The Cruising Almanac 2023 Cruising Association 2022-09-07 The Cruising Almanac remains the perfect onboard companion for cruising sailors. This 2023 edition is introduced by Mike Golding, OBE, who reminds us that “The Cruising Almanac provides that ‘hard copy’ information which today’s electronic navigators so frequently lack.” Compiled annually by a team of Cruising Association editors and Imray, the Almanac encompasses Northwest Europe from the Shetlands to Gibraltar and from the Baltic to the west coast of Ireland. This 2023 edition includes some changes to the presentation of essential information to make it more readily accessible. The Netherlands section has been revised so that the format conforms to the other regions. A new chapter for Northwest Spain has been created to allow more extensive overall coverage of the Spanish and Portuguese Atlantic coasts. Updating of the Almanac continues throughout the year, with corrections published monthly on the Cruising Association website [Almanac corrections page. https://www.theca.org.uk/almanac/corrections](https://www.theca.org.uk/almanac/corrections)

the whole of America's partisan politics centers on a single question: Can markets solve our social problems? And for years this question has played out ferociously in the debates about how we should educate our children. From the growth of vouchers and charter schools to the implementation of No Child Left Behind, policy makers have increasingly turned to market-based models to help improve our schools, believing that private institutions--because they are competitively driven--are better than public ones. With *The Public School Advantage*, Christopher A. and Sarah Theule Lubienski offer powerful evidence to undercut this belief, showing that public schools in fact out-perform private ones.

Etruscan Art Otto Brendel 1995-10-25 This volume--the first serious book in English on Etruscan art--was hailed for its broad scope, thorough knowledge, and clear exposition when it was published almost twenty years ago. Now brought back into print with an updated bibliography and bibliographical essay by Francesca R. Serra Ridgway, it remains an essential introduction for anyone interested in ancient art, history, and civilization. Otto Brendel's exploration of the art, culture, and society of Etruria takes us through its four main periods of creativity: the Villanovan and Orientalizing era, the Archaic era, the Classical era, and the Hellenistic era, when Etruscan art became extinct. According to Brendel, the Etruscans were deeply influenced by Greek styles but used Greek forms and concepts to further their own purposes. Etruscan art is a private art, aristocratic and luxurious but centered in the life of the family and a continuing life in the tomb. Many of the art forms and objects discussed--ceramics, metalware, jewelry, sculpture, and wall painting--are known to us through the discovery of tombs. Most of these objects had a clearly defined function but were also designed, with a high degree of quality and craftsmanship, to be decorative. The beautiful art of the Etruscans, illustrated and explained in this book, sheds much light on a people about whom we know little.
