Deep River Karl Marlantes 2019-07-02 Three Finnish siblings head for the logging fields of nineteenth-century America in the New York Times–bestselling author’s “commanding historical epic” (Washington Post). Born into a farm family, the three Koski siblings—Ilmari, Matti, and Aino—are raised to maintain their grit and resiliency in the face of hardship. This lesson in *sisu* takes on special meaning when their father is arrested by imperial Russian authorities, never to be seen again. Lured by the prospects of the Homestead Act, Ilmari and Matti set sail for America, while young Aino, feeling betrayed and adrift after her Marxist cell is exposed, follows soon after. The brothers establish themselves among a logging community in southern Washington, not far from the Columbia River. In this New World, they each find themselves—Ilmari as the family’s spiritual rock; Matti as a fearless logger and entrepreneur; and Aino as a fiercely independent woman and union activist who is willing to make any sacrifice for the cause that sustains her. Layered with fascinating historical detail, this novel bears witness to the stump-ridden fields that the loggers—and the first waves of modernity—leave behind. At its heart, *Deep River* explores the place of the individual, and of the immigrant, in an America still in the process of defining its own identity.

When their dads fall in love, Bett and Avery are sent, against their will, to the same sleepaway camp. Their dads hope that they will find common ground and become friends--and possibly, one day, even sisters. Distracted Maggie Jackson 2010-05 This is an important book...a harrowing documentation of our modern world's descent into fragmentation, self alienation, and emptiness-brought on, to a large extent, by communication technologies that distract us, dislocate us, and destroy our inner lives.--Alan Lightman, author of the bestselling Einstein's Dreams and National Book Award finalist The Diagnosis and MIT professorThis fascinating book on America's collective ADD is a wake-up call to all of us to take back our lives, turn off the technology, and focus on paying attention to what makes us human and fulfilled.--Rosabeth Moss Kanter, Harvard Business School Professor and author of America the Principled and ConfidenceWe have oceans of information at our disposal, yet we increasingly seek knowledge in online headlines glimpsed on the run. We are networked as never before, but we connect with friends and family via e-mail and fleeting face-to-face moments that are rescheduled and interrupted a dozen times. Despite our wondrous technologies and scientific advances, we are nurturing a culture of diffusion, fragmentation, and detachment.In this new world, something crucial is missing: attention-the key to recapturing our ability to connect, reflect, and relax; the secret to coping with a mobile, multitasking, virtual world. How did we get to the point where we keep one eye on our Blackberry and one eye on our spouse-in bed? We can contact millions of people worldwide, so why is it hard to schedule a simple family supper? Most importantly, what can we do about it? Distracted vividly shows how day by day, our hyper-mobile, cyber-centric, interrupted lives erode our capacity for deep focus and awareness. The implications for a healthy society are stark.Attention is the building block of intimacy, wisdom, and cultural progress. Jackson makes it clear that if we squander our powers of attention, our technological age could ultimately slip into cultural decline. And yet we are just as capable of igniting a renaissance of attention by strengthening our skills of focus and perception, the keys to judgment, memory, morality, and happiness. Jackson reveals the astonishing scientific discoveries that can help us rekindle our powers of attention in a world of speed and overload. She offers us a wake-up call, and reasons for hope.Distracted is an original exposé of the multifaceted nature of attention, an engaging and often surprising portrait of postmodern life, and a compelling roadmap for cultivating sustained focus and

nurturing a more enriched and literate society. More than ever, we cannot afford to let distraction become the marker of our time. Maggie Jackson (New York, NY) is an award-winning author and journalist who writes the popular Balancing Acts column in the Boston Globe. Her work also has appeared in The New York Times and on National Public Radio, among other national publications. Her acclaimed first book, *What's Happening to Home? Balancing Work, Life and Refuge in the Information Age*, examined the loss of home as a refuge.
