Affective Health and Masculinities in South Africa Hans Reihling 2020-04-24
Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Empathy Ker Dukey 2014-08-27 warning!!! This is a dark adult novel with explicit sex and upsetting scenes. 18+ only please. Empathy is a standalone novel. Blake: I am a brother I am a police detective I am a contract killer I don't want to love I don't want to feel I don't want ... EMPATHY. They say some people are born with decreased activity in the front central lobe causing them a deficiency in empathy. Maybe that's true about me but whether I was born this way or created in a moment of evil, empathy was something I didn't possess until her green eyes met mine in the mirror and I couldn't take her life. I didn't want to feel, didn't want this woman in my life complicating how I lived but she was there at every turn. Sent to haunt me for my sins. Her light so bright she provoked a shadow from everyone she touched. When a job turns bad quickly altering my life forever I'm forced to feel. When nothing is making sense I'm forced to face truths I never would recover from. When life drowns you in its cruelty you don't know which way the current will drag you or who you'll become once you re-surface. Melody: I was a daughter I was a student I was a victim Did I have his love? Did I make him feel? Did I have his empathy? When the actions of a soulless killer forces sorrow into my veins I never dreamed the man healing my wounds would be the one to leave the worst scar. His love would scar my soul. Scars are permanent; I will never feel the relief from them. Will I learn to live with them, remember why I have them and learn never to let him close enough to inflict more? Will I eventually cover them... like tattoos coating them with new memories, new love and new starts? I didn't know these answers because the pain was too suffocating, the only thing I knew was they will always be under the surface lingering. He had scars too, from his sins. There is nothing that can cover them, they were too deep, too ugly, too dark and they marked us both forever

and recordings with her vocal ensemble introduced audiences on both sides of the Atlantic to unfamiliar historical works and new compositions. This book considers how gender shaped the possibilities that marked Boulanger's performing career, tracing her meteoric rise as a conductor in the 1930s to origins in the classroom and the salon. Brooks investigates Boulanger's promotion of structurally motivated performance styles, showing how her ideas on performance of historical repertory and new music relate to her teaching of music analysis and music history. The book explores the way in which Boulanger's musical practice relied upon her understanding of the historically transcendent masterwork, in which musical form and meaning are ideally joined, and show how her ideas relate to broader currents in French aesthetics and culture.
