9. The second important development is the emergence of multi-game subscription services. Unlike the traditional buy-to-play model, these services allow gamers to access a catalogue of games for a fixed, often monthly, fee. Some subscription services currently offer games that must be downloaded and played on consoles,

Each word in a sentence performs a basic function or task. Words perform four basic tasks; they name, modify, express action or state of being, or connect. By the arrangement of words in a sentence and the task that each word performs within a sentence, you can understand a sentence's meaning. To illustrate how parts of
