Steppenwolf Hermann Hesse 2015-11-03 "These pocket-sized titles are stunning....They make the perfect stocking stuffers!" - Metro "Bought together or separately, these fiction titles are ideal stocking stuffers for the literature lover." - USA Today With its blend of Eastern mysticism and Western culture, Hesse's best-known and most autobiographical work is one of literature's most poetic evocations of the soul's journey to liberation. Harry Haller is a sad and lonely figure, a reclusive intellectual for whom life holds no joy. He struggles to reconcile the wild primeval wolf and the rational man within himself without surrendering to the bourgeois values he despises. His life changes dramatically when he meets a woman who is his opposite, the carefree and elusive Hermine. The tale of the Steppenwolf culminates in the surreal Magic Theater-For Madmen Only! Originally published in English in 1929, Steppenwolf's wisdom continues to speak to our souls and marks it as a classic of modern literature. For more than twenty years, Picador has been producing beautifully packaged literary fiction and nonfiction books from Manhattan's Flatiron Building. Our Twentieth Anniversary Modern Classics line pairs iconic books - The Virgin Suicides by Jeffrey Eugenides, Steppenwolf by Herman Hesse, Jesus' Son by Denis Johnson, and Housekeeping by Marilynne Robinson - with a design that's both small enough to fit in your pocket and unique enough to stand out on your bookshelf.

The Sandman (Fantasy and Horror Classics) E. A. Hoffman 2013-04-16 E. T. A. Hoffmann is seen as a pioneer of both Romanticism and fantasy literature, and his novella, Mademoiselle de Scudéri: A Tale from the Times of Louis XIV is often cited as the first ever detective story. Hoffman's story 'The Sandman' provided both the inspiration for Léo Delibes's ballet Coppélia, and the basis for a highly influential essay by Sigmund Freud, called 'The Uncanny'. Indeed, Freud referred to Hoffman as the "unrivalled master of

the uncanny in literature." Many of the demonic and thriller stories, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Golden Flower Pot (Fantasy and Horror Classics) E. T. A. Hoffmann 2015-10-20 This early work by E. T. A. Hoffmann was originally published in 1814. Born in Königsberg, East Prussia in 1776, Hoffmann's family were all jurists, and during his youth he was initially encouraged to pursue a career in law. However, in his late teens Hoffman became increasingly interested in literature and philosophy, and spent much of his time reading German classicists and attending lectures by, amongst others, Immanuel Kant. Hoffman went on to produce a great range of both literary and musical works. Probably Hoffman's most well-known story, produced in 1816, is 'The Nutcracker and the Mouse King', due to the fact that - some seventy-six years later - it inspired Tchaikovsky's ballet *The Nutcracker*. In the same vein, his story 'The Sandman' provided both the inspiration for Léo Delibes's ballet *Coppélia*, and the basis for a highly influential essay by Sigmund Freud, called 'The Uncanny'. (Indeed, Freud referred to Hoffman as the

"unrivalled master of the uncanny in literature.") Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.

Corgi Toys David Cooke 2008-10-21 Although the name "Corgi Toys" was not introduced until 1955, the roots of the original holding company, Mettoy, go back to 1932 when a German toymaker called Philipp Ullmann arrived in Britain to form a new toy manufacturing company. This company produced many types of toys, both before and after the Second World War, mainly in tinfoil. In the 1950s Mettoy began to produce diecast metal toys and hence, in 1956 the first Corgi Toys were released to the children's toy market and proved an immediate success. Over the next 30 years hundreds of miniature vehicles would be modeled on contemporary vehicles such as Vauxhalls, Rileys, Hillmans, Standards, Commeres and ERFs. Corgi also made daring and successful ventures into film-and-TV related toys with their versions of James Bond, The Saint and Batmobile cars selling millions. Life-long collector David Cooke explores the history of Corgi Toys, describing the various models and illustrating how these simple children's toys became valuable collectables. He also charts the recent financial problems faced by the company, and their resurgence based upon Limited Edition collectors' models sold direct to an adult market.

Ordinary Differential Equations Vladimir I. Arnold 1992-05-08 Few books on Ordinary Differential Equations (ODEs) have the elegant geometric insight of this one, which puts emphasis on the qualitative and geometric properties of ODEs and their solutions, rather than on routine presentation of algorithms. From the reviews: "Professor Arnold has expanded his classic book to include new material on exponential growth, predator-prey, the pendulum, impulse response, symmetry groups and group actions, perturbation and bifurcation." --SIAM REVIEW
