The Sports Gene David Epstein 2014-04-29 The New York Times bestseller - with a new afterword about early specialization in youth sports - from the author of Range: Why Generalists Triumph in a Specialized World. The debate is as old as physical competition. Are stars like Usain Bolt, Michael Phelps, and Serena Williams genetic freaks put on Earth to dominate their respective sports? Or are they simply normal people who overcame their biological limits through sheer force of will and obsessive training? In this controversial and engaging exploration of athletic success and the so-called 10,000-hour rule, David Epstein tackles the great nature vs. nurture debate and traces how far science has come in solving it. Through on-the-ground reporting from below the equator and above the Arctic Circle, revealing conversations with leading scientists and Olympic champions, and interviews with athletes who have rare genetic mutations or physical traits, Epstein forces us to rethink the very nature of athleticism.

Educational Evaluation: Classic Works of Ralph W. Tyler George F. Madaus 1988-11-30 I personally learned to know Ralph Tyler rather late in his career when, in the 1960s, I spent a year as a Fellow at the Center for Advanced Study in the Behavioral Sciences at Stanford. His term of office as Director of

the Center was then approaching its end. This would seem to disqualify me thoroughly from preparing a Foreword to this "Classic Works. " Many of his colleagues and, not least, of his students at his dear Alma Mater, the University of Chicago, are certainly better prepared than I to put his role in American education in proper perspective. The reason for inviting me is, I assume, to bring out the influence that Tyler has had on the international educational scene. I am writing this Foreword on a personal note. Ralph Tyler's accomplishments in his roles as a scholar, policy maker, educational leader, and statesman have been amply put on record in this book, not least in the editors' Preface. My reflections are those of an observer from abroad but who, over the last 25 years, has been close enough to overcome the aloofness of the foreigner. Tyler has over many years been criss-crossing the North American continent generously giving advice to agencies at the federal, state, and local levels, lecturing, and serving on many committees and task forces that have been instrumental in shaping American education.

From Rube to Robinson Society for American Baseball Research 2021-02-23 From Rube to Robinson aims to bring together the best Negro League baseball scholarship that the Society of American Baseball Research (SABR) has ever produced, culled from its journals, Biography Project, and award-winning essays. The book includes a star-studded list of scholars and historians, from the late Jerry Malloy and Jules Tygiel, to award winners Larry Lester, Geri Strecker, and Jeremy Beer, and a host of other talented writers. Beginning in the 19th century, Todd Peterson's "May the Best Man Win: The Black Ball Championships 1866-1923" opens the volume and inventories claims to baseball supremacy that preceded the Colored World Series competition that began in 1924. The late Jerry Malloy, whose name graces SABR's annual Negro League Conference, covers an early attempt at forming a Black baseball circuit in "The Pittsburgh Keystones and the 1887 Colored League." There are also profiles of some of the Negro Leagues' now-mythic figures: Sol White (by Jay Hurd), Rube Foster (by Larry Lester), and Oscar Charleston. Seymour Award winning author Jeremy Beer contributes his article "Hothead: How the Oscar Charleston Myth Began," which rebuts the oft-repeated notion that Charleston was in need of anger management. Ballparks and venues also get a look. James Overmyer's "Black Baseball at Yankee Stadium" describes the tenant/landlord relationship of Negro League teams with the New York Yankees during the 1930s and 40s, while Geri Driscoll Strecker's "The Rise and Fall of Greenlee Field" is a cradle-to-grave biography of the Pittsburgh Crawfords' stadium. The final section of the book covers integration and the socio-economics of Black baseball. Leading off is Larry Lester's masterful "Can You Read, Judge Landis?" which refutes the contention that Judge Kenesaw Mountain Landis was blameless for the persistence of baseball's segregation. MLB's official historian John Thorn and the late Jules Tygiel weigh in with "Jackie Robinson's Signing: The Real, Untold Story," and Duke Goldman presents an in-depth and meticulously referenced recap of the winter meetings and in-season owners meetings from the formation of a second Negro National League in 1933 through the last gasp of the Negro American League in 1962.

Changing the Game John O'Sullivan 2013-12-01 The modern day youth sports environment has taken the enjoyment out of athletics for our children. Currently, 70% of kids drop out of organized sports by the age of 13, which has given rise to a generation of overweight, unhealthy young adults. There is a solution. John O'Sullivan shares the secrets of the coaches and parents who have not only raised elite athletes, but have done so by creating an environment that promotes positive core values and teaches life lessons instead of focusing on wins and losses, scholarships, and professional aspirations. Changing

the Game gives adults a new paradigm and a game plan for raising happy, high performing children, and provides a national call to action to return youth sports to our kids.

The collection of approximately 400 articles, alphabetically arranged and written by some seventy faculty members and alumni in addition to the author, covers all aspects of Princeton life in the past as well as in the present. Other articles in the book embrace a wide range of topics: histories of academic departments, programs, and research units; descriptions of the honor system, the preceptorial method, the four-course plan, and coeducation; a historical survey of the University's acquisition of land and the development of its campus, together with articles on its principal buildings; pieces on student activities; accounts of alumni activities; articles on athletics; portraits of notable personalities; and commentaries on a host of lighter topics such as the cane spree, beer jackets, the Faculty Song, the proctors, and Veterans of Future Wars. Among the most important articles are one summarizing Woodrow Wilson's Sesquicentennial address, "Princeton in the Nation's Service," and a dozen others recording faculty and alumni achievements toward the goal encompassed by that phrase. Originally published in 1978. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. The Wrong Stuff Bill Lee 2007-12-18 The return of a sports classic with a new foreword by the author Finally back in print after many years, here is Bill Lee's classic tale of his renegade life on and off the mound. Whether walking out on the Montreal Expos to protest the release of a valued teammate or telling sportswriters eager for candid and offbeat comments more about the game than his bosses wanted anyone to know, pitcher Bill "Spaceman" Lee became celebrated as much for his rebellious personality as for his remarkable talent. Add to the mix his affinity for Eastern religions and controversial causes, and you can see why Lee infuriated the establishment while entertaining his legion of fans. In this wildly funny memoir that became a massive bestseller in the United States and Canada when it was first published, Lee recounts the colorful story of his life—from the drugged-out antics of his college days at USC (where he learned that "marijuana never hammered me like a good

Camel”) to his post-World Series travels with a group of liberal long-distance runners through Red China (where he discovered that conservatives don’t like marathons because “it’s much easier to climb into a Rolls-Royce”). Lee also describes his minor league days, joining the Reserves during the Vietnam War, his time with the Red Sox, and the 1975 World Series. He spares no detail while recalling his infamous falling-out with Red Sox management that led to his trade to Montreal. Full of irreverent wit, and an inherent love of the game, *The Wrong Stuff* is a sports classic for a new generation.

Can He Play? A Look at Baseball Scouts and their Profession Jim Sandoval 2011-11 Includes over 100 photos. They dig through tons of coal to find a single diamond. They spend countless hours traveling miles and miles on lonely back roads and way too much time in hotels. Their front offices expect them to constantly provide player reports and updates. So much of their time is spent away from family and friends, missing birthdays, anniversaries, and holidays. Their best friend is Rand McNally. Always asking the question, "Can He Play?" Such is the life of a professional scout. *Can He Play?* collects the contributions of some 26 members of the Society for American Baseball Research (SABR) on the subject of scouts, including biographies and historical essays. The book touches on more than a century of scouts and scouting with a focus on the men (and the occasional woman) who have taken on the task of scouring the world for the best ballplayers available. In "Can He Play?" we meet the "King of Weeds," a Ph.D. we call "Baseball's Renaissance Man," a husband-and-wife team, pioneering Latin scouts, and a Japanese-American interned during World War II who became a successful scout-and many, many more. Psychological Testing and Assessment Renée Margaret Tobin 2021-03 "Psychological tests and other tools of assessment may differ with respect to a number of variables, such as content, format, administration procedures, scoring and interpretation procedures, and technical quality. The content (subject matter) of the test will, of course, vary with the focus of the particular test. But even two psychological tests purporting to measure the same thing—for example, personality—may differ widely in item content. This is so because two test developers might have entirely different views regarding what is important in measuring "personality"; different test developers employ different definitions of "personality." Additionally, different test developers come to the test development process with different theoretical orientations"--

Dalko: The Untold Story of Baseball's Fastest Pitcher Bill A. Dembski 2020-10-27 Gripping and tragic, *Dalko* is the definitive story of Steve "White Lightning" Dalkowski, baseball's fastest pitcher ever. *Dalko* explores one man's unmatched talent on the mound and the forces that kept ultimate greatness always just beyond his reach. For the first time, *Dalko: The Untold Story of Baseball's Fastest Pitcher* unites all of the eyewitness accounts from the coaches, analysts, teammates, and professionals who witnessed the game's fastest pitcher in action. In doing so, it puts readers on the fields and at the plate to hear the buzzing fastball of a pitcher fighting to achieve his major league ambitions. Just three days after his high school graduation in 1957, Steve Dalkowski signed into the Baltimore Orioles system. Poised for greatness, he might have risen to be one of the stars in the Baseball Hall of Fame. Instead, he spent his entire career toiling away in the minor leagues. An inspiration for the character Nuke LaLoosh in the classic baseball film *Bull Durham*, *Dalko*'s life and story were as fast and wild as the pitches he threw. The late Orioles manager Earl Weaver, who saw baseball greats Nolan Ryan and Sandy Koufax pitch, said "Dalko threw harder than all of 'em." Cal Ripken Sr., Dalkowski's catcher for several years, said the same. *Bull Durham* screenwriter Ron Shelton, who played with Dalkowski in the minor leagues, said "They called him "Dalko" and guys liked to hang with him and women wanted to take care of him and if he walked in a room in those days he was probably drunk." This force on the field that could break chicken wire backstops and wooden fences with his heat but racked up almost as many walks as strikeouts in his career, spent years of drinking all night and showing up on the field the next day, just in time to show his wild heat again. What the *Washington Post* called "baseball's greatest what-If story" is one of a superhuman, once-in-a-generation gift, a near-mythical talent that refused to be tamed. Steve Dalkowski will forever be remembered for his remarkable arm. Said Shelton, "In his sport, he had the equivalent of Michaelangelo's gift but could never finish a painting." *Dalko* is the story of the fastest pitching that baseball has ever seen, an explosive but uncontrolled arm.

Literary Brooklyn Evan Hughes 2011-08-16 For the first time, here is Brooklyn's story through the eyes of its greatest storytellers. Like Paris in the twenties or postwar Greenwich Village, Brooklyn today is experiencing an extraordinary cultural boom. In recent years, writers of all stripes—from Jhumpa Lahiri, Jennifer Egan, and Colson Whitehead to Nicole Krauss and Jonathan Safran Foer—have flocked to its patchwork of distinctive neighborhoods. But as literary critic and journalist Evan Hughes reveals, the rich literary life now flourishing in Brooklyn is part of a larger, fascinating history. With a dynamic mix of literary biography and urban history, Hughes takes us on a tour of Brooklyn past and present and reveals that hiding in Walt Whitman's Fort Greene Park, Hart Crane's Brooklyn Bridge, the raw Williamsburg of Henry Miller's youth, Truman Capote's famed house on Willow Street, and the contested streets of Jonathan Lethem's Boerum Hill is the story of more than a century of life in America's cities. *Literary Brooklyn* is a prismatic investigation into a rich literary inheritance, but most of all it's a deep look into the beloved borough, a place as diverse and captivating as the people who walk its streets and write its stories.

Teammate David Ross 2017-05-09 NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Packed with "compelling inside stories" (Chicago Tribune), *Teammate* is the inspiring memoir from "Grandpa Rossy," the veteran catcher who became the heart and soul of the 2016 Chicago Cubs championship team. In 2016 the Cubs snapped a 108-year curse, winning the World Series in a history-making, seven-game series against the Cleveland Indians. Of the many storylines to Chicago's fairytale season, one stood out: the late-career renaissance of David Ross, the 39-year-old catcher who had played back-up for 13 of his 15 pro seasons. Beyond Ross's remarkably strong play, he became the ultimate positive force in the Cubs locker room, mentoring and motivating his fellow players, some of them nearly twenty years his junior. Thanks to Cubs Kris Bryant and Anthony Rizzo, "Grandpa Rossy" became a social media sensation. No one, however, could have predicted that Ross's home run in his final career at bat would help seal the Cubs championship. Now, in *Teammate*, Ross shares the inspiring story of his life in baseball, framed by the events of that unforgettable November night.

Dominican Baseball Alan Klein 2014-04-14 Pedro Martínez. Sammy Sosa. Manny Ramírez. By 2000, Dominican baseball players were in every Major League clubhouse, and regularly winning every baseball award. In 2002, Omar Minaya became the first Dominican general manager of a Major League team. But how did this codependent relationship between MLB and Dominican talent arise and thrive? In his incisive and engaging book, *Dominican Baseball*, Alan Klein examines the history of MLB's presence and influence in the Dominican Republic, the development of the booming industry and academies, and the dependence on Dominican player developers, known as buscones. He also addresses issues of identity fraud and the use of performance-enhancing drugs as hopefuls seek to play professionally. *Dominican Baseball* charts the trajectory of the economic flows of this transnational exchange, and the pride Dominicans feel in their growing influence in the sport. Klein also uncovers the prejudice that prompts MLB to diminish Dominican claims on legitimacy. This sharp, smartly argued book deftly chronicles the uneasy and often contested relations of the contemporary Dominican game and industry.
