Rise of the Thing Down Below Daniel W. Kelly 2014-10-01 The boys and bears of Comfort Cove are counting the days until the opening of the sexually charged boardwalk attraction SandMen Strip. But before the naked fun in the sun can begin, the mutilated bodies of a few burly dockworkers wash up on the sand. Suspicion falls on the cute young owners of SandMen Strip, but local paranormal investigator Deck Waxer has to look at all the possibilities, including new faces in town. There's the cocky two-and-a-half foot tall artist named Little Larry Long. The city's mayor is hiding some unnaturally large life form in his mansion. And even trusted religious leader Father Merrin has been keeping a troubled young psychic a secret from the public. As the body count rises, the angry and scared dockworkers target Deck's crew of sex-loving friends, unaware of the real terror that has surfaced in Comfort Cove: a grotesque evolutionary mutation from deep down below.

*Ecuadorothy* Dorothy E. Groszhans 2014-10-03 This is a true story of travel with my indelicate progeny--two daughters of vastly different temperaments. And I, a shallow person, bitter and envious of all I see, lacking in courage but with delusions of grandeur, reluctantly agree to go along. Follow the drama of our insignificant sparring, dueling squabbling, and trivial ponderings from northern Ecuador's Otavalo markets, to the coastal city of Puerto López, to the southern Sierra's Cuenca. No huaca (sacred rock) left unturned. (You learn cool new words too.) Ecuadorothy will transport you to another world. Travel with us day and night on adventures, such as: one crabby all night bus ride through Ecuador's hinterlands, riding horses in a coastal tropical forest (okay, we lasted only ten minutes), a whale-less whale tour, not to mention the sudden onset of market madness (there was no vaccination for this particular fever), and a plethora of hideous hikes from hell. You will not be disappointed--like we were. And in the end, through it all, I truly love my experiences in Latin America.

**Wings in the Desert** Amadeo M. Rea 2022-04-26 There is a common but often unspoken arrogance on the part of outside observers that folk science and traditional knowledge—the type developed by Native communities and tribal groups—is inferior to the “formal science” practiced by Westerners. In this lucidly written and humanistic account of the O’odham tribes of Arizona and Northwest Mexico, ethnobiologist Amadeo M. Rea exposes the limitations of this assumption by exploring the rich ornithology that these tribes have generated about the birds that are native to their region. He shows how these peoples’ observational knowledge provides insights into the behaviors, mating habits, migratory patterns, and distribution of local bird species, and he uncovers the various ways that this knowledge is incorporated into the communities’ traditions and esoteric belief systems. Drawing on more than four decades of field and textual research along with hundreds of interviews with tribe members, Rea identifies how birds are incorporated, both symbolically and practically, into Piman legends, songs, art, religion, and ceremonies. Through highly detailed descriptions and accounts loaded with Native voice, this book is the definitive study of folk ornithology. It also provides valuable data for scholars of linguistics and North American Native studies, and it makes a significant contribution to our understanding of how humans make sense of their world. It will be of interest to historians of science, anthropologists, and scholars of indigenous cultures and folk taxonomy.

**Sea Kayaking** John Dowd 2015-04-20 Still regarded as “the bible” for both new and experienced kayakers after more than thirty years in print, *Sea Kayaking*

covers the basics of equipment and technique, including types of paddles and strokes, as well as such essential skills as how to read the weather and the water, how to navigate with and without GPS and how to travel with a group. Drawing on his many years of experience paddling in all climates, John Dowd presents practical advice on dealing with potential hazards (from surf to sea ice to sharks), carrying out rescues and planning for long-distance expeditions. New for this edition are hints about digital technologies for planning and navigating while kayak touring as well as lots of tips for outfitting boats, adapting equipment and finessing fishing technique while kayak angling—whether casting and jigging for fun on a day trip or trolling for dinner on a longer expedition. Also fully updated are the sections on managing risk and the inspiring stories of adventure, including Freya Hoffmeister's record-breaking circumnavigation of Australia and Japanese paddlers' increasingly challenging trips around the islands and beyond. As a sport, sea kayaking continues to evolve. Once the sport of a very few long-distance paddlers embarking on international expeditions, then the recreational pursuit of many weekend tourers, sea kayaking is now popular with many day trippers as well. As more and more paddlers take to the water—for the day, the weekend or many months, this classic guide continues to be required reading for those seeking adventure on the open ocean.

**Our Wild Calling** Richard Louv 2019-11-05 “A book that offers hope.” –The New York Times Book Review “Richard Louv has done it again. A remarkable book that will help everyone break away from their fixed gaze at the screens that dominate our lives and remember instead that we are animals in a world of animals.” –Bill McKibben, author of *Falter* Richard Louv’s landmark book, *Last Child in the Woods*, inspired an international movement to connect children and nature. Now Louv redefines the future of human-animal coexistence. *Our Wild Calling* explores these powerful and mysterious bonds and how they can transform our mental, physical, and spiritual lives, serve as an antidote to the growing epidemic of human loneliness, and help us tap into the empathy required to preserve life on Earth. Louv interviews researchers, theologians, wildlife experts, indigenous healers, psychologists, and others to show how people are communicating with animals in ancient and new ways; how dogs can teach children ethical behavior; how animal-assisted therapy may yet transform the mental health field; and what role the human-animal relationship plays in our spiritual health. He reports on wildlife relocation and on how the growing populations of wild species in urban areas are blurring the lines between domestic and wild animals. *Our Wild Calling* makes the case for protecting, promoting, and creating a sustainable and shared habitat for all creatures—not out of fear, but out of love. Transformative and inspiring, this book points us toward what we all long for in the age of technology: real connection.

Jungle of the Maya Douglas Goodell 2006-11-01 The Selva Maya (Jungle of the Maya) is one of the world's most magical yet least appreciated places—an enormous tropical forest that encompasses much of Belize, Guatemala, and Mexico's Yucatan Peninsula. At 9,000,000 acres, it is the largest contiguous tropical forest north of the Amazon in the Western Hemisphere. Within its borders, the Selva Maya provides habitat for an astonishing diversity of plants and animals—more than 500 species of birds alone. The forest also contains the fascinating ruins of ancient Maya cities, which attract visitors and researchers from all over the globe. *Jungle of the Maya* presents a stunning photographic portrait of this irreplaceable natural treasure. Nature photographers Douglas Goodell and Jerry Barrack capture the living wonders of the jungle—jaguars and other cats; spider and howler monkeys; hummingbirds and butterflies; and snakes, amphibians, and insects—as well as the region's hallmark Maya sites, including Tikal, Chichen Itza, Uxmal, and Tulum. Environmental writer Jim Wright invitingly describes the Selva Maya's natural and human history, helping visitors and residents appreciate the riches to be found in the forest and the need to protect and preserve them for generations

to come. Because human activities are encroaching more and more on the Mayan forest, *Jungle of the Maya* is a beautiful book with a timely message. As renowned naturalist Archie Carr III sums it up in his foreword, "Today, the Selva Maya is at risk again. As modern beings, can we manage the forest better than we believe the ancient Maya did? We should. We have the archaeological record to draw from. We have modern science. And we still have inspiration whispered to us by spirits in the great plazas of Tikal and beyond. Turn the pages, and witness."

*The 4 Hundred and 20 Assassins* Joe DeMarco 2014-02-25 Warning: Philosophical Content - Explicit Ideas - May offend those easily offended. The legend of the Hassan El Sabbah is not as famous as his garden. Sabbah was an entrepreneur of sorts using the assassin as a tool to gain political influence throughout the Middle East. He would use young men by making them smoke hash then allowing them to enter his Garden of Earthly Delights. The young men were told they had entered paradise and would be expelled if they did not carry out Sabbah's wishes, which were usually to kill someone of relative importance. This tale is not only a fictional look at Sabbah, but also a mind-altering look into America's drug culture and the idea of paradise. Told by a stoner, set over a thousand years ago with an Arabian Nights feel to it, the story centers around Emir Abdullah-Harazins (Sabbah) and his infamous garden. This is the story of how Abdullah found the garden and came to be Emir Abdullah-Harazins.
