paper highlights these challenges and discusses legal, regulatory, and institutional issues that may impede the implementation of the policy.

The Last Post-Cold War Socialist Federation Semahagn Gashu Abebe 2016-03-03 After the fall of the Berlin wall and the disintegration of the former USSR and Yugoslavia, it has widely been assumed that socialist federations have become a thing of the past. Ethiopia's ethnic federal system however is essentially a socialist federal system based on the notion of the 'right to self-determination of nationalities' and a Marxist-Leninist organization of the state and party. This book assesses the Ethiopian ethnic federal system from the perspective of the principles of socialist federations and other Marxist oriented policies pursued by the ruling Ethiopian Peoples' Revolutionary Democratic Front (EPRDF). Exploring how the application of these ideological principles has impacted on the structure and function of the Ethiopian federal system, the research examines the ways in which these ideological policies of the ruling party affect national consensus, protection of human rights, the rights of minority groups, separation of power principles and the relationship between the federal and regional governments. It also explores the extent to which ideological principles have had an impact on the democratization process, rule of law and in building up institutions such as parliamentary democracy, the judiciary, the media and civil society organizations in the country. Approaching the Ethiopian federal system from the perspective of the fundamental ideological principles of the party in power allows a deeper insight into the structure and function of the ethnic federal system.

Litigating War Sean D. Murphy 2013-03-27 Litigating War offers an in-depth examination of the law and procedure of the Eritrea-Ethiopia Claims Commission, which was tasked with deciding, through binding arbitration, claims for losses, damages, and injuries resulting from the 1998-2000 Eritrean-Ethiopian war. After providing an overview of the war, the authors describe how the Commission was established, its jurisdiction, the sources of law it applied, its treatment of nationality and evidentiary issues, and the relief it rendered. Separate chapters then address particular topics, such as the initiation of the war, battlefield conduct, belligerent occupation, aerial bombardment, prisoners of war, enemy aliens and their property, diplomats and diplomatic property, and general economic loss. A final chapter examines the lessons that might be learned from the experience of the Claims Commission, especially with an eye to the establishment of such commissions in the future. The volume includes a preface from James Crawford and also reproduces all the key documents relating to the Commission: the bilateral agreement establishing the Commission; its rules of procedure; and its numerous decisions and arbitral awards. The analytical portion of the volume contains extensive cross-references to these primary documents. Further, a comprehensive table of contents and indexes relating to subject matter, treaties, and cases provide ready access to all the material contained within.

Ethiopia in Transit Pietro Toggia 2013-10-18 The writings in this edition explore historical and contemporary issues in Ethiopia as the country underwent change and celebrated its new millennium. However, despite the recognition of socio-economic and political changes, Ethiopia still faces enduring problems and challenges to its stability and continuity. The political past haunts the country while it is facing the future with optimism and hope. The contributors in this edition examine historical and contemporaneous issues with different lenses; they investigate the multiplicity and complexity of the

contradictions that define traditional and modern Ethiopia. The contributions highlight the significance of the instability, dislocation, conflict and transformation inherent in any society. None of these writings, however, celebrate the forces that create the conflict; they are cautious not to glorify the present and romanticize the past. On the contrary, they seek to contextualize the challenges which the country faces with a view to open a dialogue, not exclusively among Ethiopians, but with scholars and social activists in the rest of Africa, as well as the international community. The contributions cover and examine such important topics as historiography, political power and legitimacy, ideology and radical views, knowledge transmission and modernity, emigration and the Ethiopian Diaspora, ethnic and linguistic identity, patriarchy and feminist discourses in a traditional society, public policies and economic development, traditional and modern art and culture, and neo-liberalism and globalization. This book was published as a special issue of African Identities.

The Control of Non-Cash Contributions to Companies Yitayal Mekonnen Ayalew 2010-09-24 Master's Thesis from the year 2010 in the subject Business economics - Law, grade: A, Central European University Budapest (Law Faculty), course: Law of Corporations, language: English, abstract: Abstract The capital of a company is considered as security for creditors and legal systems provide the framework to safeguard this security. This paper demonstrates overvaluation of non-cash contributions as a risk this security is to be safeguarded from. It outlines what a comprehensive control system on non-cash contributions looks like and comparatively assesses the laws of the EC, Germany, France, England, and Ethiopia as to the mechanisms they provide to control this form of contribution. The paper shows that the three member states of the EC have transposed the Community law on the subject of control of non-cash contributions in a similar fashion and that they converge on a number of areas regarding their approaches to controlling non-cash contributions like definition of valid forms of non-cash contributions and the expert valuation, payment and disclosure requirements. The above three legal systems are selected because of their relevance to the Ethiopian law for they are the sources of the latter's Commercial Code. Compared to these legal systems, the control system over non-cash contributions under the Ethiopian law involves a number of matters that need addressed through amendment of the law.

The Protection of Economic, Social and Cultural Rights in Africa Danwood Mzikenge Chirwa 2016-10-20 The Protection of Economic, Social and Cultural Rights in Africa critiques the three main models of constitutionally protecting economic, social and cultural rights in Africa - direct, indirect and hybrid models. It examines the choices that states have made, how the models have worked, whether they have been tested in litigation and the jurisprudence that has arisen. The book analyses the protection of the economic, social and cultural rights in a range of African countries: Angola, Cameroon, Ethiopia, Ghana, Kenya, Mozambique, Nigeria, Senegal, South Africa and Uganda. Leading legal academics explore how these rights feature at the regional and sub-regional levels, as well as the link between domestic and international mechanisms of enforcement.

Introducing Single Member Companies in Ethiopia. Major Theoretical and Legal Considerations Jetu Edosa Chewaka 2016-05 In an increasingly universalizing world, operating business in the form of companies is apparently becoming an indispensable aspect of modern commercial life. The major reason that led to the corporate form as the principal method of organization of commercial activity, among other things, is its advantage of limited liability. Limited liability, in its classical sense, implies the insulation of individual shareholders composing the company from the liability of company debts. Yet, the traditional corporate legal theory has confined the advantage of limited liability within the purview of multimember corporations, making it inaccessible to solo investors. However, quite recently, the historical relic of corporate theory that views corporations as a legally personified body of numerous subscribers of shares has undergone a sharp evolution, as have many other business practices and their legal bases. The purpose of this thesis is to look into notable literature on major corporate theories and analyze whether it would be applicable to single member companies (SMC). It also seeks to compare major legal frameworks governing SMC's in comparative jurisdictions to show the legal and theoretical implications of introducing SMC's into the Ethiopian corporate legal system.

Major Legal Systems in the World Today René David 1978 A significant introduction to the study of comparative law and a notable scholarly work, "Major Legal Systems in the World Today" analyzes the general characteristics which lie behind the development of the four principal legal systems of the world: the Civil law, the Common law, the Socialist law (primarily Soviet), and those based on religious or philosophical principles (Muslim, Hindu, Chinese, Japanese, and African). Providing unique insights into the spirit of each "legal family, " the book presents a total view of the historical foundation and the sources and structure of the law in each system.
