History Textbooks American Textbook Council 1994 Based on expert review and research, this book provides an innovative standard and guide to social studies textbooks used in kindergarten through 12th grade classrooms for content, style, and design. The standards provide a foundation for individuals to select satisfactory textbooks and to help educators and school boards in the adoption of instructional materials. Chapter 1 addresses the problems of textbook content and style. Chapter 2 discusses the vast business of social studies publishing and the increased complexity of textbook packaging with the movement away from state-level adoption of textbooks. Chapter 3 focuses on the content of social studies textbooks with a comparison of past and present textbooks, a discussion of revisionism and reality, and a look at religion in textbooks. Chapter 4 examines the style and story of textbooks and finds that although the content of past textbooks may be flawed, the prose is superior to recent textbooks. Ideas on narrative, readability, vocabulary, instructional design, history, and style provide ways for textbooks to improve. Chapter 5 addresses the issue of format and proposes clarity and simplicity in technical design of books. Chapter 6 provides an outline to review textbooks for content and style and instructional activities and teacher guidance materials for usefulness. Chapter 7 includes an annotated list of the major U.S. and world history textbooks. (CK)

Vocabulary Development Timothy Rasinski 2019-04-18 Knowledge of word meanings is critical to success in reading. A reader cannot fully understand a text in which the meaning to a significant number of words is unknown. Vocabulary knowledge has long been correlated with proficiency in reading. Yet, national surveys of student vocabulary knowledge have demonstrated that student growth in vocabulary has been stagnant at best. This volume offers new insights into vocabulary knowledge and vocabulary teaching. Articles range from a presentation of theories of vocabulary that guide instruction to innovative methods and approaches for teaching vocabulary. Special emphasis is placed on teaching academic and disciplinary vocabulary that is critical to success in content area learning. Our hope for this volume is that it may spark a renewed interest in research into vocabulary and vocabulary instruction and move toward making vocabulary instruction an even more integral part of all literacy

and disciplinary instruction.
