Lavoisier—the Crucial Year Henry Guerlac 2019-04-15 The author explores the origins of the eighteenth-century chemical revolution as it centers on Antoine-Laurent Lavoisier's earliest work on combustion. He shows that the main lines of Lavoisier's theory—including his theory of a heat-fluid, caloric—were elaborated well before his discovery of the role played by oxygen. Contrary to the opinion prevailing at that time, Lavoisier suspected, and demonstrated by experiment, that common air, or some portion of it, combines with substances when they are burned. Professor Guerlac examines critically the theories of other historians of science concerning these first experiments, and tries to unravel the influences which French, German, and British chemists may have had on Lavoisier. He has made use of newly discovered material on this phase of Lavoisier's career, and includes an appendix in which the essential documents are printed together for the first time.

Because of You: Understanding Second-Person Storytelling Evgenia Iliopoulou

2019-03-31 Second-person storytelling is a continually present and diverse technique in the history of literature that appears only once in the oeuvre of an author. Based on key narratives of the post-war period, Evgenia Iliopoulou approaches the phenomenon in an inductive way, starting out from the essentials of grammar and rhetoric, and aims to improve the general understanding of second-person narrative within literature. In its various forms and typologies, the second person amplifies and expands the limits of representation, thus remaining a narrative enigma: a small narrative gesture - with major narrative impact.

La Vie Parisienne Cheri Herouard 2018-08-15 This large-format hardcover edition offers scores of sumptuous color and often risqué illustrations from the legendary French magazine *La Vie Parisienne*'s early 20th century heyday, including cover designs and editorial cartoons, many not readily available for nearly a century.

Selections from the Decorative Arts in the J. Paul Getty Museum Gillian Wilson 1983 J. Paul Getty began to collect French decorative arts in the 1930s and continued to do so until his death in 1976. The Museum's collection has continued to grow since then at a rapid pace and contains over three hundred individual pieces at the time this book is published. This volume illustrates fifty of them. The selection represents a cross section of the collection, which covers the period from approximately 1660 to 1800. In the eighteenth century it became fashionable in Parisian society to decorate the interiors of houses with Far Eastern materials such as lacquer and porcelain. This taste was catered to by the marchands-merciers, members of a guild who combined the functions of the modern interior decorator, the antique dealer, and the picture dealer. These men devised highly ingenious settings for Far Eastern porcelains to adapt their exotic character to the French interiors of the period. Information about them and their clientele has been used in cataloguing the Getty Museum's collection of mounted oriental porcelain, which is large and of high quality. This book is not a catalogue, nor is it a mere picture book or checklist. Each piece has been chosen because it represents a particular aspect of the crafts involved in the production of objects that were made by Parisian craftsmen for the crown, the nobility, and the rich bourgeoisie. The pieces are arranged in chronological order. Translations of the French archival extracts, an index, and a concise bibliography have been provided.

Tobacco Control Policy Joy De Beyer 2003 Currently, there are over 1.2 billion tobacco users in the world, most in developing countries. Tobacco use causes diseases and premature death, and threatens both social and economic development. This book contains case studies which detail a collection of diverse economic, social and political situations from six countries (Brazil, Bangladesh, Canada, Poland, South Africa and Thailand) which are in different stages of the tobacco epidemic and which have achieved notable success in implementing policies designed to reduce tobacco use.

Threads and Traces Carlo Ginzburg 2012-09-02 "This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians"--Provided by publisher.

Preventing Tobacco Use Among Youth and Young Adults United States. Public Health Service. Office of the Surgeon General 2012 NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT -- OVERSTOCK SALE -- Significantly reduced list price This Surgeon General's Report details the causes and the consequences of tobacco use among youth and young adults by focusing on the social, environmental, advertising, and marketing influences that encourage youth and young adults to initiate and sustain tobacco use. This is the first time tobacco data on young adults as a discrete population have been explored in detail. The report also highlights successful strategies to prevent young people from using tobacco. This three volume set includes the following items: A booklet containing highlights from the 2012 Surgeon General's report on tobacco use among youth and teens ages 12 through 17 and young adults ages 18 through 26. This booklet provides an overview of tobacco use within this targeted age group. The second booklet is an Executive Summary with two messages. One message from for Kathleen Sebelius, Secretary of Health and Human Services and a second message from Howard Koh, Assistant Secretary of Health and contains a brief introduction to the set and summary and conclusions for each chapter contained in the final volume. The final volume contains over 800 pages of documentation, interwoven with text and data addressing the adverse health consequences of tobacco use by children and young adults. It includes research on a variety of topics, including nicotine addiction, trends in cigarette smoking among young adults, trends in smokeless tobacco use and cigar smoking over time, genetic factors in tobacco use among youth, and mass media influence on smoking to this age group to name a few. This third volume is rich with table data research findings to support the Surgeon General's concerns with America's use and tobacco. Les Fleurs animées J. J. Grandville 2013-04-16 Ce beau livre extraordinaire et curieux est paru à l'origine en 1847. Dans chaque chapitre, des planches de fleurs personnifiées sont accompagnées d'un conte qui est basé sur la mythologie et folklore de la fleur en question. Une collection tout à fait charmante que l'enfant tout comme l'adulte appréciera énormément. Grande partie des premiers livres, en particulier ceux qui datent d'avant 1920, sont aujourd'hui très rares et de plus en plus chers. Nous offrons des rééditions modernes de haute qualité et à prix abordables qui contiennent le texte et l'art originaux de ces ouvrages classiques.
