So Far from the Bamboo Grove Yoko Kawashima Watkins 2014-06-24 In the final days of World War II, Koreans were determined to take back control of their country from the Japanese and end the suffering caused by the Japanese occupation. In the midst of suffering, acts of kindness, as exemplified by a family of Koreans who risk their own lives to help Yoko's brother, are inspiring reminders of the strength and resilience of the human spirit.

The Last Cherry Blossom Kathleen Burkinshaw 2016-08-02 Following the seventieth anniversary of the atomic bombing of Hiroshima, this is a new, very personal story to join Sadako and the Thousand Paper Cranes. Yuriko was happy growing up in Hiroshima when it was just her and Papa. But her aunt Kimiko and her cousin Genji are living with them now, and the family is only getting bigger with talk of a double marriage! And while things are changing at home, the world beyond their doors is even more unpredictable. World War II is coming to an end, and since the Japanese newspapers don't report lost battles, the Japanese people are not entirely certain of where Japan stands. Yuriko is used to the sirens and the air-raid drills, but things start to feel more real when the neighbors who have left to fight stop coming home. When the bombs hit Hiroshima, it's through Yuriko's twelve-year-old eyes that we witness the devastation and horror. This is a story that offers young readers insight into how children

lived during the war, while also introducing them to Japanese culture. Based loosely on author Kathleen Burkinshaw's mother's firsthand experience surviving the atomic bombing of Hiroshima, *The Last Cherry Blossom* hopes to warn readers of the immense damage nuclear war can bring, while reminding them that the "enemy" in any war is often not so different from ourselves.

On the Scent of a Beautiful Life Han Mi-ja 2017-10-05 This is the truly inspiring story of Suh Sung-whan, an entrepreneur who grew up in Gaeseong in North Korea, left school at the age of sixteen, and subsequently transformed a small family business into a multi-million dollar global cosmetics corporation, AmorePacific, famous for its perfumes and cosmetics across the world. When Suh Sung-whan was a young boy in the 1930s, his mother supported their family by mixing and selling hand-pressed hair treatment oils, created from camellia nut trees. Inspired by his mother, he quickly learned the skills for developing and selling these products, and earned himself a spot in the first department store to open in Gaeseong - a sign of the big things to come. Suh Sung-whan soon experienced a major setback however, when he was called up to fight with the Japanese during World War II. Following Korea's liberation in 1945, he made a fully-fledged entry into business, expanding the company, now known as AmorePacific, both in Korea and worldwide. As well as developing a hugely successful cosmetics business, he also dedicated time to developing green tea farms in the Jeju and Honam regions, and launched OSulloc, his own tea company. This is the fascinating story of how a young boy took a small family business and developed it into a global company, which has been at the forefront of booming trade in Korea.

Daily Life in Wartime Japan, 1940-1945 Samuel Hideo Yamashita 2017-02-05 *Daily Life in Wartime Japan, 1940-1945* is an intimate history of the lives of ordinary Japanese during World War II that introduces us to housewives in provincial cities struggling to feed their families while supporting the war effort, a conscript from northern Japan who endured the harshest and most abusive training imaginable to learn to fly, Tokyo teenagers mobilized to work in wartime factories, children evacuated from the big cities to a life in the countryside with little food, bullying, and no privacy, farmers pressured to grow more rice and wheat with less fertilizer and fewer hands, and a Kyoto octogenarian whose inability to contribute to the war effort leads him to contemplate suicide."

Unconditional Defeat Thomas W. Zeiler 2004 *Unconditional Defeat*-the second book in a Pacific War trilogy that is part of SR Books' Total War series-examines the concluding stages of World War II in Asia and the Pacific, from November 1943 until September 1945. Thomas W. Zeiler argues that this "war without mercy" could only come to one conclusion: the complete, unconditional defeat of Japan by a mobilized, overwhelming, vengeful United States. Zeiler describes these final 22 months of the Pacific War as a story of contrasts. While the U.S. launched a methodical, smothering attack with all the means at its disposal, Japan fought a fierce yet hopeless defense with diminishing supplies. By November 1943, Japan lacked the necessities not just for victory, as in the earlier phases of the war, but for adequate defense. The Japanese had no options. The strategic planning rested with the Americans. Zeiler's gripping and thorough overview discusses other contrasts between the two foes. The Americans planned multiple advances in the Pacific Ocean and on the Asian mainland. They used a massive number of troops, devised and adopted new amphibious techniques, and deployed the new nuclear category of weapons. The Japanese stubbornly but desperately clung to their territory, often with the basest of defenses. By August 1945, the United States' forces at sea, on land, and in the air had brought Japan near complete defeat. In addition, the Japanese Empire was diplomatically isolated. Japanese politics was in turmoil, the government faced rebellion, and the Emperor stood on the brink of

extinction. Wracked by the destruction of the homeland from the air and blockade by sea, Japanese society veered near chaos and the people peered into the abyss of an uncertain future. In the meantime, America's military had experienced such horrors at the hands of Japan that the U.S. made the difficult decision to unleash the atomic bomb. Despite the stark differences between the U.S. and Japan, argues Zeiler, there was one aspect of the war that both sides held i

The Russo-Japanese War 1904-1905 Geoffrey Jukes 2014-06-06 The Russo-Japanese war saw the first defeat of a major European imperialist power by an Asian country. When Japanese and Russian expansionist interests collided over Manchuria and Korea, the Tsar assumed Japan would never dare to fight. However, after years of planning, Japan launched a surprise attack on the Russian Port Arthur, on the Liaoyang Peninsula in 1904 and the war that followed saw Japan win major battles against Russia. This book explains the background and outbreak of the war, then follows the course of the fighting at Yalu River, Sha-ho, and finally Mukden, the largest battle anywhere in the world before the First World War.

Fudoki Kij Johnson 2004-10-01 In her skillful debut novel, Kij Johnson took the classic Japanese myth of the fox who dared to become a woman to win true love and created *The Fox Woman*, a luminous, lyrical tale of love, desire, joy, and the nature of the soul. Set in the same universe as *The Fox Woman*, this time Kij Johnson takes on another animal totem and enters the world of the creature who comes to be known as Kagaya-hime, a sometime woman warrior, occasional philosopher, and reluctant confidante to noblemen. And who may or may not be the figment of the imagination of an aging empress who is embarking on the last journey of her life, setting aside the trappings of court life and reminiscing as she follows the paths that are leading her to the nunnery and death. *Fudoki* is the tale of a being who starts her journey on the kami, or spirit road, as a humble-if ever a being such as a Cat can be humble-small tortoiseshell feline. She has seen her family destroyed by a fire that decimated most of the Imperial city. This loss renders her taleless, the only one left alive to pass on such stories as *The Cat Born the Year the Star Fell*, *the Cat with a Litter of Ten*, *the Fire-Tailed Cat*. Without her fudoki-self and soul and home and shrine-she cannot keep the power of her clan together. And she cannot join another fudoki because, although she might be able to win a place within another clan, to do so would mean that she would cease to be herself. So a small cat begins an extraordinary journey. Along the way she will attract the attention of old and ancient powers, including gods who are curious about this creature newly come to Japan's shores, and who choose to give the tortoiseshell a human shape. And who set her on a new kami road, where Kagaya-hime will have to choose a way to find what happiness she can. Weaving a haunting story of one being's transformation and journey of discovery with the telling of another's long life set against the backdrop of the courtly rituals of Imperial power, Kij Johnson has written a powerful novel about the nature of freedom and the redemptive power of transformation-if only one is brave enough to risk it all. Kobo: A Story of the Russo-Japanese War Herbert Strang 1922

Thrilling Stories of the Russian-Japanese War James Martin Miller 1904

War and National Reinvention Frederick R. Dickinson 1999 For Japan, as one of the victorious allies, World War I meant territorial gains in China and the Pacific. At the end of the war, however, Japan discovered that in modeling itself on imperial Germany since the nineteenth century, it had perhaps been imitating the wrong national example. Japanese policy debates during World War I, particularly the clash between proponents of greater democratization and those who argued for military expansion, thus became part of the ongoing discussion of national identity among Japanese elites. This study links two sets of concerns--the focus of recent studies of the nation on language, culture, education, and race; and the emphasis of diplomatic history on international developments--to show how political, diplomatic, and cultural concerns work together to shape national identity.

I'm Married to Your Company! Masako Itō 2008 This approachable and absorbing book offers a unique window into Japanese culture and language. Highlighting the overlooked world of the silent majority, the housewives and mothers who are the mainstay of Japanese society, this work tells the stories of ordinary women in their own voices. An annotated translation of a Japanese bestseller, the volume explores the daily communication of Japanese women and what their words tell us about their relationships and lives in a globalized, post-industrial, yet still often male-dominated Japan. Readers will find that many issues explored here are universal to women everywhere, while others are specific to Japan. With added cultural context and commentary, the book offers a fresh understanding of Japanese society, even for those who have had little exposure to Japan. Students in diverse fields, ranging from anthropology to women's studies and from communications to Asian studies, will find this an insightful and provocative work.

Surviving a Japanese Internment Camp Rupert Wilkinson 2013-11-20 During World War II the Japanese imprisoned more American civilians at Manila's Santo Tomas prison camp than anywhere else, along with British and other nationalities. Placing the camp's story in the wider history of the Pacific war, this book tells how the camp went through a drastic change, from good conditions in the early days to impending mass starvation, before its dramatic rescue by U.S. Army "flying columns." Interned as a small boy with his mother and older sister, the author shows the many ways in which the camp's internees handled imprisonment--and their liberation afterwards. Using a wealth of Santo Tomas memoirs and diaries, plus interviews with other ex-internees and veteran army liberators, he reveals how children reinvented their own society, while adults coped with crowded dormitories, evaded sex restrictions, smuggled in food, and through a strong internee government, dealt with their Japanese

overlords. The text explores the attitudes and behavior of Japanese officials, ranging from sadistic cruelty to humane cooperation, and asks philosophical questions about atrocity and moral responsibility.

To Wear the Dust of War S. Iwry 2004-08-20 Like many European Jews, Sam Iwry began his life in Poland, but at the age of ten fled with his family to Russia before World War I. At age 29, Iwry was forced to flee again - this time from the Soviets - and ended up in Shanghai, China, joining 20,000 Jewish refugees who were there. The story of the Diaspora caused by the Holocaust is well-known, but the Far Eastern dimension has come to light only very recently. Iwry is a magnificent storyteller who not only brings the harrowing details of flight and survival into vivid detail, but he is also an historian who deliberately places his own experiences into much wider context. This oral history sheds light on Jewish life in Eastern Europe during the inter-war period, the search for a safe haven from Nazis and Soviets, daily life in the Shanghai ghetto, and emigration to America. Iwry's story is both representative of the Jewish experience and also completely unique.

The Samurai's Garden Gail Tsukiyama 2008-06-24 The daughter of a Chinese mother and a Japanese father, Gail Tsukiyama's *The Samurai's Garden* uses the Japanese invasion of China during the late 1930s as a somber backdrop for this extraordinary story. A 20-year-old Chinese painter named Stephen is sent to his family's summer home in a Japanese coastal village to recover from a bout with tuberculosis. Here he is cared for by Matsu, a reticent housekeeper and a master gardener. Over the course of a remarkable year, Stephen learns Matsu's secret and gains not only physical strength, but also profound spiritual insight. Matsu is a samurai of the soul, a man devoted to doing good and finding beauty in a cruel and arbitrary world, and Stephen is a noble student, learning to appreciate Matsu's generous and nurturing way of life and to love Matsu's soulmate, gentle Sachi, a woman afflicted with leprosy.

Oh! the Places I've Been Bernice Livingston Youtz 2014-03-05 *Oh! the Places I've Been* is a memoir Bernice Livingston Youtz has written primarily for her family and a few friends. She relates childhood in the Depression of the 1930s (she always knew that it was spelled with a capital D), adolescence during World War II, young adulthood, marriage, children in the post-war 1950s. She recalls an early love of reading which led, not surprisingly, to an aspiration for travel, although there was no opportunity for that until she was an adult, no "study abroad" programs or summers hosteling in Europe. She made up for that in work and travel in post-war Europe, and--after her marriage--she and her husband lived in Beirut, Lebanon, for three years. She writes of the great pleasure she took in raising her three children and in the travel she has been privileged to enjoy in recent years. She is grateful for the privilege of having lived in Lebanon and on two occasions in France, has traveled in some sixty countries. She still reads, thinks often of the many people she has known throughout the world.

Eagle Against the Sun Ronald H. Spector 2020-11-03 "The best book by far on the Pacific War" (The New York Times Book Review), this classic one-volume history of World War II in the Pacific draws on declassified intelligence files; British, American, and Japanese archival material; and military memoirs to provide a stunning and complete history of the conflict. This "superbly readable, insightful, gripping" (Washington Post Book World) contribution to WWII history combines impeccable research with electrifying detail and offers provocative interpretations of this brutal forty-four-month struggle. Author and historian Ronald H. Spector reassesses US and Japanese strategy and shows that the dual advance across the Pacific by MacArthur and Nimitz was more a pragmatic solution to bureaucratic, doctrinal, and public relations problems facing the Army and Navy than a strategic calculation. He also argues that Japan made its fatal error not in the Midway campaign but in abandoning its offensive strategy after that defeat and allowing itself to be drawn into a war of attrition. Spector skillfully takes us from top-secret strategy meetings in Washington, London, and Tokyo to distant beaches and remote Asian jungles with battle-weary GIs. He reveals that the US had secret plans to wage unrestricted submarine warfare against Japan months before Pearl Harbor and shows that MacArthur and his commanders ignored important intercepts of Japanese messages that would have saved thousands of lives in Papua and Leyte. Throughout, Spector contends that American decisions in the Pacific War were shaped more often by the struggles between the British and the Americans, and between the Army and the Navy, than by strategic considerations. Spector vividly recreates the major battles, little-known campaigns, and unfamiliar events leading up to the deadliest air raid ever, adding a new dimension to our understanding of the American war in the Pacific and the people and forces that determined its outcome.

Leper Spy Ben Montgomery 2016-10-01 The GIs called her Joey. Hundreds owed their lives to the tiny Filipina who stashed explosives in spare tires, tracked Japanese troop movements, and smuggled maps of fortifications across enemy lines. As the Battle of Manila raged, Josefina Guerrero walked through gunfire to bandage wounds and close the eyes of the dead. Her valor earned her the Medal of Freedom, but what made her a good spy was also destroying her: leprosy, which so horrified the Japanese they refused to search her. After the war, army chaplains found her in a nightmarish leper colony and fought for the US government to do something it had never done: welcome a foreigner with leprosy. This brought her celebrity, which she used to publicly speak for other sufferers. However, the notoriety haunted her and she sought a way to disappear. Ben Montgomery now brings Guerrero's heroic

accomplishments to light.

[A War It Was Always Going to Lose](#) Jeffrey Record 2011 Makes sense of Japan's seemingly incomprehensible decision to go to war against the United States.

Indestructible John R Bruning 2016-10-11 In this remarkable WWII story by New York Times bestselling author John R. Bruning, a renegade American pilot fights against all odds to rescue his family--imprisoned by the Japanese--and revolutionizes modern warfare along the way. From the knife fights and smuggling runs of his youth to his fiery days as a pioneering naval aviator, Paul Irving "Pappy" Gunn played by his own set of rules and always survived on his wits and fists. But when he fell for a conservative Southern belle, her love transformed him from a wild and reckless airman to a cunning entrepreneur whose homespun engineering brilliance helped launch one of the first airlines in Asia. Pappy was drafted into MacArthur's air force when war came to the Philippines; and while he carried out a top-secret mission to Australia, the Japanese seized his family. Separated from his beloved wife, Polly, and their four children, Pappy reverted to his lawless ways. He carried out rescue missions with an almost suicidal desperation. Even after he was shot down twice and forced to withdraw to Australia, he waged a one-man war against his many enemies--including the American high command and the Japanese--and fought to return to the Philippines to find his family. Without adequate planes, supplies, or tactics, the U.S. Army Air Force suffered crushing defeats by the Japanese in the Pacific. Over the course of his three-year quest to find his family, Pappy became the renegade who changed all that. With a brace of pistols and small band of loyal followers, he robbed supply dumps, stole aircraft, invented new weapons, and modified bombers to hit harder, fly farther, and deliver more destruction than anything yet seen in the air. When Pappy's modified planes were finally unleashed during the Battle of the Bismarck Sea, the United States scored one of the most decisive victories of World War II. Taking readers from the blistering skies of the Pacific to the jungles of New Guinea and the Philippines to one of the war's most notorious prison camps, *Indestructible* traces one man's bare-knuckle journey to free the people he loved and the aerial revolution he sparked that continues to resonate across America's modern battlefields.

[Four Brothers in the Pacific War](#) Chris Pratt 2022-02-21 Dave, Ray, Morris and Alex Rohrlach were Australian Lutherans of German descent who served in the Australian Army and Navy in the Pacific during World War Two. In a fascinating biography of the brothers, Chris Pratt chronicles the events of their lives before, during, and in the aftermath of war. Dave, a Lutheran missionary in New Guinea, captained his mission schooner to rescue defeated Australian soldiers from New Britain in the opening months of the war. Ray served in a motorised infantry unit before enduring a year in an isolated malarial outpost in Dutch New Guinea. Morris struggled through two amphibious landings in Japanese

occupied Borneo. Alex survived kamikaze attacks and a battle with a Japanese fleet in the Philippines to witness from an Australian heavy cruiser the signing of the Japanese surrender in Tokyo Bay. Included are historical maps and photographs provided by the family.

The War with Japan H. P. Willmott 2002 From May 1942 to October 1943, Japan and the US engaged in clashes in the Southwest Pacific. Forces on both sides were evenly matched, and the troops fought one another to exhaustion. This book looks at the war with Japan, focusing on this period of balance between US and Japanese forces.
