Republic of Madagascar International Monetary Fund 2009-01-13 The report examines the annual report of Madagascar's Poverty Reduction Strategy Paper. Madagascar's economic situation has been characterized by steady growth estimated at 5.0 percent on average against an average annual demographic growth rate of 2.8 percent. However, the living standard of the population as captured by the indicators related to the big objectives of the Madagascar Action Plan has not kept up with this pace. The organic law on public finances and the new code of public procurements have become more effective.

Around Madagascar On My Kayak Riaan Manser 2010-11-15 In the last five years Riaan Manser has re-written the definition of tenacity and become the epitome of determination. Riaan rose to prominence when he became the first person to cycle around the entire perimeter of Africa. For over two years, he pedalled a mammoth 37,000kms through 34 countries; some of which rank as the most dangerous places on Earth. It was a feat that earned him the title Adventurer of the Year 2006 and made his resulting book, *Around Africa on my Bicycle*, a best-seller. In July 2009 Riaan again set another world first when he became the first person to circumnavigate the world's fourth largest island of Madagascar by kayak; another expedition achieved alone and unaided. This incredible journey, 5000km in eleven months, was considerably more demanding, both physically and mentally. Daily, Riaan had to conquer extreme loneliness while ploughing through treacherous conditions such as cyclones, pounding surf and an unrelenting sun that, combined with up to ten hours in salt water, was literally pickling his body. The perseverance, of course, brought memorable close encounters with Madagascar's marine life - humpback whales breaching metres away from his kayak, giant leatherback turtles gliding alongside him and even having his boat rammed by sharks. Riaan travelled around Madagascar during a period of the country's political turmoil, which gave him unrivalled insight into the exotic island's psyche and even earned him two nights in prison on suspicion of carrying out mercenary activities. *Around Madagascar in my Kayak* is packed with engaging stories and beautiful photographs and is set to become another best-seller.

The Dwarf and Mouse Lemurs of Madagascar Shawn M. Lehman 2016-04-07 The dwarf and mouse lemurs of Madagascar are two very species-rich lemur genera, yet there is a relative paucity of information on this primate family in published literature. In this first ever treatment of the Cheirogaleidae, international experts are brought together to review and integrate our current knowledge of the behaviour, physiology, ecology, genetics and biogeography of these species. A wide range of direct and indirect research methods that are currently used to study these cryptic nocturnal solitary foragers are described. By uniting often disparate research on captive and free-ranging taxa and synthesising recent methodological advances, this book provides new insights that will encourage further studies of this fascinating primate family. This synthesis will provide an incentive for more integrative studies of the Cheirogaleidae in captivity and in the wild, enabling the impacts of deforestation and other factors to be identified and directions for future conservation efforts to be established.

Beyond the Rice Fields Naivo 2017-10-31 The first novel from Madagascar ever to be translated into English, Naivo's magisterial *Beyond the Rice Fields* delves into the upheavals of the nation's precolonial past through the twin narratives of a slave and his master's daughter. Fara and her father's slave, Tsito, have shared a tender intimacy since her father bought the young boy who'd been ripped away from his family after their forest village was destroyed. Now in Sahaso, amongst the cattle and rice fields, everything is new for Tsito, and Fara at last has a companion to play with. But as Tsito looks forward toward the bright promise of freedom and Fara, backward to a twisted, long-denied family history, a rift opens that a rapidly shifting political and social terrain can only widen. As love and innocence fall away, their world becomes defined by what tyranny and superstition both thrive upon: fear. With captivating lyricism and undeniable urgency, Naivo crafts an unsentimental interrogation of the brutal history of nineteenth-century Madagascar as a land newly exposed to the forces of Christianity and modernity, and preparing for a violent reaction against them. *Beyond the Rice Fields* is a tour de force about the global history of human bondage and the competing narratives that keep us from recognizing ourselves and each other, our pasts and our destinies.

Republic of Madagascar International Monetary Fund. Statistics Dept. 2019-04-30 This Technical Assistance report highlights that the mission visited Madagascar to aid in the external sector statistics (ESS), including the balance of payments and international investment position (IIP). The mission focused on assisting improving the coverage of IIP by better using the administrative sources or by identifying new data sources for private sector. A more sustained effort must be applied to the collection system to ensure the timelier submission of data of adequate quality. The compilation of the quarterly ESS, which is one of the main ESS objectives, requires both an increase in the number of compilers and a change of approach in the collection of source data. The quarterly data are compiled on the basis of the ESRI and should be supplemented by the collection of quarterly data using a simple survey of major public and private enterprises. The mission recommended a detailed one-year action plan with a set of priority recommendations carrying particular weight to make headway in improving the ESS.

Undoing Coups Antonia Witt 2020-09-17 Since the beginnings of independence, a number of African nations have been plagued by repeated coup d'états. Within the African Union (AU), there has been a concerted effort to break this cycle through the official adoption of an 'anti-coup norm', by which the AU is mandated to suspend a member state and restore constitutional order following a coup. Supporters of this stance see it as strengthening democracy in Africa, while critics argue that it has served to prop up existing regimes. But there has been little analysis of what the AU's attempts to 'restore constitutional order' have meant for individual African states. In this book, Antonia Witt looks at the legacy of the AU's intervention in Madagascar following the 2009 'Malagasy crisis', one of the increasingly relevant yet under-researched cases of non-Western intervention in Africa. The book looks at the ways in which international intervention reconfigured the political order in Madagascar, how it facilitated the power struggle within the Madagascan elite and prevented more profound political change. It also considers what the example set by the Madagascan intervention means for the wider international order in Africa and the powers attributed to African international actors such as the AU.

Nocturnal Malagasy primates P. Charles-Dominique 2012-12-02 Nocturnal Malagasy Primates: Ecology, Physiology, and Behavior is composed of different studies investigating the "strategies adopted by lesser known nocturnal species of Marosalaza forest to cope with the contrasted seasonal conditions. In general, it defines the relationship between ecology and physiology of these species. The book is divided into two parts. The first part is comprised of five chapters detailing field studies conducted during the seven successive and overlapping field trips, from November 1973 to July 1974. This part is focused on dietary adaptations, growth and reproductive cycles, activity rhythms, social structures, and interspecific competition in five sympatric prosimian species. The second part is also comprised of five chapters, but describes the laboratory studies conducted at Brunoy in simulated climatic conditions. It centers on the relationships and comparisons between species

Perspectives on French Colonial Madagascar Eric T. Jennings 2017-09-08 This book is a vivid history of Madagascar from the pre-colonial era to decolonization, examining a set of French colonial projects and perceptions that revolve around issues of power, vulnerability, health, conflict, control and identity. It focuses on three lines of inquiry: the relationship between domination and health fears, the island's role during the two world wars, and the mystery of Malagasy origins. The Madagascar that emerges is plural and fractured. It is the site of colonial dystopias, grand schemes gone awry, and diverse indigenous reactions. Bringing together deep archival research and recent scholarship, Jennings sheds light on the colonial project in Madagascar, and more broadly, on the ideas which underpin colonialism.

The Call of the Indri, Volume 2: Return to Fascinating Madagascar Kaatje Bout 2021-08-30 In her autobiography, the famous primatologist Patricia Chapple Wright wrote, "Once you drink the water in Madagascar, you will return." The same is true for Fred Triep and Kaatje Bout. During their first visit to Madagascar, they were touched by the people, landscapes and nature and decided to return to this fascinating island. Fred Triep travelled the island for seven weeks in 2004 and returned in 2012, 2015 and 2017. Kaatje Bout did a project in Madagascar as a sixteen-year-old in 2016. She came back in 2019 and travelled the island for a month and then worked on a project for a month with insects. You can read about their experiences in this book. Fred Triep (1949) is a biologist. He taught as a biology and ICT teacher in secondary schools. While studying biology, he was already dreaming about travelling to Madagascar. But it was not until 2004 that he made his first trip to this island. His passions are travelling, hiking, plants, animals and photography. He previously wrote books about Madagascar: the travel story "The call of the indri, part 1" (2013) and the Dutch novel "Het verdriet van Koesoesoe" (The sorrow of Koesoesoe) in 2015, which is also set in Madagascar. Kaatje Bout's (2000) fascination with Madagascar began when she couldn't get enough of the cartoon 'Madagascar' as a child. Although that may have been because of the dancing lemurs and talking penguins, she has always remained mesmerized by the country. In 2016, she spent a month volunteering in the rainforest in the East, which only made her more curious about the rest of the incredibly diverse Madagascar. So she went back for two months in 2019, first travelling around and then spending a month interning at the "Madagascar Biodiversity Center". She is now studying "Life Science and Technology" in Delft and hopes to return to the country one day.

Thank You, Madagascar Alison Jolly 2016-03-15 'An enchanting book...poignant and passionate.' Geographical 'A captivating and absorbing account.' Sir David Attenborough Madagascar is one of the world's natural jewels, with over ninety per cent of its wildlife found nowhere else on Earth. Few people knew it better than the pioneering primatologist and conservationist, Alison Jolly. Thank You, Madagascar is her eyewitness account of the extraordinary biodiversity of the island, and the environment of its people. At the book's heart is a conflict between three different views of nature. Is the extraordinary forest treasure-house of Madagascar a heritage for the entire world? Is it a legacy of the forest dwellers' ancestors, bequeathed to serve the needs of their living descendants? Or is it an economic resource to be pillaged for short-term gain and to be preserved only to deliver benefits for those with political power? Exploring and questioning these different views, this is a beautifully written diary and a tribute to Madagascar.

Madagascar Revisited, Describing the Events of a New Reign and the Revolution which Followed William Ellis 1867

Red Island House Andrea Lee 2021-03-23 From National Book Award-nominated writer Andrea Lee comes *Red Island House*, a travel epic that opens a window on the mysterious African island of Madagascar, and on the dangers of life and love in paradise, as seen through the eyes of a Black American heroine. “People do mysterious things when they think they have found paradise,” reflects Shay, the heroine of *Red Island House*. When Shay, an intrepid Black American professor, marries Senna, a brash Italian businessman, she doesn’t imagine that her life’s greatest adventure will carry her far beyond their home in Milan: to an idyllic stretch of beach in Madagascar where Senna builds a flamboyant vacation villa. Before she knows it, she becomes the reluctant mistress of a sprawling household, caught between her privileged American upbringing and her connection to the continent of her ancestors. So begins Shay’s journey into the heart of a remote African country. Can she keep her identity and her marriage intact amid the wild beauty and the lingering colonial sins of this mysterious world that both captivates and destroys foreigners? A mesmerizing, powerful tale of travel and self-discovery that evokes Isabel Allende’s *House of the Spirits* and Chimamanda Ngozi Adichie’s *Americanah*, *Red Island House* showcases an extraordinary literary voice and gorgeously depicts a lush and unknown world.
