Keys to Play Roger Moseley 2016-10-28 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program for monographs. Visit www.luminosoa.org to learn more. How do keyboards make music playable? Drawing on theories of media, systems, and cultural techniques, *Keys to Play* spans Greek myth and contemporary Japanese digital games to chart a genealogy of musical play and its animation via improvisation, performance, and recreation. As a paradigmatic digital interface, the keyboard forms a field of play on which the book's diverse objects of inquiry—from clavichords to PCs and eighteenth-century musical dice games to the latest rhythm-action titles—enter into analogical relations. Remapping the keyboard's topography by way of Mozart and Super Mario, who head an expansive cast of historical and virtual actors, *Keys to Play* invites readers to unlock ludic dimensions of music that are at once old and new.

Library Journal 1982

Class Paul Fussell 1992 This book describes the living-room artifacts, clothing styles, and intellectual proclivities of American classes from top to bottom

The Land of Stories: The Wishing Spell Chris Colfer 2012-07-17 Alex and Conner Bailey's world is about to change. When the twins' grandmother gives them a treasured fairy-tale book, they have no idea they're about to enter a land beyond all imagining: the Land of Stories, where fairy tales are real. But as Alex and Conner soon discover, the stories they know so well haven't ended in this magical land - Goldilocks is now a wanted fugitive, Red Riding Hood has her own kingdom, and Queen Cinderella is about to become a mother! The twins know they must get back home somehow. But with the legendary Evil Queen hot on their trail, will they ever find the way? *The Land of Stories: The Wishing Spell* brings readers on a thrilling quest filled with magic spells, laugh-out-loud humour and page-turning adventure.

Publishers' Trade List Annual 1995

Fluid Concepts and Creative Analogies Douglas R. Hofstadter 1998 Hofstadter and his colleagues at The Fluid Analogies Research Group have developed computer models that help describe and explain human discovery, creation and analogical thought. The key issue of perception is investigated through the exploration of playful anagrams, number puzzles, word play and fanciful alphabetical styles, and the

result is a survey of cognitive processes. This text presents the results.

Hümmel Figurines & Plates Carl F. Luckey 1980

The Human Body in Early Iron Age Central Europe Katharina Rebay-Salisbury 2016-12-08 Identities and social relations are fundamental elements of societies. To approach these topics from a new and different angle, this study takes the human body as the focal point of investigation. It tracks changing identities of early Iron Age people in central Europe through body-related practices: the treatment of the body after death and human representations in art. The human remains themselves provide information on biological parameters of life, such as sex, biological age, and health status. Objects associated with the body in the grave and funerary practices give further insights on how people of the early Iron Age understood life and death, themselves, and their place in the world. Representations of the human body appear in a variety of different materials, forms, and contexts, ranging from ceramic figurines to images on bronze buckets. Rather than focussing on their narrative content, human images are here interpreted as visualising and mediating identity. The analysis of how image elements were connected reveals networks of social relations that connect central Europe to the Mediterranean. Body ideals, nudity, sex and gender, aging, and many other aspects of women's and men's lives feature in this book. Archaeological evidence for marriage and motherhood, war, and everyday life is brought together to paint a vivid picture of the past.

You Deserve Each Other Sarah Hogle 2020-04-07 When your nemesis also happens to be your fiancé, happily ever after becomes a lot more complicated in this wickedly funny, lovers-to-enemies-to-lovers romantic comedy debut. Naomi Westfield has the perfect fiancé: Nicholas Rose holds doors open for her, remembers her restaurant orders, and comes from the kind of upstanding society family any bride would love to be a part of. They never fight. They're preparing for their lavish wedding that's three months away. And she is miserably and utterly sick of him. Naomi wants out, but there's a catch: whoever ends the engagement will have to foot the nonrefundable wedding bill. When Naomi discovers that Nicholas, too, has been feigning contentment, the two of them go head-to-head in a battle of pranks, sabotage, and all-out emotional warfare. But with the countdown looming to the wedding that may or may not come to pass, Naomi finds her resolve slipping. Because now that they have nothing to lose, they're finally being themselves—and having fun with the last person they expect: each other.

Wikinomics Don Tapscott 2008-04-17 The acclaimed bestseller that's teaching the world about the power of mass collaboration. Translated into more than twenty languages and named one of the best business books of the year by reviewers around the world, Wikinomics has become essential reading for business

people everywhere. It explains how mass collaboration is happening not just at Web sites like Wikipedia and YouTube, but at traditional companies that have embraced technology to breathe new life into their enterprises. This national bestseller reveals the nuances that drive wikinomics, and share fascinating stories of how masses of people (both paid and volunteer) are now creating TV news stories, sequencing the human genome, remixing their favorite music, designing software, finding cures for diseases, editing school texts, inventing new cosmetics, and even building motorcycles.

Learning and Behavior Paul Chance 2013-03-01 LEARNING AND BEHAVIOR, Seventh Edition, is stimulating and filled with high-interest queries and examples. Based on the theme that learning is a biological mechanism that aids survival, this book embraces a scientific approach to behavior but is written in clear, engaging, and easy-to-understand language. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Song of the Lark Willa Cather 2012-03-05 DIVThe portrait of a formidable woman who defies the limitations set on women of her time and social station to become an international opera star. /div

Women in Dada Naomi Sawelson-Gorse 2001 This book is the first to make the case that women's changing role in European and American society was critical to Dada. Debates about birth control and suffrage, a declining male population and expanding female workforce, the emergence of the New Woman, and Freudianism were among the forces that contributed to the dadaist enterprise. Among the female dadaists discussed are the German émigré Baroness Elsa von Freytag-Loringhoven; Berlin dadaist Hannah Höch; expatriate poet and artist Mina Loy; the "Queen of Greenwich Village," Clara Tice; Margaret Anderson and Jane Heap, the lesbian couple who ran the Little Review; and Beatrice Wood, who died in 1998 at the age of 105. The book also addresses issues of colonialist racism, cross-dressing and dandyism, and the gendering of the machine.

M.I. Hummel Robert L. Miller 1989

The Kid Who Beat Wall Street and Saved Africa Ginger Heller 2015-01-02 "The Kid Who Beat Wall Street...and Saved Africa," is a story that takes place on six different continents where our hero, Marco, invests in a gold mine stock, corners the market in corn, and makes over \$500,000. That's right, over half a million dollars. By the way, he's only 12 years old and his parents have no idea. However, it is also the story of children in war torn Africa, of marauding gangs of thugs, burning and pillaging. It's a story of disease, of the lack of food, clean water, and medicine. Marco, along with his pen-pals from all over the world, learns of the plight of these less fortunate children in Africa. A daring way is devised to come to their rescue. "The Kid Who Beat Wall Street...and Saved Africa," tells of courage, of adventure, and of how one boy can begin to save the world, one small step at a time.

Luckey's Hummel Figurines & Plates Carl F. Luckey 2003-03-26 The ultimate Hummel reference, with more than 3,000 listings for Hummel-related collectibles. Includes full descriptions with current production status, identification information, and pricing for figurines, plates, prints, jewelry and miniatures, as well as tips for recognizing fakes and forgeries.

Not only does it list thousands of current values, it also lists names and addresses of hundreds of active buyers and what they are currently buying. Over 800 large, clear photos help to identify each collectible.

A Cognitive Psychology of Mass Communication Richard Jackson Harris 2009-05-19 In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics – sex, violence, advertising – to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. The text is appropriate for *Media Effects*, *Media & Society*, and *Psychology of Mass Media* coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.

Antique Trader Antiques & Collectibles Price Guide 2006 Kyle Husfloen 2005-10-25 Lists more than twelve thousand items, providing descriptions, values, and identification tips for a broad spectrum of popular collectibles.

Vintage Clothing, 1880-1960 Maryanne Dolan 1984

Luckey 1992 The author has traveled throughout the country researching this reference guide and has photographed more than 230 decoys and approximately 100 calls. Along with the photos are full descriptions and values. Each is identified as to its maker, school of carving, etc.

Moby-Duck Donovan Hohn 2011-03-03 Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science, adventure, and modern myth. When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea, he figured he would interview a few oceanographers, talk to a few beachcombers, and read up on Arctic science and geography. But questions can be like ocean currents: wade in too far, and they carry you away. Hohn's accidental odyssey pulls him into the secretive world of shipping conglomerates, the daring work of Arctic researchers, the lunatic risks of maverick sailors, and the shadowy world of Chinese toy factories. Moby-Duck is a journey into the heart of the sea and an adventure through science, myth, the global economy, and some of the worst weather imaginable. With each new discovery, Hohn learns of another loose thread, and with each successive chase, he comes closer to understanding where his castaway quarry comes from and where it goes. In the grand tradition of Tony Horwitz and David Quammen, Moby-Duck is a compulsively readable narrative of whimsy and curiosity.

The Publishers' Trade List Annual 1987

The Gangs Of New York Herbert Asbury 2016-07-26 Herbert Asbury presents here a vivid and startling account of New York gangdom from its beginning in Revolutionary times to comparatively recent days. Here are the stories of the great gangs which terrorized the city and at times menaced its very existence—from the Bowery Boys and the Dead Rabbits to the Gophers and the Eastmans. Kid Dropper, Dopey Benny, Gyp the Blood and Owney Madden are a few of the gangster luminaries described, not to mention such female evildoers as Gallus Mag and Sadie the Goat. Nor have the underworld's lesser lights been overlooked; for these pages are crowded with a host of gang warriors, pickpockets, tong leaders, murderers, politicians, gamblers, prostitutes, dive-keepers and a few would-be reformers. Mr. Asbury has created such a rich, factual background for this chronicle of crime and gangsterism that the book gains considerable stature as a revealing picture of New York City's history through a century of frenzied growth and expansion. Whether you read it as such or merely for amusement, it is a swift, exciting experience.

Seeing and Visualizing Zenon W. Pylyshyn 2003 How we see and how we visualize: why the scientific account differs from our experience.

Fiske WordPower Edward B Fiske 2018-07-03 The Exclusive Method You Can Use to Learn—Not Just Memorize—Essential Words A powerful vocabulary expands your world of opportunity. Building your word power will help you write more effectively, communicate clearly, score higher on standardized tests like the SAT, ACT, or GRE, and be more confident and persuasive in everything you do. Using the exclusive Fiske method, you will not just memorize words, but truly learn their meanings and how to use them correctly. This knowledge will stay with you longer and be easier to recall—and it doesn't take any longer than less-effective memorization. How does it work? This book uses a simple three-part system: 1. Patterns: Words aren't arranged randomly or alphabetically, but in similar groups based on meaning and origin that make words easier to remember over time. 2. Deeper Meanings, More Examples: Full explanations—not just brief definitions—of what the words mean, plus multiple examples of the words in sentences. 3. Quick Activities: Frequent short quizzes help you test how much you've learned, while helping your brain internalize their meanings.
