No More Teaching a Letter a Week Rebecca McKay 2015 "Letter-a-week" may be a ubiquitous approach to teaching alphabet knowledge, but that doesn't mean it's an effective one. In *No More Teaching a Letter a Week*, early literacy researcher Dr. William Teale helps us understand that alphabet knowledge is more than letter recognition, and identifies research-based principles of effective alphabet instruction, which constitutes the foundation for phonics teaching and learning. Literacy coach Rebecca McKay shows us how to bring those principles to life through purposeful practices that invite children to create an identity through print. Children can and should do more than glue beans into the shape of a "B"; they need to learn how letters create words that carry meaning, so that they can, and do, use print to expand their understanding of the world and themselves.

[A Isn't for Fox](#) Wendy Ulmer 2013-09-01 Experts know that sometimes the best way to teach a child what something is is to teach him what it isn't. Educator Wendy Ulmer applies that principle in her jaunty, out-of-the-box alphabet A isn't for Fox: An Isn't Alphabet. Running through the alphabet, beginning readers are given a letter and then told what the letter topic isn't. A isn't for box; it isn't for fox. A is for ants that crawl over your socks. Laura Knorr's colorful, engaging artwork perfectly captures the wit and whimsy behind the alphabet that isn't what it seems but is so much more!
