*Big Results* Robert Greene 2016-06-15 A lot of times, when people think about success, they immediately start to think about their goals. They look at their life and start to measure their accomplishments. I then ask these people, of their goals, how many they would say they accomplish in a year or month. In most cases, they have set goals but they have no idea of the steps or work it takes to accomplish them. I tell you, although we set goals, the outcome we desire is a specific set of results. Let's look at the big picture: the reason why we set goals is because we would like an immediate result, so instead of focusing on the goal, let's focus on the result we want. To me, when I hear the word "goal" I mainly think of wishful thinking. I have no idea how to make this goal a reality, and I know plenty of people who work hard and don't get the result they wanted. Is it possible that, in the process of working toward that goal, they lost sight of the result intended? Or is it possible that they didn't plan the necessary steps to reach the goal/result?

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

Maestria Robert Greene 2013-10-07 "Magnífico e ambicioso." – The New York Times Além de serem considerados mestres no que faziam, o que Mozart, Leonardo da Vinci e Thomas Edison têm em comum? Como foi que alcançaram a excelência? Que escolhas fizeram com que se destacassem tanto de seus contemporâneos? Após realizar um grande estudo sobre várias personalidades fascinantes e bem-sucedidas - entre políticos, estrategistas, artistas, cientistas e inventores -, Robert Greene percebeu que todas essas pessoas, independentemente de sua

área, da cultura ou do momento histórico a que pertenciam, seguiram um padrão similar em suas conquistas. E concluiu que o caminho para a maestria pode ser percorrido por qualquer um de nós. Neste livro, Greene examina pesquisas recentes sobre cognição e criatividade, e derruba os mitos da sorte e da genialidade inata, propondo uma maneira radical de examinar a inteligência humana. Ele explica o que é necessário para uma pessoa comum se tornar um mestre: a capacidade de se dedicar totalmente a um tema de seu interesse, a insistência em um aprendizado contínuo e focado, a liberdade criativa adquirida com o domínio da habilidade e a coragem de ser diferente e enfrentar desafios. Se outras obras descreveram o que acontece com o cérebro depois de 10 mil horas de estudo e prática, Maestria revela o que sucede depois de 20 mil horas - o ápice atingido por Einstein, Darwin e nove mestres contemporâneos entrevistados para este livro. O potencial para alcançar a maestria é intrínseco à espécie humana e resulta de milhões de anos de evolução. Aprenda quais são as três fases decisivas para a sua preparação, identifique sua verdadeira vocação, libere a paixão dentro de você e torne-se também um mestre.

Shamanic Secrets: Lost Wisdom Regained Robert Shapiro 2016-11-01 Due to wars, natural disasters, a shaman not being able to train a successor, and many other reasons, Isis (through Robert) says that 95 percent of the accumulated shamanic wisdom has been lost. Now it is important to regain this wisdom as young people who are able to learn and use these processes are being born now. Beings who lived as shamans and healers on Earth at various times now speak through Robert Shapiro and bring these lost teachings and techniques to a humanity waking up and discovering it has the talents and abilities to use this wisdom for the benefit of all. "This is a time on Earth when people are being rent asunder by dramas in their lives and are overwhelmed by dramas in the lives of others or are sometimes attached to the dramatic events of the day. In times gone by, there were people who provided knowledge, wisdom, and comfort to ease life for their people. "This book is entirely about finding comfort and ease through life. You don't have to struggle. You don't have to find substitutes for things you don't have. You don't have to get along without things you need. You need food, comfortable shelter, good health, and time to enjoy life. This book does not provide all the answers to all your questions. Rather, it is the beginning of much more to come. "Some of you are interested in how others lived their lives in the past, but most of you - especially those who need something, want something, or are desperately trying to acquire something - are interested in how people from the past acquired those things. Some of the suggestions will seem fantastic or impossible to you. Don't assume that. Some of you will find you can produce, in some way, a portion of what those shamans from the past were able to do. This might be easier for those of you already on your spiritual path. Even if you are not on any particular spiritual path, don't assume you cannot do these things." - Speaks of Many Truths

*Mastery* Robert Greene 2012-11-19 'Machiavelli has a new rival, and Sun-tzu had better watch his back' - New York Times Around the globe, people are facing the same problem - that we are born as individuals but are forced to conform to the rules of society if we want to succeed. To see our uniqueness expressed in our achievements, we must first learn the rules - and then how to change them completely. Charles Darwin began as an underachieving schoolboy, Leonardo da Vinci as an illegitimate outcast. The secret of their eventual greatness lies in a 'rigorous apprenticeship': by paying close and careful attention, they learnt to master the 'hidden codes' which determine ultimate success or failure. Then, they rewrote the rules as a reflection of their own individuality, blasting previous patterns of achievement open from within. Told through Robert Greene's signature blend of historical anecdote and psychological insight and drawing on interviews with world leaders, *Mastery* builds on the strategies outlined in *The 48 Laws of Power* to provide a practical guide to greatness - and how to start living by your own rules. From the internationally bestselling author of *The 48 Laws of Power*, *The Art Of Seduction*, and *The 33 Strategies Of War*.

Cope takes readers on a step-by-step tour of this revered tale and highlights well-known Western lives that embody its central principles—including such luminaries as Jane Goodall, Walt Whitman, Susan B. Anthony, John Keats, and Harriet Tubman, along with stories of ordinary people as well. Resumen de Maestria (Mastery) - de Robert Greene Sapiens Editorial 2018-02-25  
DESCRIPCIÓN DEL LIBRO ORIGINALMaestría, escrito por Robert Greene, revela que cualquier persona puede ser un experto en lo que se proponga si sigue los pasos de los maestros que han marcado la historia de la humanidad. El libro ha alcanzado el primer lugar de la lista de bestsellers del New York Times y provee diversas estrategias para continuar con esos pasos ancestrales. La mayoría de las personas no vive una vida trascendental porque prefieren ceñirse a una rutina ordinaria aceptando sus circunstancias tal y como son. Los grandes maestros de la historia como Einstein, Marie Curie, Mozart, John Coltrane o Goethe, fueron personalidades de grandes logros porque decidieron romper ese esquema. La idea central del libro de Robert Greene es acabar con el mito de los ungidos que nacieron con un destino especial; en realidad, nadie nace siendo un genio, y la persona promedio puede convertirse en un maestro con el fin de adquirir algún día un mejor estatus. En líneas generales, la maestría es alcanzable para todo aquel dispuesto a apasionarse, a comprometerse en un aprendizaje que tomará años, a transformar su conocimiento y a crear una identidad auténtica. Deberá vivir una vida de continuo autodidactismo y comprensión, compartiendo su sabiduría con los demás. -SOBRE SAPIENS EDITORIAL: EL AUTOR DEL RESUMENLos libros son mentores. Pueden guiar lo que hacemos en nuestras vidas y cómo lo hacemos. Muchos de nosotros amamos los libros mientras los leemos y hasta resuenan con nosotros algunas semanas después, pero luego de 2 años no podemos recordar si lo hemos leído o no. Y eso no está bien. Recordamos que en el momento, aquel libro significó mucho para nosotros. ¿Por qué es que tiempo después nos hemos olvidado de todo? Este resumen toma las ideas más importantes del libro original. A muchas personas no les gusta leer, solo quieren saber qué es lo que el libro dice que deben hacer. Si confías en

el autor no necesitas de los argumentos. La gran parte de los libros son argumentos de sus ideas, pero muy a menudo no necesitamos argumentos si confiamos en la fuente. Podemos entender la idea de inmediato. Toda esta información está en libro original. Este resumen hace el esfuerzo de reducir las redundancias y convertirlas en instrucciones directo al grano para las personas que no tienen intención de leer el libro en su totalidad. Esta es la misión de Sapiens Editorial.

**The Third Testament** Christopher Galt 2015-04-28 'Michael Crichton meets The Matrix' Daily Mail Previously published as Biblical. An apocalyptic, mind-melting thriller on an epic scale that will make you question your own reality and even your sanity. What would you do if you found out that your future had already happened? All around the world, people start to see things that aren't there, that cannot be. Visions, ghosts, events from the past playing out in the present. To start with, the visions are unremarkable: things misplaced in time and caught out of the corner of the eye; glimpses of long-dead family or friends. But, as time goes on, the visions become more sustained, more vivid, more widespread. More terrifying. As the visions become truly apocalyptic, some turn to religion, others to science. Only one man, driven by personal as well as professional reasons, is capable of finding the real truth. But the truth that psychiatrist John Macbeth uncovers is much, much bigger than either religion or science. A truth so big it could cost him his sanity. And his life.
