Learning Journals in the K-8 Classroom Marcia S. Popp 2012-11-12 Learning Journals in the K-8 Classroom is the first comprehensive presentation of how to use academic journals effectively for elementary-level instruction. The text outlines the theoretical foundations for using learning journals and provides step-by-step suggestions for implementing them in every content area and at all levels of elementary instruction. Learning journals provide resources and support for reading aloud, independent reading, mini-lessons, cooperative study, individual research, workshops, and the portfolio system. The type of interactive writing students do in learning journals helps them explore complex ideas in the content areas, using their own strengths of analysis and response; the journals then become resources for future learning, group discussions, individual conferences, learning assessment, reports, and progress. Four introductory chapters show teachers how to create their own journals, introduce journals to students, integrate them with cooperative study, and use them for assessment. Additional chapters focus on the individual curriculum areas of literature, writing, mathematics, science, and social studies. The text includes sample entries from student journals at all grade levels and in every content area, and appendices of annotated resources to support journaling and interviews with teachers who use journals in their classrooms.

Letter to My Daughter Maya Angelou 2009-10-27 NEW YORK TIMES BESTSELLER • Maya Angelou shares her path to living well and with meaning in this absorbing book of personal essays. Dedicated to the daughter she never had but sees all around her, *Letter to My Daughter* transcends genres and categories: guidebook, memoir,

poetry, and pure delight. Here in short spellbinding essays are glimpses of the tumultuous life that led Angelou to an exalted place in American letters and taught her lessons in compassion and fortitude: how she was brought up by her indomitable grandmother in segregated Arkansas, taken in at thirteen by her more worldly and less religious mother, and grew to be an awkward, six-foot-tall teenager whose first experience of loveless sex paradoxically left her with her greatest gift, a son. Whether she is recalling such lost friends as Coretta Scott King and Ossie Davis, extolling honesty, decrying vulgarity, explaining why becoming a Christian is a "lifelong endeavor," or simply singing the praises of a meal of red rice—Maya Angelou writes from the heart to millions of women she considers her extended family. Like the rest of her remarkable work, *Letter to My Daughter* entertains and teaches; it is a book to cherish, savor, re-read, and share. "I gave birth to one child, a son, but I have thousands of daughters. You are Black and White, Jewish and Muslim, Asian, Spanish speaking, Native Americans and Aleut. You are fat and thin and pretty and plain, gay and straight, educated and unlettered, and I am speaking to you all. Here is my offering to you."—from *Letter to My Daughter*

Printing and Reading Italian Latin Humanism in Renaissance Europe (ca. 1470-ca. 1540) Alejandro Coroleu 2014-06-02 With the advent of the printing press throughout Europe in the last quarter of the fifteenth century, the key Latin texts of Italian humanism began to be published outside Italy, most of them by a small group of printers who, in most cases, worked in close collaboration with lecturers and teachers. This study provides the first comprehensive account of the dissemination of this important literary corpus in Spain, France, the Low Countries and the German-speaking world between ca. 1470 and ca. 1540. By combining an examination of book production and consumption with attention to the educational system of Renaissance Europe, this book highlights both the historical significance of the Latin literature of Italian humanism within the school and university curriculum of the time, and the impact of such a body of texts on the rising national literary traditions, in Latin and in the vernacular, of the period. *Printing and Reading Italian Latin Humanism in Renaissance Europe* will appeal to scholars of classical and Renaissance literature, and to anyone interested in intellectual history and in the history of education in the Renaissance. It will be of particular interest to scholars in Hispanic studies.

Disrupting Hate in Education Rita Verma 2020-11-26 *Disrupting Hate in Education* aims to identify and respond to the ideological forms of hate and fear that are present in schools, which echo larger nativist and populist agendas. Contributions to this volume are international in scope, providing powerful examples from US schools and communities, examining anti-extremism work in the UK, the "saffronization" of schools in India, struggles to re-orient the villainization of teachers in Brazil, and more. Written by a dynamic group of

activist educators and critical researchers, chapters demonstrate how conservative mobilizations around collective identities gain momentum, and how these mobilizations can be interrupted. Out of these interruptions come new opportunities to practice a critically democratic education that hinges upon risk-taking, deep dialogue, and creating a space for common dignity.

Beverly Daniel Tatum 2017-09-05 The classic, bestselling book on the psychology of racism -- now fully revised and updated Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about enabling communication across racial and ethnic divides. Dear Highlights Christine French Cully 2021-08-10 A unique, inside look at American childhood through the conversations between Highlights magazine and its young readers and a call to grown-ups to make time to actively listen to the children in their lives. Every year, tens of thousands of children write to Highlights magazine, sharing their hopes and dreams, worries and concerns, as if they were writing to a trusted friend. From the beginning, the editors at Highlights have answered every child individually. Longtime editor in chief Christine French Cully has curated a collection of this remarkable correspondence (letters, emails, drawings, and poems) in Dear Highlights--revealing an intimate and inspiring 75-year conversation between America's children and its leading children's magazine. From the timeless, everyday concerns of friendship, family, and school, to the deeper issues of identity, sexuality, divorce, and grief, here is a unique time capsule of American childhood in the voices--and the very handwriting--of children themselves. The book captures a child's-eye view of some of the most important events of the past 75 years: the COVID-19 pandemic, 9/11, the Challenger Disaster, and the assassination of John F. Kennedy. Cully's insightful narrative becomes a call to action for adults to lean in and listen to children, to make sure our kids know that they matter and what they think matters, and to assure them that they have the power to become people who change the world. By turns funny, heartbreaking, moving, and enlightening, Dear Highlights will cause readers to reflect, to listen, and to embrace the children in their lives. From the foreword by nationally syndicated columnist Amy Dickinson: "In times of great stress or trouble, Mr. Rogers advised children: 'Look for the helpers. You will always find people who are helping.' That's exactly what children writing to 'Dear Highlights' find when they put pen to paper: helpers whose open-minded trust and kindness surely has made our world a better place."

Be Special, Be Yourself for Teenagers Ronit Baras 2005 A collection of 8 inspirational stories for teens, about teens, their families, their relationships, their challenges and their triumphs. Most of the characters in this book are real, except for their names and a few other details. Some live in the future, some have problems reading, some just moved to a new school and some struggle with domestic violence. They are normal kids with real challenges and inspiring solutions. Whether they are different, from the future, from a different country or have special circumstances, the characters of *Be Special, Be Yourself for Teenagers*, teenagers and adults, deal with the dilemma of giving up their significance to gain love. They struggle with body image, social acceptance, family relationships, school, diversity and inclusion. Invariably, it's their attitude that determines their fate. "Bojé's Magic Powder" is the story of Sam, who feels different and isolated because of her eating habits, while her classmates think she has an advantage. "Beauty Queen" is the story of Michelle, a beautiful girl with a secret, who must work out the priorities in her life and find her inner beauty. "Be Special, Be Yourself" is the story of Adam, who migrates to another country and tries to fit in, without giving up his values. "Curly Line with Flowers" is the story of Jessie, a dyslexic girl, who writes a diary of her brave struggle for acceptance. "The Building of Life" describes one class' attempt to create a perfect setup for a group of people living in a building, while coming to grips with some of the realities of their own life. "The Guidance Counselor" is the story of Tommie, who is physically abused and builds his inner strength to set himself free. "Love Me, Love Me Not" is a "chain story" about the desire that teenagers and adults have to be loved and things they will do to fulfill that desire. "Biography" is the story of Daniel, who finds out, with the help of a classmate, just how much he is loved by the people around him. The author says, "This book is a tribute to my heroes, teens and parents, teachers and friends, people I had met throughout my life, had been great inspiration to me and needed to be known. It is about teens who are juggling the need to be unique with the need to be loved and accepted by others and their wonderful ways to be true to themselves."

Written with classroom utility and pastoral application in mind, these books will appeal to students, pastors, and laypeople alike.

Nineteenth-Century Nation Building and the Latin American Intellectual

Tradition Janet Burke 2007-02-28 This volume provides readings from the works of eighteen Latin American thinkers of the nineteenth century who were engaged in articulating and examining the problems that Spanish and Portuguese America faced in the one hundred years after securing independence. The selections represent all major regions of Latin America. Although these regions differ significantly with regard to indigenous background, geography, climate, and available resources, their people confronted the common problems that surround the intractable challenges of statecraft and nation building: issues of race, international relations, economics, education, and self-understanding. Burke and Humphrey provide fresh, accessible translations of key works, a majority of which appear for the first time in English; a General Introduction that sets the works in historical and intellectual context; detailed headnotes for each selection; a Guide to Themes; and bibliographic references.

Real Life Bully Prevention for Real Kids Catherine DePino 2009-01-16 Many states currently mandate character education, and school districts across the country need anti-bullying education programs to counter the rising tide of aggression and relational aggression that is the norm among many students. In fact, many school districts now require teachers to include lessons on bully prevention in their curriculum. Real Life Bully Prevention For Real Kids addresses this pervasive problem by offering students hands-on activities. Teachers will want to use this book in their classrooms with their students as part of the school's anti-bullying curriculum. As an added bonus, the activities reinforce English/language arts, social studies, and health education curricular goals. Counselors, therapists, and school administrators can also use the activities in large and small group instruction. Additionally, leaders of after-school programs and youth leadership programs, such as scouting, dramatics classes, and religious education classes, will find the activities helpful in addressing their bully prevention programs. Each activity contains a description, goals for children, and helpful hints for adults to guide their youngsters through the program.

Lunch Box Letters Carol Sperandeo 2007-06-15 Children are subjected to great stress and anxiety while growing up in a dangerous and fast changing world. Parents struggle too, especially to find ways to communicate with their

children and to show how much they care. This practical and valuable little book presents a proven method of staying in touch with your children throughout their school years. "Lunch Box Letters" is the result of the experience of two parents who -- separately -- wrote notes to their children on a regular basis and were immensely encouraged, by the results. Now they show how you can use their successful method to communicate with your own kids. They provide sample letters to let you see just how simple these little notes are to write -- and how important they are to both parent and child. They also answer common questions that parents raise, such as 'Where do I find the time?' 'What if I have three kids?' or 'What if I'm a lousy speller?' As the authors make perfectly clear, you do not have to be Shakespeare to write lunch letters. (In fact, it's probably best if you're not.) Your children just want to hear your voice -- to know that you care enough to write a few words for them to read in the middle of the day. Lunch Box Letters contains 75 sheets of colorful notepaper, perforated and ready for you to tear out and use. Just add a few words and tuck the finished letter into your children's lunch boxes. They will be thrilled. And you'll find that with this book to help you, the message takes almost no time at all. Some of the letters that Carol and Bill have written are simple expressions of love, notes of encouragement, or appreciation of the progress that children make in growing up. Some are designed to help kids overcome uncertainty, some are even apologies. And some are written simply for fun.
