Letter Writing and Language Change Anita Auer 2015-07-16 Letter Writing and Language Change outlines the historical sociolinguistic value of letter analysis, both in theory and practice. The chapters in this volume make use of insights from all three 'Waves of Variation Studies', and many of them, either implicitly or explicitly, look at specific aspects of the language of the

letter writers in an effort to discover how those writers position themselves and how they attempt, consciously or unconsciously, to construct social identities. The letters are largely from people in the lower strata of social structure, either to addressees of the same social status or of a higher status. In this sense the question of the use of 'standard' and/or 'nonstandard' varieties of English is in the forefront of the contributors' interest. Ultimately, the studies challenge the assumption that there is only one 'legitimate' and homogenous form of English or of any other language.

Gender and Politics in the Age of Letter-Writing, 1750–2000 Máire Cross 2017-05-15 Letters have long been an outlet for political expression, whether they articulate the personal politics of the daily routine or the political views of individuals who witness or participate in dramatic events. In addition, letters can be unusually revealing records of the relations between men and women. Though letters have frequently been studied as a privileged space for literary, social, and cultural expression, the three-dimensional relationship of politics, gender, and letters has not been the focus of an entire volume. The nineteen essays in this collection examine how the gendered nature of political literacy is revealed over a 250-year period through letter writing, whether the writer is famous or unknown, the wife of a prominent politician or activist, a political prisoner or political militant. Ranging wide in terms of subject matter and geography, the contributors examine correspondence that ponders familial concerns, as well as letters providing political commentary on the effects of war or revolution on everyday life. Among the impressive group of international scholars are Jim Allen, Clare Brant, Edith Gelles, Jane Rendall, and Siân Reynolds.
