The Paris Commune 1871 Robert Tombs 2014-06-11 The Paris Commune was the biggest and last popular revolution in western Europe - ending the cycle of revolutions that started in 1789. The Parisians, reeling from defeat in the Franco-Prussian War set up their own revolutionary administration. Government troops eventually retook the city and took a terrible revenge: thousands died in the bloodbath that followed. The short-lived Commune and its repression cast a long shadow. It exposed deep divisions in French society and became a potent inspiration for the radical left. This stirring new study written with great zest, and a vivid sense of time and place lets the reader experience these tumultuous events

at first hand and provides a comprehensive synthesis of recent research in both French and English.

The War of the Poor Eric Vuillard 2021-03-09 The fight for equality begins in the streets. The history of inequality is a long and terrible one. And it's not over yet. Short, sharp and devastating, *The War of the Poor* tells the story of a brutal episode from history, not as well known as tales of other popular uprisings, but one that deserves to be told. Sixteenth-century Europe: the Protestant Reformation takes on the powerful and the privileged. Peasants, the poor living in towns, who are still being promised that equality will be granted to them in heaven, begin to ask themselves: and why not equality now, here on earth? There follows a violent struggle. Out of this chaos steps Thomas Müntzer: a complex and controversial figure, who sided with neither Martin Luther, nor the Roman Catholic Church. Müntzer addressed the poor directly, encouraging them to ask why a God who apparently loved the poor seemed to be on the side of the rich. Éric Vuillard tells the story of one man whose terrible and novelesque life casts light on the times in which he lived - a moment when Europe was in flux. As in his blistering look at the build-up to World War II, *The Order of the Day*, Vuillard here once again takes us behind the scenes at a moment when history was being written.

You Will Not Have My Hate Antoine Leiris 2017-10-03 INTERNATIONAL BESTSELLER - "On Friday night you stole the life of an exceptional person, the love of my life, the mother of my son, but you will not have my hate." On November 13, 2015, Antoine Leiris's wife, H  l  ne Muyal-Leiris, was killed by terrorists while attending a rock concert at the Bataclan Theater in Paris, in the deadliest attack on France since World War II. Three days later, Leiris wrote an open letter addressed directly to his wife's killers, which he posted on Facebook. He refused to be cowed or to let his seventeen-month-old son's life be defined by H  l  ne's murder. He refused to let the killers have their way: "For as long as he lives, this little boy will insult you with his happiness and freedom." Instantly, that short Facebook post caught fire, and was reported on by newspapers and television stations all over the world. In his determination to honor the memory of his wife, he became an international hero to everyone searching desperately for a way to deal with the horror of the Paris attacks and the grim shadow cast today by the threat of terrorism. Now Leiris tells the full story of his grief and struggle. *You Will Not Have My Hate* is a remarkable, heartbreaking, and, indeed, beautiful memoir of how he and his baby son, Melvil, endured in the days and weeks after H  l  ne's murder. With absolute emotional courage and openness, he somehow finds a way to answer that impossible question: how can I go on? He visits H  l  ne's body at the morgue, has to tell Melvil that Mommy will not be coming home, and buries the woman he had planned to spend the rest of his life with. Leiris's grief is terrible, but his love for his family is indomitable. This is the rare and unforgettable testimony of a survivor, and a universal message of hope and resilience. Leiris confronts an incomprehensible pain with a humbling generosity and grandeur of spirit. He is a guiding star for us all in these perilous times. His message—hate

will be vanquished by love—is eternal.

The Sciences in the European Periphery During the Enlightenment Kostas Gavroglu 2001-02-28 The articles in this volume of ARCHIMEDES examine particular cases of 'reception' in ways that emphasize pressing historiographical and methodological issues. Such issues arise in any consideration of the transmission and appropriation of scientific concepts and practices that originated in the several 'centers' of European learning, subsequently to appear (often in considerably altered guise) in regions at the European periphery. They discuss the transfer of new scientific ideas, the mechanisms of their introduction, and the processes of their appropriation at the periphery. The themes that frame the discussions of the complex relationship between the origination of ideas and their reception include the ways in which the ideas of the Scientific Revolution were introduced, the particularities of their expression in each place, the specific forms of resistance encountered by these new ideas, the extent to which such expression and resistance displays national characteristics, the procedures through which new ways of dealing with nature were made legitimate, and the commonalities and differences between the methods developed by scholars for handling scientific issues.

Media Management Bernd W. Wirtz 2020-09-11 "Digitalization significantly changes the media. To cope with this change and to exploit new market opportunities is a major challenge for media corporations. Bernd Wirtz provides a valuable guideline for this new world, combining theory, facts, and practice." Dr. Hubert Burda, German publisher and Managing Corporate Partner of Hubert Burda Media Holding KG "The media business is subject to substantial change while differences between distinctive media areas are fading away. This is due to technical innovation in areas like transmittance of content, bearer of content and recording devices but also due to new formats, trends and constant change of consumer behavior." The textbook "Media and Internet Management" stays abreast of changes and covers this topic on a well-founded and comprehensive basis. It makes a valuable contribution to theory and practice in media management and is highly recommendable to media managers." Christoph Mohn, Chairman of the Supervisory Board, Bertelsmann AG "The world of media is full of challenges and dynamic conditions for its field. The dynamic of this market is accelerated even more by new digital technologies and ongoing globalization. This book is an absolute "must have" for everyone who wants to know more about the basics, conditions and requirements of modern media management. The analytical clearness and structure make this publication highly relevant for students, but also for managers." Urs Rohner, Chairman of the Board of Directors, Credit Suisse Group AG "Media Management is a textbook, but a very welcome newcomer for students and teachers as it fills a market gap for good educational material in this rapidly evolving field. It is concise, simple (but not simplistic), and contains a contemporary overview of concepts and tools for media managers." Prof. Dr. Bozena I. Mierzejewska, Editor of The International Journal on Media Management, Fordham University, New York "Summed up, with his second edition Wirtz managed to strengthen the outstanding position of his publication "Media Management". His textbook shines because of its content, analytical clearness and the high relevance for business practice without losing its academic background. With the second edition this book has established its position in the field of media business as the leading standard reference book in Germany. It is suitable for business students, lectures as well as managers who can

gain magnificent information from it.” Prof. Dr. Wolfgang Fritz, Director of the Institute of Marketing, Braunschweig University of Technology, Germany; Honorary Professor at the Institute of Business Administration, University of Vienna, Austria.

French Botany in the Enlightenment R.L. Williams 2013-06-29 This volume completes a trilogy meant to be a commentary on the botanophilia that captured the literate public in 18th-century France. Enthusiastic public support for any governmental initiative likely to expand botanical knowledge was an expression of immense curiosity about the natural world beyond Europe. It amounted to a quest for universal knowledge that could benefit all mankind: useful knowledge that could improve the human condition in this life.

Musica Poetica: Musical-Rhetorical Figures in German Baroque Music Dietrich Bartel 1997-07-01 *Musica Poetica* provides an unprecedented examination of the development of Baroque musical thought. The initial chapters, which serve as an introduction to the concept and teachings of musical-rhetorical figures, explore Martin Luther’s theology of music, the development of the Baroque concept of *musica poetica*, the idea of the affections in German Baroque music, and that music’s use of the principles and devices of rhetoric. Dietrich Bartel then turns to more detailed considerations of the musical-rhetorical figures that were developed in Baroque treatises and publications. After brief biographical sketches of the major theorists, Bartel examines those theorists’ interpretation and classification of the figures. The book concludes with a detailed presentation of the musical-rhetorical figures, in which each theorist’s definitions are presented in the original language and in parallel English translations. Bartel’s clear, detailed analysis of German Baroque musical-rhetorical figures, combined with his careful translations of interpretations of those figures from a wide range of sources, make this book an indispensable introduction and resource for all students of Baroque music.

La droite buissonnière François Buisquet 2017-01-25 Conseiller du prince ou âme damnée, pygmalion ou gourou, la frontière est mince, en politique, entre le vice et la vertu. Le pouvoir ne connaît que le clair-obscur. Patrick Buisson aussi. Entre légende dorée et légende noire. L'éminence grise cultive le secret, le faiseur de roi suscite des fantasmes, le champion du débat d'idées intrigue. C'est pour les uns « le mauvais génie » tombé en disgrâce ; pour les autres, l'architecte de l'élection de 2007 et celui qui a évité au président sortant un naufrage en 2012. Surnommé « l'alchimiste » par l'ancien chef de l'État, le conseiller a posé les jalons d'une révolution conservatrice, aujourd'hui « hors les murs ». Peut-être demain dans les murs. Identité nationale, rupture du front républicain, retour des frontières, levée des tabous : la droite décomplexée n'en finit pas de soigner sa ligne Buisson, avec ou sans Sarkozy. L'enjeu ? La bataille culturelle. Voici l'histoire d'un homme clivant, forcément clivant, qui a changé le visage de la droite. Né en 1968, François Buisquet est journaliste et écrivain. Il a consacré une biographie chez Albin Michel à Jean-Edern Hallier, dont il fut l'assistant et l'ami.

The Wonderful World of Albert Kahn David Okuefuna 2008 In 1909 the millionaire French banker and philanthropist Albert Kahn embarked on an ambitious project to create a colour photographic record of, and for, the peoples of the world. This book and the BBC TV series it accompanies are bringing these pictures to a mass audience and putting colour into what we tend to think of as a monochrome age.

The French Second Empire Roger Price 2001-11-15 This book is about a major historical figure, Napoleon III, and a political regime. It examines how Louis-Napoleon Bonaparte (nephew of the first Napoleon) was able to secure election as President of the Republic and subsequently to launch a coup d'état to establish a Second Empire. It then considers the ways in which power was exercised by the new imperial regime. Later, apparent stability led Napoleon III to engage in a difficult process of transition towards a more liberal regime; but at the point of success the decision was taken to go to war against Prussia which resulted in a catastrophic defeat and the destruction of his regime. This is a most thoroughly researched book on the Second Empire, which makes a contribution to our knowledge of a vitally important period of French history following the 1848 revolution and the intense mid-century crisis.

Vermeer's Hat Timothy Brook 2010-07-09 In one painting, a Dutch military officer leans toward a laughing girl. In another, a woman at a window weighs pieces of silver. In a third, fruit spills from a porcelain bowl onto a Turkish carpet. The officer's dashing hat is made of beaver fur, which European explorers got from Native Americans in exchange for weapons. Beaver pelts, in turn, financed the voyages of sailors seeking new routes to China. There - with silver mined in Peru - Europeans would purchase, by the thousands, the porcelain so often shown in Dutch paintings of this time. Vermeer's haunting images hint at the stories behind these exquisitely rendered moments. As Timothy Brook shows us in *Vermeer's Hat*, these pictures, which seem so intimate, actually open doors onto a rapidly expanding world.

Seventy-seven scholars from twenty-one countries joined their efforts to produce the handbook. The resulting reference work can be recommended both to scholars and students of classical and oriental studies and to all those involved in manuscript research, digital humanities, and preservation of cultural heritage. The volume includes maps, illustrations, indexes, and an extensive bibliography.

Christian Slaves, Muslim Masters R. Davis 2003-09-16 This is a study that digs deeply into this 'other' slavery, the bondage of Europeans by North-African Muslims that flourished during the same centuries as the heyday of the trans-Atlantic trade from sub-Saharan Africa to the Americas. Here are explored the actual extent of Barbary Coast slavery, the dynamic relationship between master and slave, and the effects of this slaving on Italy, one of the slave takers' primary targets and victims.
