Frankenstein Mary Shelley 2020-09-16 "In this new edition of Mary Shelley's *Frankenstein*, David Wootton's Introduction gives the reader both a clear and gripping account of the biographical circumstances that led to the novel's writing and the most striking and original interpretations of its central themes and of the intellectual and cultural influences on them. Offering a new account of the complex history of its composition, and drawing upon his deep knowledge of eighteenth- and nineteenth-century scientific debates, Wootton reveals the ways in which the origins of Shelley's novel are inextricably linked to conceptions of the origins of life itself. We have here a transformative reading of one of the world's best-known stories." –Laura Marcus, Goldsmiths' Professor of English Literature and Fellow of New College, University of Oxford

**The Lyric Theory Reader** Virginia Jackson 2014-02 The Lyric Theory Reader collects major essays on the modern idea of lyric, made available here for the first time in one place. Representing a wide range of perspectives in Anglo-American literary criticism from the twentieth and twenty-first centuries, the collection as a whole documents the diversity and energy of ongoing critical conversations about lyric poetry. Virginia Jackson and Yopie Prins frame these conversations with a general introduction, bibliographies for further reading, and introductions to each of the anthology's ten sections: genre theory, historical models of lyric, New Criticism, structuralist and post-structuralist reading, Frankfurt School approaches, phenomenologies of lyric reading, avant-garde anti-lyricism, lyric and sexual difference, and comparative lyric. Designed for students, teachers, scholars, poets, and readers with a general interest in poetics, this book presents an intellectual history of the theory of lyric reading that has circulated both within and beyond the classroom, wherever poetry is taught, read, discussed, and debated today.

Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. The second edition of volume 4: The Age of Romanticism includes James Hogg, Matthew Gregory Lewis, and John Polidori as well as new selections by Mary Shelley, Sir Walter Scott, Maria Edgeworth, Anna Laetitia Barbauld, and Percy Shelley. The new edition also includes two new sections of contextual materials. New to the bound book is "The Natural, The Human, The Supernatural, and the Sublime"—a section that includes not only a good selection of material from writers such as Edmund Burke and artists such as J.M.W. Turner but also material that may be less well known on topics such as changing human attitudes towards non-animals. New to the website is a wide-ranging selection of contextual materials on the Industrial Revolution, entitled "Steam Power and the Machine Age". Additional highlights of this volume include: Jane Austen's *Lady Susan*, a lesser-known but wonderfully readable epistolary short novel; "A Hymn to Na'ra'yena" by Sir William Jones; and, in an exception to the anthology's general policy of including works in their entirety, Mary Shelley is represented by the last two chapters of *The Last Man* and by a selection of letters.

Early Learning and Teaching of English Prof. Jelena Mihaljevi Djigunovi  
2015-03-02 This book offers an insight into the dynamics and complexities of learning and teaching English as a foreign language at primary level. Taking a Dynamic Systems Theory perspective, the chapters present the findings of longitudinal research undertaken in Croatia into the development of English in young learners. The book includes both qualitative and quantitative research and provides insights into internal individual learner factors and external micro and macro contextual factors which impact English learner development. Importantly, it tackles the unique position of English in today's globalised world in detail. It therefore makes a major contribution to work on learning English by the digitalised generation and to understanding the impact of practices in the modern EFL classroom. The volume will appeal to anyone interested in new ways of researching the complex and dynamic phenomenon of the early learning of English.

**The Routledge Companion to Literature and Class** Gloria McMillan 2021-09-02 The Routledge Companion to Literature and Class offers a comprehensive and fresh assessment of the cultural impact of class in literature, analyzing various innovative, interdisciplinary approaches of textual analysis and intersections of literature, including class subjectivities, mental health, gender and queer studies, critical race theory, quantitative and scientific methods, and transnational perspectives in literary analysis. Utilizing these new methods and interdisciplinary maps from field-defining essayists, students will become aware of ways to bring these elusive texts into their own writing as one of the parallel perspectives through which to view literature. This volume will provide students with an insight into the history of the intersections of class, theory of class and invisibility in literature, and new trends in exploring class in literature. These multidimensional approaches to literature will be a crucial resource for undergraduate and graduate students becoming familiar with class analysis, and will offer seasoned scholars the most significant critical approaches in class studies.
