Exposing Hidden Worlds Michael Burgan 2017-07-01 President Theodore Roosevelt called Jacob Riis "the best American I ever knew." The pioneering photojournalist, an immigrant from Denmark, drew attention to the poverty and evils of slum life in the late 1800s. Riis won national acclaim when his photos illustrated his bestselling book *How the Other Half Lives*. The book focused on the difficult time immigrants faced as thousands of newcomers flooded into the United States each year. Riis called for reform and hoped to prod government officials to help the poor people who were forced to live under horrible conditions. The impact of Riis' photos came from capturing the poor and homeless as they lived and worked, with the subjects' eyes often staring directly into the camera. The great photographer Ansel Adams called them "magnificent achievements in the field of humanistic photography." But the reforms that came from Riis' work have not eliminated urban poverty and homelessness, and important work remains to be done.

Elizabeth and Hazel David Margolick 2011-10-04 The names Elizabeth Eckford and Hazel Bryan Massery may not be well known, but the image of them from September 1957 surely is: a black high school girl, dressed in white, walking stoically in front of Little Rock Central High School, and a white girl standing directly behind her, face twisted in hate, screaming racial epithets. This famous photograph captures the full anguish of desegregation--in Little Rock and throughout the South--and an epic moment in the civil rights movement. In this gripping book, David Margolick tells the remarkable story of two separate lives unexpectedly braided together. He explores how the haunting picture of Elizabeth and Hazel came to be taken, its significance in the wider world, and why, for the next half-century, neither woman has ever escaped from its long shadow. He recounts Elizabeth's struggle to overcome the trauma of her hate-filled school experience, and Hazel's long efforts to atone for a fateful, horrible mistake. The book follows the painful journey of the two as they progress from apology to forgiveness to reconciliation and, amazingly, to friendship. This friendship foundered, then collapsed--perhaps inevitably--over the same fissures and misunderstandings that continue to permeate American race relations more than half a century after the

unforgettable photograph at Little Rock. And yet, as Margolick explains, a bond between Elizabeth and Hazel, silent but complex, endures.

The Worst First Day Elizabeth Eckford 2017 The author shares the back story of the crisis at Central High from her purview in commemoration of the 60th anniversary of the school's desegregation. Her experiences will inspire readers of all ages, and gives new meaning to the importance of resilience after a "bad day".

**Bluff City: The Secret Life of Photographer Ernest Withers** Preston Lauterbach 2019-01-15 The little-known story of an iconic photographer, whose work captured—and influenced—a critical moment in American history. Who was Ernest Withers? Most Americans may not know the name, but they do know his photographs. Withers took some of the most legendary images of the 1950s and '60s: Martin Luther King, Jr., riding a newly integrated bus in Montgomery, Alabama; Emmett Till's uncle pointing an accusatory finger across the courtroom at one of his nephew's killers; scores of African-American protestors, carrying a forest of signs reading "I am a man." But while he enjoyed unparalleled access to the inner workings of the civil rights movement, Withers was working as an informant for the FBI. In this gripping narrative history, Preston Lauterbach examines the complicated political and economic forces that informed Withers's seeming betrayal of the people he photographed. Withers traversed disparate worlds, from Black Power meetings to raucous Memphis nightclubs where Elvis brushed shoulders with B.B. King. He had a gift for capturing both dramatic historic moments and intimate emotional ones, and it may have been this attention to nuance that made Withers both a brilliant photographer and an essential asset to the FBI. Written with similar nuance, *Bluff City* culminates with a riveting account of the 1968 riot that ended in violence just a few days before Dr. King's death. Brimming with new information and featuring previously unpublished and rare photographs from the Withers archive not seen in over fifty years, *Bluff City* grapples with the legacy of a man whose actions—and artistry—make him an enigmatic and fascinating American figure.

Willson's whimsical, personable writing style brings readers back in time with him to the 1950s to experience firsthand the exciting trials and tribulations of creating a Broadway masterpiece. *Death at Kent State* Michael Burgan 2016-08-01 It didn't seem possible. Four college students shot dead May 4, 1970, by Ohio National Guardsmen during a protest against the Vietnam War. The shootings at Kent State University would shock the nation and spark a mass student strike across the country, the only one in U.S. history. A photojournalism student's photograph of a teen girl crying in anguish over a victim's dead body would win the Pulitzer Prize and become a symbol of the antiwar movement.

*A Mighty Long Way* Carlotta Walls LaNier 2009-08-25 “A searing and emotionally gripping account of a young black girl growing up to become a strong black woman during the most difficult time of racial segregation.”—Professor Charles Ogletree, Harvard Law School “Provides important context for an important moment in America's history.”—Associated Press When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the “Little Rock Nine,” as they came to be known, would lead the nation on an even longer and much more turbulent path, one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an

engrossing memoir that is a testament not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history.

[Finding the Lost Year](#) Sondra Gordy 2009-02 Much has been written about the Little Rock School Crisis of 1957, but very little has been devoted to the following year—the Lost Year, 1958–59—when Little Rock

schools were closed to all students, both black and white. Finding the Lost Year is the first book to look at the unresolved elements of the school desegregation crisis and how it turned into a community crisis, when policymakers thwarted desegregation and challenged the creation of a racially integrated community and when competing groups staked out agendas that set Arkansas's capital on a path that has played out for the past fifty years. In Little Rock in 1958, 3,665 students were locked out of a free public education. Teachers' lives were disrupted, but students' lives were even more confused. Some were able to attend schools outside the city, some left the state, some joined the military, some took correspondence courses, but fully 50 percent of the black students went without any schooling. Drawing on personal interviews with over sixty former teachers and students, black and white, Gordy details the long-term consequences for students affected by events and circumstances over which they had little control.

**The Long Shadow of Little Rock** Daisy Bates 2014-08-01 At an event honoring Daisy Bates as 1990's Distinguished Citizen then-governor Bill Clinton called her "the most distinguished Arkansas citizen of all time." Her classic account of the 1957 Little Rock School Crisis, *The Long Shadow of Little Rock*, couldn't be found on most bookstore shelves in 1962 and was banned throughout the South. In 1988, after the University of Arkansas Press reprinted it, it won an American Book Award. On September 3, 1957, Gov. Orval Faubus called out the National Guard to surround all-white Central High School and prevent the entry of nine black students, challenging the Supreme Court's 1954 order to integrate all public schools. On September 25, Daisy Bates, an official of the NAACP in Arkansas, led the nine children into the school with the help of federal troops sent by President Eisenhower—the first time in eighty-one years that a president had dispatched troops to the South to protect the constitutional rights of black Americans. This new edition of Bates's own story about these historic events is being issued to coincide with the fiftieth anniversary of the Little Rock School crisis in 2007.

Before Sylvia makes her final decision, smoldering racial tension in the town ignites into flame. When the smoke clears, she sees clearly that nothing is going to stop the change from coming. [The Story of the Little Rock Nine and School Desegregation in Photographs](#) David Aretha 2014-01-01 In September 1957, nine brave African-American students attempted to do something that had not been done in the segregated South, integrate a public school. Until 1957, black students could not attend school with white students, and black schools were often inferior to white schools. However, in the face of hatred, protest, and violence, these courageous students, who came to be known as the Little Rock Nine, led the charge for change. Through riveting primary source photographs, author David Aretha examines this critical time in the Civil Rights Movement.

**Today the World Is Watching You** Kekla Magoon 2011-04-01 On September 4, 1957, nine African American teenagers made their way toward Central High School in Little Rock, Arkansas. They didn't

make it very far. Armed soldiers of the Arkansas National Guard blocked most of them at the edge of campus. The three students who did make it onto campus faced an angry mob. White citizens spit at them and shouted ugly racial slurs. No black students entered Central that day. And if the angry mob had its way, black children would never attend school with white children. But the U.S. Supreme Court had ruled in 1955 that school segregation that is, separate schools for black children and white children was unconstitutional. The Court ordered the nation's schools to be integrated. Nowhere was that process more hateful and more horrific than in Little Rock. Eventually, the nine students did make it into Central High under the protection of army soldiers. Once inside Central, they faced a never-ending torrent of abuse from white students. But the nine students persevered. Their courage inspired the growing movement for African American civil rights.

**Little Rock Girl 1957** Shelley Tougas 2019-05-01 Nine African American students made history when they defied a governor and integrated an Arkansas high school in 1957. It was the photo of one of the nine trying to enter the school a young girl being taunted, harassed and threatened by an angry mob that grabbed the world's attention and kept its disapproving gaze on Little Rock, Arkansas. In defiance of a federal court order, Governor Orval Faubus called in the National Guard to prevent the students from entering all white Central High School. The plan had been for the students to meet and go to school as a group on September 4, 1957. But one student, Elizabeth Eckford, didn't hear of the plan and tried to enter

the school alone. A chilling photo by newspaper photographer Will Counts captured the sneering expression of a girl in the mob and made history. Years later Counts snapped another photo, this one of the same two girls, now grownup, reconciling in front of Central High School.

**John Gutmann Sally Stein 2009** Presents a catalog of photographs that showcases the career of the German-American photographer.

*Junctures in Women's Leadership: Social Movements* Mary K. Trigg 2016-05-23 2016 Choice Outstanding Academic Title From Eleanor Roosevelt to feminist icon Gloria Steinem to HIV/AIDS activist Dazon Dixon Diallo, women have assumed leadership roles in struggles for social justice. How did these remarkable women ascend to positions of influence? And once in power, what leadership strategies did they use to deal with various challenges? *Junctures in Women's Leadership: Social Movements* explores these questions by introducing twelve women who have spearheaded a wide array of social movements that span the 1940s to the present, working for indigenous peoples' rights, gender equality, reproductive rights, labor advocacy, environmental justice, and other causes. The women profiled here work in a variety of arenas across the globe: Planned Parenthood CEO Cecile Richards, New York City labor organizer Bhairavi Desai, women's rights leader Charlotte Bunch, feminist poet Audre Lorde, civil rights activists Daisy Bates and Aileen Clarke Hernandez, Kenyan environmental activist Wangari Maathai, Nicaraguan revolutionary Mirna Cunningham, and South African public prosecutor Thuli Madonsela. What unites them all is the way these women made sacrifices, asked critical questions, challenged injustice, and exhibited the will to act in the face of often-harsh criticism and violence. The case studies in *Junctures in Women's Leadership: Social Movements* demonstrate the diversity of ways that women around the world have practiced leadership, in many instances overcoming rigid cultural expectations about gender. Moreover, the cases provide a unique window into the ways that women leaders make decisions at moments of struggle and historical change.

*The Little Rock Nine and the Fight for Equal Education* Gary Jeffrey 2012 Retells in graphic novel format the story of the brave African American students who faced violent opposition when they integrated Central High School in Little Rock, Arkansas, in September, 1957.

*Vivian Maier* John Maloof 2012-10-30 Please note that all blank pages in the book were chosen as part of

the design by the publisher. A good street photographer must be possessed of many talents: an eye for detail, light, and composition; impeccable timing; a populist or humanitarian outlook; and a tireless ability to constantly shoot, shoot, shoot, shoot and never miss a moment. It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts. It is incredibly rare to find it in someone with no formal training and no network of peers. Yet Vivian Maier is all of these things, a professional nanny, who from the 1950s until the 1990s took over 100,000 photographs worldwide—from France to New York City to Chicago and dozens of other countries—and yet showed the results to no one. The photos are amazing both for the breadth of the work and for the high quality of the humorous, moving, beautiful, and raw images of all facets of city life in America's post-war golden age. It wasn't until local historian John Maloof purchased a box of Maier's negatives from a Chicago auction house and began collecting and championing her marvelous work just a few years ago that any of it saw the light of day. Presented here for the first time in print, *Vivian Maier: Street Photographer* collects the best of her incredible, unseen body of work.
