Letter to My Daughter Maya Angelou 2009-10-27 NEW YORK TIMES BESTSELLER • Maya Angelou shares her path to living well and with meaning in this absorbing book of personal essays. Dedicated to the daughter she never had but sees all around her, *Letter to My Daughter* transcends genres and categories: guidebook, memoir, poetry, and pure delight. Here in short spellbinding essays are glimpses of the tumultuous life that led Angelou to an exalted place in American letters and taught her lessons in compassion and fortitude: how she was brought up by her indomitable grandmother in segregated Arkansas, taken in at thirteen by her more worldly and less religious mother, and grew to be an awkward, six-foot-tall teenager whose first experience of loveless sex paradoxically left her with her greatest gift, a son. Whether she is recalling such lost friends as Coretta Scott King and Ossie Davis, extolling honesty, decrying vulgarity, explaining why becoming a Christian is a “lifelong endeavor,” or simply singing the praises of a meal of red rice—Maya Angelou writes from the heart to millions of women she considers her extended family. Like the rest of her remarkable work, *Letter to My Daughter* entertains and teaches; it is a book to cherish, savor, re-read, and share. “I gave birth to one child, a son, but I have thousands of daughters. You are Black and White, Jewish and Muslim, Asian, Spanish speaking, Native Americans and Aleut. You are fat and thin and pretty and plain, gay and straight, educated and unlettered, and I am speaking to you all. Here is my offering to you.”—from *Letter to My Daughter*

Jeff Buckley's Grace Daphne Brooks 2005-04-28 The power and influence of Grace increases with each passing year. Here, Daphne Brooks traces Jeff Buckley's fascinating musical development through the earliest stages of his career, up to the release of the album. With access to rare archival material, Brooks illustrates Buckley's passion for life and hunger for musical knowledge, and shows just why he was such a crucial figure in the American music scene of the 1990s. EXCERPT: Jeff Buckley was piecing together a contemporary popular music history for himself that was steeped in the magic of singing. He was busy hearing how Dylan channeled Billie Holiday in *Blonde On Blonde* and how Robert Plant was doing his best to sound like Janis Joplin on early Led Zeppelin recordings. He was thinking about doo-wop and opera and Elton John and working at developing a way to harness the power of the voice...In the process, he was re-defining punk and grunge "attitude" itself by rejecting the ambivalent sexual undercurrents of those movements, as well as Led Zeppelin's canonical "cock rock" kingdom that he'd grown up adoring. He was forging a one-man revolution set to the rhythms of New York City and beyond. And he was on the brink of recording his elegant battle in song for the world to hear.

The Cube and the Face Georges Didi-Huberman 2015-06-15 Alberto Giacometti's 1934 *Cube* stands apart for many as atypical of the Swiss artist, the only abstract sculptural work in a wide oeuvre that otherwise had as its objective the exploration of reality. With *The Cube and the Face*, renowned French art historian and philosopher Georges Didi-Huberman has conducted a careful analysis of *Cube*, consulting the artist's sketches, etchings, texts, and other sculptural works in the years just before and after *Cube* was created. *Cube*, he finds, is indeed exceptional--a work without clear stylistic kinship to the works that came before or after it. At the same time, Didi-Huberman shows, *Cube* marks the transition between the artist's surrealist and realist phases and contains many elements of Giacometti's aesthetic consciousness, including his interest in dimensionality, the relation of the body to geometry, and the portrait--or what Didi-Huberman terms "abstract anthropomorphism." Drawing on Freud, Bataille, Leiris, and others Giacometti counted as influence, Didi-Huberman presents fans and collectors of Giacometti's art with a new approach to transitional work.

Prayers in Hell Theodor Damian 2010-11-18 King Midas - the legend says - transformed everything he touched into gold. Theodor Damian transforms everything he touches into poetry. Sequences from street life, landscapes, peoples gestures, usually looked upon as banalities, disclose, under his eye, their beauty. Other contemporary authors make poetry out of poetry. Theodor Damian makes poetry out of daily reality. The blasé man of the twenty first century has a lot to learn from this book. Reading it one can rediscover the joy of life. It is a resurrection exercise. Alex Stefanescu This is an exceptional book, a synthesis of the poets lyric and philosophical vision on how the impossible loses its limits when it is immersed in prayer. In Damians poetry the I of the lyrical and the I of metaphysical reflection complement each other in total harmony and become definitory for the poets work when they meet in the profound dimensions of Christian spirituality. *Prayers in Hell* represents an editorial event of utmost importance in the landscape so arid and so repetitive of our contemporary poetry. Its design marries the playful exuberance of rococo fashion with the elegant symmetry of baroque styling. Protective magnetic foldover hardcover.

Early Modern Habsburg Women Dr Anne J Cruz 2014-01-28 As the first comprehensive volume devoted entirely to women of both the Spanish and Austrian Habsburg royal dynasties spanning the sixteenth and the seventeenth centuries, this interdisciplinary collection illuminates their complex and often contradictory political functions and their interrelations across early modern national borders. The essays in this volume investigate the lives of six Habsburg women who, as queens consort and queen regent, duchesses, a vicereine, and a nun, left an indelible mark on the diplomatic and cultural map of early modern Europe. Contributors examine the national and transnational impact of these notable women through their biographies, and explore how they transferred their cultural, religious, and political traditions as the women moved from one court to another. *Early Modern Habsburg Women* investigates the complex lives of Philip II's daughter, the Infanta Catalina Micaela (1567-1597); her daughter, Margherita of Savoy, Vicereine of Portugal (1589-1655); and Maria Maddalena of Austria, Grand Duchess of Florence (1589-1631). The second generation of Habsburg women that the volume addresses includes Philip IV's first wife, Isabel of Borbón (1602-1644), who became a Habsburg by marriage; Rudolph II's daughter, Sor Ana Dorotea (1611-1694), the only Habsburg nun in the collection; and Philip IV's second wife, Mariana of Austria (1634-1696), queen regent and mother to the last Spanish Habsburg. Through archival documents, pictorial and historical accounts, literature, and correspondence, as well as cultural artifacts such as paintings, jewelry, and garments, this volume brings to light the impact of Habsburg women in the broader historical, political, and cultural contexts. The essays fill a scholarly need by covering various phases of the lives of early modern royal women, who often struggled to sustain their family loyalty while at the service of a foreign court, even when protecting and preparing their heirs for rule at that same court.

Medieval Prostitution Jacques Rossiaud 1995-12-11 In fifteenth-century France, public prostitution was condoned by all sectors of society. Clerics and municipal officials not only tolerated prostitution, but were often its principal beneficiaries, owning and frequenting brothels quite openly. The explanation of this remarkable

state of affairs is just one aspect of Jacques Rossiaud's vivid reconstruction of a part of medieval society that has previously received little attention. Drawing upon extensive research in medieval archives, the author shows that most fifteenth-century Frenchwomen could expect a life of constant subjugation to male desire. Rape, for instance, was common and considered only a minor crime. He then considers whether public prostitution might paradoxically have been seen by the secular and religious authorities as a means of social control, and of preserving marital stability: the virtue of wives and daughters was best protected by the existence of public brothels, where sexual urges could be satisfied without adultery or rape. Jacques Rossiaud also describes the social background of the prostitutes, brothel-keepers, pimps, and their clientele, providing a vivid overview of the context in which medieval prostitution existed. *Medieval Prostitution* will be of interest to medieval historians, as well as to students of the history of the family and sexuality.

Festival Culture in the World of the Spanish Habsburgs Professor Fernando Checa Cremades 2015-11-28

Festivals and ceremonials played a major role in the Spanish world; through them local identities as well as a common Spanish culture made their presence manifest within and beyond the peninsula through ephemeral displays, music and print. This book explores Habsburg Visual culture at court and its connection with the creation of a language of triumph, the relationship between religion and the empire, and examines cultural, artistic and musical exchange in Naples and Rome. Taken together these essays contribute further to our growing appreciation of the importance of early-modern festival culture in general, and their significance in the world of the Spanish Habsburgs in particular.

Dynastic Identity in Early Modern Europe Dr Liesbeth Geevers 2015-12-28 Aristocratic dynasties have long been regarded as fundamental to the development of early modern society and government. Yet recent work by political historians has increasingly questioned the dominant role of ruling families in state formation, underlining instead the continued importance and independence of individuals. In order to take a fresh look at the subject, this volume provides a broad discussion on the formation of dynastic identities in relationship to the lineage's own history, other families within the social elite, and the ruling dynasty.

The Presentation of Reality

For All the Saints Robert Kolb 2020-06-03 Martyrs have long played a vital role in Christian life, thought, theology, and piety. Robert Kolb, an acknowledged authority on the history of the Lutheran Reformation in Germany, offers a thorough and illuminating analysis of the way German Lutherans changed the perceptions of martyrdom and sainthood. Protestant reformers professed that providential power over daily human life was reserved for God alone, and that mediation with God is provided by Jesus Christ alone. Martyrs and saints could no longer be worshiped or act as intercessors. But this did not mean their absence from the faith and piety of sixteenth-century Protestants. Instead, holy people were regarded as those who confessed the word and in that confession demonstrated and advertised the power of God. This book arose in response to some vexing questions: Why is the first of a long and distinguished line of Protestant martyrologists, Ludwig Rabus, the least noted? Why would he, a German Lutheran, have composed a book of martyrs? Kolb suggests that the answers are complex—they involve differences in historical and political situations and in specific dogmatic emphases of each reformation. Kolb's diligent research led him well beyond Rabus's martyrbook. His work encompasses material from the writings and biographies of Luther and Melancthon, Wittenberg chronicles and calendars, and hymns and songs. The analysis of this material makes a significant contribution to the understanding of the Lutheran Reformation and of the changing roles of saints and martyrs in the history of Christianity.

Twentieth Century Mythologies Daniel Dubuisson 2006 Myths have intrigued scholars throughout history. 'Twentieth Century Mythologies' traces the study of myth over the last century, presenting the key theories of mythology and critiquing traditional definitions of myth. The volume presents the work of influential scholars in mythology: the noted Indo-Europeanist Georges Dumézil, the structuralist anthropologist Claude Lévi-Strauss, and the historian of religions Mircea Eliade. 'Twentieth Century Mythologies' is an indispensable

resource for scholars of religion and myth and for all those interested in the history of ideas.

Leonardo's Method Kim Veltman 2020-12-16 Leonardo da Vinci (1452-1519) has evoked two fundamentally different responses: one sees him as central to early modern science, another dismisses him as an eccentric with no influence. Both views were found while he was still alive. Twentieth century scholars such as Marie Boas Hall argued that because he never published he had no influence, while one recent scholar has dismissed him as "an ingenious empiricist working in an intellectual vacuum. Was Leonardo merely a recluse working on his own out of touch with the great traditions; an over ambitious amateur making notes without any underlying method and structure? This little book shows that Leonardo was widely read and in contact with some of the major scholars of his day. A survey is made of his extant treatises to confirm that these are much more structured than is at first apparent. His plans for books are examined to discern how he intended to arrange his material. It is shown that for all his universality Leonardo focussed on a surprisingly small number of basic themes; that although Leonardo's study of the natural world includes physics, biology and botany he treats them all in terms of mechanics. A detailed reading of his notebooks reveals that he was guided (and inevitably sometimes misguided) by a clear method. The notebooks also contain proof that Leonardo did not write them solely for private study; that he specifically intended them for other readers and had plans for publication. Finally, it will require a survey of historiography to understand how all all this could have been forgotten, with the result that scholars have claimed that he was a peripheral figure, when in fact Leonardo's method is of central importance to the western tradition. In 1973-1974 the late Dr. Kenneth D. Keele, M.D., F.R.C.P. and the author reconstructed some of Leonardo's descriptions of perspective in order to determine whether these had an experimental basis. It was found that they did. The possibility that they had simply been thought experiments was excluded because some of his claims were so unlikely that they had to be tested in order to make sense. The experiments led to a long term cooperation: first two years together as Senior Research Fellows at the Wellcome Institute for the History of Medicine (London); then with intermittent visits during the seven years while the author was at the Herzog August Bibliothek (Wolfenbüttel). As work progressed Leonardo's method became increasingly evident. The challenge of communicating this method inspired Dr. Keele to write Leonardo da Vinci's Elements of a Science of Man and led the author to write his Leonardo Studies I-II. Originally a lecture at the Ateneo di Brescia, "Struttura e metodo nei manoscritti di Leonardo" sponsored by the Centro di studi Leonardiani, Brescia, April, 1991. Published as a book: Brescia: Centro Ricerche Leonardiane, 1993. Revised March/April 2004. Redesigned and made available online in 2021. Salvation at Stake Brad S. Gregory 2001-11-15 Thousands of men and women were executed for incompatible religious views in sixteenth-century Europe. The meaning and significance of those deaths are studied here comparatively for the first time, providing a compelling argument for the importance of martyrdom as both a window onto religious sensibilities and a crucial component in the formation of divergent Christian traditions and identities. Gregory explores Protestant, Catholic, and Anabaptist martyrs in a sustained fashion, addressing the similarities and differences in their self-understanding. He traces the processes and impact of their memorialization by co-believers, and he reconstructs the arguments of the ecclesiastical and civil authorities responsible for their deaths. In addition, he assesses the controversy over the meaning of executions for competing views of Christian truth, and the intractable dispute over the distinction between true and false martyrs. He employs a wide range of sources, including pamphlets, martyrologies, theological and devotional treatises, sermons, songs, woodcuts and engravings, correspondence, and legal records. Reconstructing religious motivation, conviction, and behavior in early modern Europe, Gregory shows us the shifting perspectives of authorities willing to kill, martyrs willing to die, martyrologists eager to memorialize, and controversialists keen to dispute.

Ennobling Love C. Stephen Jaeger 2010-08-03 "Richard, Duke of Aquitaine, son of the King of England, remained with Philip, the King of France, who so honored him for so long that they ate every day at the same table and from the same dish, and at night their beds did not separate them. And the King of France loved him as his own soul; and they loved each other so much that the King of England was absolutely astonished at the vehement love between them and marveled at what it could mean." Public avowals of love between men were common from antiquity through the Middle Ages. What do these expressions leave to interpretation? An extraordinary amount, as Stephen Jaeger demonstrates. Unlike current efforts to read medieval culture through modern mores, Stephen Jaeger contends that love and sex in the Middle Ages relate to each other very differently than in the postmedieval period. Love was not only a mode of feeling and desiring, or an exclusively private sentiment, but a way of behaving and a social ideal. It was a form of aristocratic self-representation, its social function to show forth virtue in lovers, to raise their inner worth, to increase their honor and enhance their reputation. To judge from the number of royal love relationships documented, it seems normal, rather than exceptional, that a king loved his favorites, and the courtiers and advisors, clerical and lay, loved their superiors and each other. Jaeger makes an elaborate, accessible, and certain to be controversial, case for the centrality of friendship and love as aristocratic lay, clerical, and monastic ideals. *Ennobling Love* is a magisterial work, a book that charts the social constructions of passion and sexuality in our own times, no less than in the Middle Ages.
