The Ghost in the Corner and Other Stories Lord Dunsany 2017-05 The Anglo-Irish fantaisiste Lord Dunsany (1878-1957) was immensely prolific. Author of more than a dozen novels, hundreds of stories, essays, and poems, and more than fifty plays, he infused every single work with his unique blend of fantasy, weirdness, and subtle humor. S. T. Joshi and Martin Andersson, two of the leading authorities on Dunsany's work, have spent years in unearthing uncollected works by Dunsany, and the present volume is the result of their labors. Here we find stories set in Dunsany's native Ireland, evoking the real or imagined ghosts, leprechauns, and spirits that haunt that ancient land. Other tales are set in locales around the world, reflecting Dunsany's far-flung travels through the Middle East and Asia. The core of the book is a presentation of an untitled short story collection that Dunsany assembled in 1956 but that was never published. Here we find some of the lost jewels of Dunsany's output: "The Dwarf Holobolos and the Sword Hogbiter," a splendid sword-and-sorcery tale that evokes such early masterpieces as "The Sword of Welleran"; "The Dance at Weirdmoor Castle," a delicate tale of ghosts; "The Stolen Power," in which the horrors of the atomic age are pungently expressed;

and "A Goat in Trousers," a story of metempsychosis treading the borderline of humor and horror. Also included in this volume are several previously unpublished tales, found among the manuscripts at Dunsany Castle in County Meath, Ireland. No reader can fully appreciate the prodigal fertility of Lord Dunsany's imagination without appreciating the diverse and unfailingly entertaining stories in this volume.

How I Played the Game Byron Nelson 2006-03-08 Byron Nelson was one of golf's greatest legends. He was one of the finest golfers ever to pick up a putter, and the man who had the most magnificent year any golfer has ever had—1945, when he won an incredible eighteen PGA tournaments, including eleven in a row, and finished second in seven others. How I Played the Game is the beautifully told tale, in his own words, of a man determined to be the best ever: his hardscrabble rural Texas upbringing and his near-death experience with typhoid fever; his early years as a caddie at Fort Worth's Glen Garden Country Club (where as a 15-year-old he beat another young caddie named Ben Hogan in the Caddie Championship); the lean years as an amateur and as a young pro during the Depression; and the golden years of the 1940s, when he invented the modern golf swing and forged the legend of "Lord Byron." Even after his sudden retirement (the real reason for which is finally revealed here) his impact on the game never lessened. Besides his many years as an insightful TV golf commentator, he was mentor to several future golf champions, Ken Venturi and Tom Watson among them. And he continued to play top-caliber golf with the greats of the game, like Hogan, Jack Nicklaus, and Arnold Palmer, and some who were less than great—President Eisenhower, Bing Crosby, Bob Hope, and a host of others. Laced throughout with scores of priceless stories, anecdotes, opinions, and even golf tips, and with an in-depth, event-by-event recreation of his golden year, 1945, How I Played the Game is golf writing and remembrance of the highest order—irresistible reading for every golfer and fan.

Weird Fiction Michael Cisco 2021 *Weird Fiction: A Genre Study* presents a comprehensive, contemporary analysis of the genre of weird fiction by identifying the concepts that influence and produce it. Focusing on the sources of narrative content--how the content is produced and what makes something weird--Michael Cisco engages with theories from Deleuze and Guattari to explain how genres work and to understand the relationship between identity and the ordinary. Cisco also uses these theories to examine the supernatural not merely as a horde of tropes, but as a recognition of the infinity of experience in defiance of limiting norms. The book also traces the sociopolitical implications of weird fiction, studying the differentiation of major and minor literatures. Through an articulated theoretical model and close textual analysis, readers will learn not only what weird fiction is, but how and why it is produced.

Eldritch Tales H.P. Lovecraft 2011-07-21 Following on from the phenomenal success of *NECRONOMICON* comes *ELDRITCH TALES*. Howard Phillips Lovecraft died at the age of 47, but in his short life he turned out dozens of stories which changed the face of horror. His extraordinary imagination spawned both the Elder God Cthulhu and his eldritch cohorts, and the strangely compelling town of Innsmouth, all of which feature within these pages. This collection gathers together the rest of Lovecraft's rarely seen but extraordinary short fiction, including the whole of the long-out-of-print collection *FUNGI FROM YOGGOTH*. Many of these stories have never been available in the UK! Stephen Jones, one of the world's foremost editors of dark fiction, will complete the Lovecraft story in his extensive afterword, and award-winning artist Les Edwards will provide numerous illustrations for this must-have companion volume to *NECRONOMICON*.

Letters to Wilfred B. Talman and Helen V. and Genevieve Sully Howard Phillips Lovecraft 2019-03-27 Wilfred B. Talman was a late member of the Kalem Club, the group of literati who gathered around H. P. Lovecraft during his years in New York (1924-26). In the 1920s Talman attempted to write weird fiction, and Lovecraft's letters to him feature extensive advice on the story he revised for Talman, "Two Black Bottles"; Lovecraft also wrote a 6000-word synopsis for a story, "The Pool," that Talman never wrote; the synopsis is here presented in an appendix. But Talman soon moved to other interests, and in his correspondence Lovecraft discusses such diverse subjects as Dutch settlement of the American colonies, the Greek calendar, and his wide-ranging travels. Helen V. Sully is one of Lovecraft's few women correspondents. A friend of Clark Ashton Smith, she made the long trip from California to Rhode Island to see Lovecraft, and he treated her with his customary old-world courtesy. In their subsequent correspondence, Lovecraft attempted to act as consoler to Sully (who had apparently lapsed into depression), and his sage words on ethics, values, and contemporary civilization are still of value. Lovecraft also exchanged a few letters with Helen's mother, Genevieve Sully. As with other volumes in the Letters of H. P. Lovecraft series, this volume prints all surviving letters unabridged and with extensive annotations by David E. Schultz and S. T. Joshi, along with numerous writings--prose, essays, and poetry--by Lovecraft's correspondents.

The Glassy, Burning Floor of Hell Brian Evenson 2021-08-03 "Here is how monstrous humans are." A sentient, murderous prosthetic leg; shadowy creatures lurking behind a shimmering wall; brutal barrow men: of all the terrors that populate The Glassy, Burning Floor of Hell, perhaps the most alarming are the beings who decimated the habitable Earth: humans. In this new short story collection, Brian Evenson envisions a chilling future beyond the Anthropocene that forces excruciating decisions about survival and self-sacrifice in the face of toxic air and a natural world torn between revenge and regeneration. Combining psychological and ecological horror, each tale thrums with Evenson's award-winning literary craftsmanship, dark humor, and thrilling suspense.

An Epicure in the Terrible Howard Phillips Lovecraft 1991 To commemorate the centennial of the birth of H. P. Lovecraft, the editors have assembled essays by leading Lovecraft scholars that embody a wide variety of critical approaches. Biographical essays treat Lovecraft's relation to his parents and his heritage; thematic essays discuss issues such as the function of the narrator in his fiction; and the comparative and genre studies examine Lovecraft's relation to modernism.

Arkham House Books Leon Nielsen 2004-09-20 This reference work covers the supernatural and speculative fiction published by Arkham House Publishers, Inc., of Sauk City, Wisconsin. In 1937, promising Wisconsin writer August Derleth decided to publish a collection of the stories of his recently deceased friend, H. P. Lovecraft. After two years of failed attempts, Derleth and

another Lovecraft fan, Donald Wandrei, published the collection themselves under the name of Arkham. In the years that followed, Arkham House published the works of many of the foremost American and British writers of weird fiction, including Basil Copper, Lord Dunsany, Robert E. Howard, and Robert Bloch. Arkham published Ray Bradbury's first book, *Dark Carnival*, in 1947. The work begins with a history of the house and biography of August Derleth; it also includes a chapter on H. P. Lovecraft's connection to Arkham. The main body of the text consists of chronologically listed descriptions and current values of the more than 230 titles published by Arkham House and its two imprints, Mycroft & Moran and Stanton & Lee. These entries detail editions, reprints, special points, restoration, care, buying and selling, investment, and future trends. Other features include alphabetical indexes of titles and authors, lists of scarcity and value ranking, a list of annual stock lists and catalogs, and a bibliography of reference literature. The book is illustrated throughout with dust jacket reproductions and photographs.

A Century of Weird Fiction, 1832-1937 Jonathan Newell 2020-03-15 This book offers a new critical perspective on the weird that combines two ways of looking at weird and cosmic horror. On the one hand, critics have considered weird fiction in relation to aesthetics – the emotional effects and literary form of the weird. On the other hand, recent scholarship has also emphasised the potential philosophical underpinnings and implications of weird fiction, especially in relation to burgeoning philosophical movements such as new materialism and speculative realism. This study bridges the gap between these two approaches, considering the weird from its early outgrowth from the Gothic through to Lovecraft's stories – a 'weird century' from 1832–1937. Combining recent speculative philosophy and affect theory, it argues that weird fiction harnesses the affective power of disgust to provoke a re-examination of subjectival boundaries and the complex entanglement of the human and nonhuman.

Charisma in Politics, Religion and the Media D. Aberbach 1996-01-17 What are the origins of charisma? Are these the same in the various forms of public life, in politics and the media as well as in religion? In this new and radical interpretation of charisma, David Aberbach argues that the basis of charisma in all its forms must be found in the often-obscure symbolic intersection between the inner world of the charismatic and external social and political reality. As illustrations of various facets of this argument, he provides general analyses of charisma in politics, religion and the media as well as individual studies of Churchill, Hitler, Krishnamurti, Bialik and Chaplin.
