*Looking for Bruce Conner* Kevin Hatch 2012 In a career that spanned five decades, most of them spent in San Francisco, Bruce Conner (1933--2008) produced a unique body of work that refused to be contained by medium or style. Whether making found-footage films, hallucinatory ink-blot graphics, enigmatic collages, or assemblages from castoffs, Conner took up genres as quickly as he abandoned them. His movements within San Francisco's counter-cultural scenes were similarly free-wheeling; at home in beat poetry, punk music, and underground film circles, he never completely belonged to any of them. Bruce Conner belonged to Bruce Conner. Twice he announced his own death; during the last years of his life he produced a series of pseudonymous works after announcing his "retirement." In this first book-length study of Conner's enormously influential but insufficiently understood career, Kevin Hatch explores Conner's work as well as his position on the geographical, cultural, and critical margins. Hatch finds a set of abiding concerns that inform Conner's wide-ranging works and changing personas. A deep anxiety pervades the work, reflecting a struggle between private, unknowable, interior experience and a duplicitous world of received images and false appearances. The profane and the sacred, the comic and the tragic, the enigmatic and the universal: each of these antinomies is pushed to the breaking point in Conner's work. Generously illustrated with many color images of Conner's works, *Looking for Bruce Conner* proceeds in roughly chronological fashion, from Conner's notorious assemblages ( *BLACK DAHLIA* and *RATBASTARD* among them) through his experimental films (populated by images from what Conner called "the tremendous, fantastic movies going in my head from all the scenes I'd seen"), his little-known graphic work, and his collage and inkblot drawings.

*Tyrant Memory* Horacio Castellanos Moya 2011-06-29 With pitch-perfect, pitch-black humor, this saga refracts through one family's struggles a whole country's nightmare. The tyrant of the book is the actual pro-Nazi mystic Maximiliano Hernández Martínez, known as the Warlock, who came to power in El Salvador in 1932. An attempted coup in April of 1944 failed, but a general strike in May finally forced him out of office. The book takes place during that tumultuous month between the coup and the strike. With her husband a political prisoner and her son fleeing for his life, wealthy Haydée Aragon takes matters into her own hands. Events ricochet from one near-disaster to the next.--Publisher's description.

**Words With Power** Northrop Frye 2008-08-09 *Words with Power* is the crowning achievement of the latter half of Northrop Frye's career. Portions of the work can be found in Frye's notebooks as far back as the mid-1960s when he had just finished *Anatomy of Criticism*, and he completed the book shortly before his death in 1991. Beyond summing up his ideas about the relation of the Bible to Western culture, *Words with Power* boldly confronts a host of questions ranging from the relationship between literature and ideology to the real meaning of words like 'spirit' and 'faith.' The first half of the 'double mirror' structure

looks at the language in which the Bible is written, arguing that it is identical to that of myth and metaphor. Frye suggests, therefore, that given this characteristic, the Bible should be read imaginatively rather than historically or doctrinally. However, he is also careful to point out the ways in which the Bible is more than a conventional work of fiction. The second half is an astonishing tour de force in which Frye demonstrates how both the Bible and literature revolve around four primary concerns of human life. This edition goes beyond the original in its documentation of Frye's dazzlingly encyclopedic range of reference. Profound and searching, *Words with Power* is perhaps the most daring book of Frye's career and one of the most exciting.

[Life With Lacan](#) Catherine Millot 2018-05-01 'There was a time when I felt that I had grasped Lacan's essential being from within - that I had gained, as it were, an apperception of his relation to the world, a mysterious access to that intimate place from which sprang his relation to people and things, and even to himself. It was as if I had slipped within him.' In this short book, Catherine Millot offers a richly evocative reflection on her life as analysand and lover of the greatest psychoanalyst since Freud. Dwelling on their time together in Paris and in Lacan's country house in Guitrancourt, as well as describing their many travels, Millot provides unparalleled insights into Lacan's character as well as his encounters with other major European thinkers of the time. She also sheds new light on key themes, including Lacan's obsession with the Borromean knot and gradual descent into silence, all enlivened by her unique perspective. This beautifully written memoir, awarded the André Gide Prize for Literature, will be of interest to anyone wishing to understand the life and character of a thinker who continues to exert a wide influence in psychoanalysis and across the humanities and social sciences.

**Northrop Frye on Myth** Ford Russell 2021-12-13 Northrop Frye differed from other theorists of myth in tracing all of the major literary genres--romance, comedy, satire, not just tragedy--to myth and ritual. This volume is the most thorough presentation of his thinking on the subject.

**Welcome to Painterland** Anastasia Aukeman 2016-08-09 The Rat Bastard Protective Association was an inflammatory, close-knit community of artists who lived and worked in a building they dubbed Painterland in the Fillmore neighborhood of midcentury San Francisco. The artists who counted themselves among the Rat Bastards—which included Joan Brown, Bruce Conner, Jay DeFeo, Wally Hedrick, Michael McClure, and Manuel Neri—exhibited a unique fusion of radicalism, provocation, and community. Geographically isolated from a viable art market and refusing to conform to institutional

expectations, they animated broader social and artistic discussions through their work and became a transformative part of American culture over time. Anastasia Aukeman presents new and little-known archival material in this authorized account of these artists and their circle, a colorful cultural milieu that intersected with the broader Beat scene.

**The Art of Assemblage** William Chapin Seitz 1961 "Assemblage art consists of making three-dimensional or two-dimensional artistic compositions by putting together found-objects."--Boundless.

A Fine Romance David Lehman 2009-10-06 In *A Fine Romance*, David Lehman looks at the formation of the American songbook—the timeless numbers that became jazz standards, iconic love songs, and sound tracks to famous movies—and explores the extraordinary fact that this songbook was written almost exclusively by Jews. An acclaimed poet, editor, and cultural critic, David Lehman hears America singing—with a Yiddish accent. He guides us through America in the golden age of song, when “Embraceable You,” “White Christmas,” “Easter Parade,” “Bewitched, Bothered and Bewildered,” “Can’t Help Lovin’ Dat Man,” “My Romance,” “Cheek to Cheek,” “Stormy Weather,” and countless others became nothing less than the American sound track. The stories behind these songs, the shows from which many of them came, and the composers and lyricists who wrote them give voice to a specifically American saga of love, longing, assimilation, and transformation. Lehman’s analytical skills, wit, and exuberance infuse this book with an energy and a tone like no other: at once sharply observant, personally searching, and attuned to the songs that all of us love. He helps us understand how natural it should be that Wizard of Oz composer Harold Arlen was the son of a cantor who incorporated “Over the Rainbow” into his Sabbath liturgy, and why Cole Porter—the rare non-Jew in this pantheon of musicians who wrote these classic songs shaped America even as America was shaping them. (Part of the Jewish Encounter series)

**Northrop Frye's Notebooks on Renaissance Literature** Northrop Frye 2006 Michael Dolzani divides these notes into three categories: those on Spenser and the epic tradition; those on Shakespearean drama and, more widely, the dramatic tradition from Old Comedy to the masque; and those on lyric poetry and non-fiction prose.

After the New Criticism Frank Lentricchia 2018-12-14 This work is the first history and evaluation of contemporary American critical theory within its European philosophical contexts. In the first part, Frank Lentricchia analyzes the impact on our critical thought of Frye, Stevens, Kermode, Sartre, Poulet, Heidegger, Sussure, Barthes, Lévi-Strauss, Derrida, and Foucault, among other, less central figures. In a second part, Lentricchia turns to four exemplary theorists on the American scene—Murray Krieger, E. D. Hirsch, Jr., Paul de Man, and Harold Bloom—and an analysis of their careers within the lineage established in part one. Lentricchia's critical intention is in evidence in his sustained attack on the more or less hidden formalist premises inherited from the New Critical fathers. Even in the name of historical consciousness, he contends, contemporary theorists have often cut literature off from social and temporal processes. By so doing he believes that they have deprived literature of its relevant values and turned the teaching of both literature and theory into a rarefied activity. All along the way, with the help of such diverse thinkers as Saussure, Barthes, Foucault, Derrida, and Bloom, Lentricchia indicates a strategy by which future critical theorists may resist the mandarin attitudes of their fathers.

Cargado de un sarcasmo feroz y una aguda observación de la realidad, este tríptico disecciona la vida en la Alemania durante la era nazi y los años de la posguerra, hasta llegar a un futuro apocalíptico. Momentos de la vida de un fauno detalla las cuitas de un oficinista que escapa de la banalidad que lo rodea investigando las hazañas de un desertor de las guerras napoleónicas. El brezal de Brand se centra en el caos de la posguerra y sigue las andanzas de un escritor que, tras salir de un campo de prisioneros, se integra en la pequeña aldea donde vivió el romántico Fouqué en pos de una nueva vida. Finalmente, Espejos negros nos sitúa en un futuro donde la civilización ha sido prácticamente destruida; el narrador, solo durante años en ciudades llenas de cadáveres, teme ser el último hombre en la Tierra hasta que un descubrimiento despierta en él nuevos temores. Arno Schmidt (1914-1979) es, junto con Heinrich Böll y Günter Grass, uno de los más importantes escritores de la Alemania de posguerra, quizá el más transgresor e innovador. Ocupa un lugar eminente en la historia de la sátira y la «comedia cruel», en la tradición de Rabelais, Swift y Joyce. Traducción de Luis Alberto Bixio, Fernando Aramburu, Guillermo Piro y Florian von Hoyer Reseña: «Un verdadero poeta.» Hermann Hesse

*Iron John* Robert Bly 2020 "In this timeless and deeply learned classic, poet and translator Robert Bly offers nothing less than a new vision of what it means to be a man. Bly's vision is based on his ongoing work with men, as well as on reflections on his own life. He addresses the devastating effects of remote fathers and mourns the disappearance of male initiation rites in our culture. Finding rich meaning in ancient stories and legends, Bly uses the Grimm fairy tale "Iron John"--In which a mentor or "Wild Man" guides a young man through eight stages of male growth-to remind us of ways of knowing long forgotten, images of deep and vigorous masculinity centered in feeling and protective of the young. At once down-to-earth and elevated, combining the grandeur of myth with the practical and often painful lessons of our own histories, Iron John is an astonishing work that will continue to guide and inspire men-and women-for years to come"--

Forgiven. Only a work of such searing, meticulously controlled brilliance could provoke such a wide range of visceral responses. Here is the incredible story of an imprisoned pedophile who is drawn into an erotically charged correspondence with a nineteen-year-old suburban coed. As the two reveal—and revel in—their obsessive desires, Homes creates in *The End of Alice* a novel that is part romance, part horror story, at once unnerving and seductive.

Looking Awry Slavoj Žižek 1992-09-08 Slavoj Žižek, a leading intellectual in the new social movements that are sweeping Eastern Europe, provides a virtuoso reading of Jacques Lacan. Žižek inverts current pedagogical strategies to explain the difficult philosophical underpinnings of the French theoretician and practitioner who revolutionized our view of psychoanalysis. He approaches Lacan through the motifs and works of contemporary popular culture, from Hitchcock's *Vertigo* to Stephen King's *Pet Sematary*, from McCullough's *An Indecent Obsession* to Romero's *Return of the Living Dead*—a strategy of "looking awry" that recalls the exhilarating and vital experience of Lacan. Žižek discovers fundamental Lacanian categories the triad Imaginary/Symbolic/Real, the object small a, the opposition of drive and desire, the split subject—at work in horror fiction, in detective thrillers, in romances, in the mass media's perception of ecological crisis, and, above all, in Alfred Hitchcock's films. The playfulness of Žižek's text, however, is entirely different from that associated with the deconstructive approach made famous by Derrida. By clarifying what Lacan is saying as well as what he is not saying, Žižek is uniquely able to distinguish Lacan from the poststructuralists who so often claim him.

the "mundane shell," encountering women, reaching for the moon of love ("I want, I want"), falling into Time's Ocean. After several other episodes he finally arrives at the death's door with Job's words: "I have said to the Worm: Thou art my mother and my sister." There a female figure is "Weaving to Dreams the Sexual strife, And Weeping over the Web of Life." William Blake (1757 - 1827) was a British poet, painter, visionary mystic, and engraver, who illustrated and printed his own books. Blake proclaimed the supremacy of the imagination over the rationalism and materialism of the 18th-century. Largely unrecognised during his lifetime, Blake is now considered a seminal figure in the history of both the poetry and visual arts of the Romantic Age.

**Event Power** Chris Rojek 2013-02-21 "Rojek's argument is a psychological one, although his message is political: global events build on people's needs to feel empowered and jointly engaged in the pursuit of a higher purpose; they allow a break from daily routines, provide an illusion of intimacy and social membership, and create a sense of self-validation and personal gratification. In short, participation in such events makes us feel good. At the same time, the real effect of global events seems to be the maintenance of global inequality and social injustice, as well as huge profits for the organizations involved in planning, commercializing and securing these happenings. In sketching out this palliative function of global events from the perspective of people's needs on the one hand, and unveiling their puppet masters backstage on the other, Rojek's book presents a compelling account of the role of organized events in modern society." - Organization Studies Events dominate our screens, our lives, and increasingly global geopolitics. Analysis of events and their management has remained rooted in leisure and management studies - until now. This break-through book provides an introduction to event management, while also situating events in questions of power and social control. Rojek powerfully argues that events are essential elements in corporate-state partnerships of 'invisible government' that have revived the romance of charity as to form illusory communities, while cloaking power imbalances and social inequalities. Events are moving politics from the old idea of 'the personal is political' to the new, more seductive notion that 'representation is resistance'. Wielding rich case studies from the World Cup and the Olympics to Live Aid, Burning Man and Mardi Gras, Rojek presents a dazzlingly original account of communication power, social ordering and control. It is essential reading in media & communication studies and across the social sciences.

*After Theory* Terry Eagleton 2004-08-26 The golden age of cultural theory (the product of a decade and a half, from 1965 to 1980) is long past. We are living now in its aftermath, in an age which, having grown rich in the insights of thinkers like Althusser, Barthes and Derrida, has also moved beyond them. What kind of new, fresh thinking does this new era demand? Eagleton concludes that cultural theory must start thinking ambitiously again - not so that it can hand the West its legitimation, but so that it can seek to make sense of the grand narratives in which it is now embroiled.

**The Great Code** Northrop Frye 2002 An examination of the influence of the Bible on Western art and literature and on the Western creative imagination in general. *Materialism* Terry Eagleton 2017-02-07 A brilliant introduction to the philosophical concept of materialism and its relevance to contemporary science and culture In this eye-opening, intellectually stimulating appreciation of a fascinating school of philosophy, Terry Eagleton makes a powerful argument that materialism is at the center of today's important scientific and cultural as well as philosophical debates. The author reveals entirely fresh ways of considering the values and beliefs of three very different materialists—Marx, Nietzsche, and Wittgenstein—drawing striking comparisons between their philosophies while reflecting on a wide array of topics, from ideology and history to language, ethics, and the aesthetic. Cogently demonstrating how it is our bodies and corporeal activity that make thought and consciousness possible, Eagleton's book is a valuable exposition on philosophic thought that strikes to the heart of how we think about ourselves and live in the world.
