*The Book of Ivy* Amy Engel 2014-11-11 Discover the New York Times bestseller that SLJ called “A fantastic plot that makes readers think about the blurred lines between right and wrong.” After a brutal nuclear war, the United States was left decimated. A small group of survivors eventually banded together, but only after more conflict over which family would govern the new nation. The Westfalls lost. Fifty years later, peace and control are maintained by marrying the daughters of the losing side to the sons of the winning group in a yearly ritual. This year, it is my turn. My name is Ivy Westfall, and my mission is simple: to kill the president’s son—my soon-to-be husband—and return the Westfall family to power. But Bishop Lattimer is either a very skilled actor or he’s not the cruel, heartless boy my family warned me to expect. He might even be the one person in this world who truly understands me. But there is no escape from my fate. I am the only one who can restore the Westfall legacy. Because Bishop must die. And I must be the one to kill him... The Book of Ivy series is best enjoyed in order. Reading Order: Book #1 The Book of Ivy Book #2 The Revolution of Ivy

Plenitude Juliet Schor 2010-05-31 At a moment of ecological decline and continuing financial uncertainty, best-selling author and economist Juliet Schor offers a revolutionary strategy for changing how we think about consumer goods, intrinsic value, and ways to live. Earth, we have a problem: humans are degrading the planet far faster than they are regenerating it. This is leading to increasingly expensive food, energy, transport, and consumer goods. As well, the economic downturn that has accompanied the ecological crisis has led to another type of scarcity: incomes, jobs, and credit are also in short supply. But our usual way back to growth — a debt-financed consumer boom — is no longer an option that our households or our planet can afford. Plenitude deals with these challenges by putting the need for sustainability at the

core of its response. But this is not a paradigm of sacrifice being offered — instead, it's an argument that, through a major shift to new sources of wealth, green technologies, and different ways of living, we can become better off and more economically secure. Around the world, small groups of people are already busy creating lifestyles that offer a way out of the work-and-spend cycle. These pioneers' lives are scarce in conventional consumer goods, but rich in the newly abundant resources of time, information, creativity, and community. This trend represents a movement away from the conventional market, and offers a way toward an efficient, rewarding life. Plenitude is a road map for the next two decades. In encouraging us to value our gifts — nature, community, intelligence, and time — Schor offers all of us the opportunity to participate in creating a world of enduring wealth and well-being.

**In Praise of Slow** Carl Honore 2009-06-12 In the tradition of such trailblazing books as *No Logo* and *The Tipping Point*, *In Praise of Slow* heralds a growing international movement of people dedicated to slowing down the pace of our contemporary times and enjoying a richer, fuller life as a result. These days, almost everyone complains about the hectic pace of their lives. We live in a world where speed rules and everyone is under pressure to go faster. But when speed is king, anyone or anything that gets in our way, that slows us down, becomes an enemy. Thanks to speed, we are living in the age of rage. Carl Honore has discovered a movement that is quickly working its way into the mainstream. Groups of people are developing a recipe for living better in a fast-paced, modern environment by striving for a new balance between fast and slow. In an entertaining and hands-on investigation of this new movement, Honore takes us from a Tantric sex workshop in a trendy neighbourhood in London, England to Bra, Italy, the home of the Slow Food, Slow Cities and Slow Sex movements. He examines how we can continue to live productive lives by embracing the tenets of the slow movement. A challenging take on the cult of speed, as well as a corrective look at how we can approach our lives with new understanding, *In Praise of Slow* uncovers a movement whose time has come.

**Agroecological Crop Protection** Jean-Philippe Deguine 2017-12-22 This book is devoted to Agroecological Crop Protection, which is the declension of the principles of agroecology to crop protection. It presents the concepts of this innovative approach, case studies and lessons and generic keys for agroecological transition. The book is intended for a wide audience, including scientists, experimenters, teachers, farmers, students. It represents a new tool, proposing concrete keys of action on the basis of feedbacks validated scientifically. Beyond the examples presented, it is therefore of general scope and proposes recommendations for all temperate and tropical cropping systems. It contributes to the training and teaching modules in this field and it is an updated information support for professionals and a teaching aid for students (agronomy, crop protection, biodiversity management, agroecology).

**Trustee from the Toolroom** Nevil Shute 2010-09-14 Keith Stewart is a quiet and unassuming man called upon to undertake an extraordinary task. A skilled maker of miniature working models, he lives a modest life devoted to his hobby. But when his sister and her

wealthy husband die in a shipwreck on a coral reef in the Pacific—while trying to smuggle out of England their entire fortune in diamonds hidden in the keel of their yacht—Keith becomes trustee for his orphaned niece. To save her from destitution he must travel halfway around the world and risk a long voyage in a small boat in inhospitable waters to recover her inheritance. In the course of his adventure-filled quest, a colorful and international cast of characters mobilize to help him, and this humble man discovers he has more friends and admirers than he could have dared to imagine.

**Suspended Passion** Marguerite Duras 2016 In 1987 the Bolognese journalist Leopoldina Pallota della Torre met the 73-year-old Marguerite Duras at her flat in the Saint-Germain-des-Pres district of Paris, after sustained efforts to persuade the author to grant her an interview. Subsequently, Duras accorded a whole series of interviews to the young Italian and the result was the publication in 1989 of *La Passione sospesa*, a book which strangely failed to attract the attention of French publishers at the time. Twenty-four years later, the Italian text was rediscovered, rendered into French, published by Les Editions du Seuil and received with acclaim as a major literary event. It was hailed by the critic of the *Nouvel Observateur* as Duras's "secret confession." In its revealing pages, Duras speaks freely on an extraordinary range of subjects: her life as a writer, the cinema, her friendship with Francois Mitterand, her well-known if rather incongruous love of television, her alcoholism, Chekhov and his 'music of silence', football (it triggers a strong sense of 'humanity'), her literary contemporaries (they 'envy' her), Jean-Paul Sartre (responsible for 'France's cultural and political backwardness'), Jacques Lacan (she couldn't make much of his writings), God (is it really possible to be a total unbeliever?) and, most significantly of all perhaps, her childhood in pre-war Vietnam and the influence of her family, with particular insights into a mother she describes as mad and pessimistic and an elder brother who seems to have been a constant figure of menace.

**Market-Driven Management** Jean-Jacques Lambin 2012-07-19 Market-Driven Management adopts a broad approach to marketing, integrating the strategic and operational elements of the discipline. Lambin's unique approach reflects how marketing operates empirically, as both a business philosophy and an action-oriented process. Motivated by the increased complexity of markets, globalisation, deregulation, and the development of e-commerce, the author challenges the traditional concept of the 4Ps and the functional roles of marketing departments, focusing instead on the concept of market orientation. The book considers all of the key market stakeholders, arguing that developing market relations and enhancing customer value is the responsibility of every member of the organization, and that the development of this customer value is the only way for a firm to achieve profit and growth. New to this edition: - Greater coverage of ethical issues and corporate social responsibility; cultural diversity; value and branding and the economic downturn - Broad international perspective - Thoroughly revised to reflect the latest academic thinking and research With its unique approach, international cases and complementary online resources, this book is ideal for postgraduate and upper level undergraduate students of marketing, and for MBAs and Executive MBAs.

**Global Nutrition Report 2016** International Food Policy Research Institute (IFPRI) 2016-06-14 Few challenges facing the global community today match the scale of malnutrition, a condition that directly affects 1 in 3 people. Malnutrition manifests itself in many different ways: as poor child growth and development; as individuals who are skin and bone or prone to infection; as those who are carrying too much weight or whose blood contains too much sugar, salt, fat, or cholesterol; or those who are deficient in important vitamins or minerals. Malnutrition and diet are by far the biggest risk factors for the global burden of disease: every country is facing a serious public health challenge from malnutrition. The economic consequences represent losses of 11 percent of gross domestic product (GDP) every year in Africa and Asia, whereas preventing malnutrition delivers \$16 in returns on investment for every \$1 spent. The world's countries have agreed on targets for nutrition, but despite some progress in recent years the world is off track to reach those targets. This third stocktaking of the state of the world's nutrition points to ways to reverse this trend and end all forms of malnutrition by 2030.

*New Impressions of Africa* Raymond Roussel 2012-10-28 A new translation of a masterpiece of modernist poetry Poet, novelist, playwright, and chess enthusiast, Raymond Roussel (1877-1933) was one of the French belle époque's most compelling literary figures. During his lifetime, Roussel's work was vociferously championed by the surrealists, but never achieved the widespread acclaim for which he yearned. *New Impressions of Africa* is undoubtedly Roussel's most extraordinary work. Since its publication in 1932, this weird and wonderful poem has slowly gained cult status, and its admirers have included Salvador Dalí—who dubbed it the most "ungraspably poetic" work of the era—André Breton, Jean Cocteau, Marcel Duchamp, Michel Foucault, Kenneth Koch, and John Ashbery. Roussel began writing *New Impressions of Africa* in 1915 while serving in the French Army during the First World War and it took him seventeen years to complete. "It is hard to believe the immense amount of time composition of this kind of verse requires," he later commented. Mysterious, unnerving, hilarious, haunting, both rigorously logical and dizzyingly sublime, it is truly one of the hidden masterpieces of twentieth-century modernism. This bilingual edition of *New Impressions of Africa* presents the original French text and the English poet Mark Ford's lucid, idiomatic translation on facing pages. It also includes an introduction outlining the poem's peculiar structure and evolution, notes explaining its literary and historical references, and the fifty-nine illustrations anonymously commissioned by Roussel, via a detective agency, from Henri-

A. Zo.
