Books a la Carte also offer a great value--this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. xxxxxxxxxxxxxxxx For courses in linear algebra. This package includes MyMathLab(R). With traditional linear algebra texts, the course is relatively easy for students during the early stages as material is presented in a familiar, concrete setting. However, when abstract concepts are introduced, students often hit a wall. Instructors seem to agree that certain concepts (such as linear independence, spanning, subspace, vector space, and linear transformations) are not easily understood and require time to assimilate. These concepts are fundamental to the study of linear algebra, so students' understanding of them is vital to mastering the subject. This text makes these concepts more accessible by introducing them early in a familiar, concrete "Rn" setting, developing them gradually, and returning to them throughout the text so that when they are discussed in the abstract, students are readily able to understand. Personalize learning with MyMathLab MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. MyMathLab includes assignable algorithmic exercises, the complete eBook, interactive figures, tools to personalize learning, and more.

Multisensory Imagery Simon Lacey 2013-01-19 Is a pear sweeter than a peach? Which of Mona Lisa's hands is crossed over the other? What would the Moonlight Sonata sound like played by a brass band? Although these are questions that appeal to mental imagery in a variety of sensory modalities, mental imagery research has been dominated by visual imagery. With the emergence of a well-established multisensory research community, however, it is time to look at mental imagery in a wider sensory context. Part I of this book provides overviews of unisensory imagery in each sensory modality, including motor imagery, together with discussions of multisensory and cross-modal interactions, synesthesia, imagery in the blind and following brain damage, and methodological considerations. Part

It reviews the application of mental imagery research in a range of settings including individual differences, skilled performance such as sports and surgical training, psychopathology and therapy, through to stroke rehabilitation. This combination of comprehensive coverage of the senses with reviews from both theoretical and applied perspectives not only complements the growing multisensory literature but also responds to recent calls for translational research in the multisensory field.

Brutified Robert Benefiel 2020-11-27 Brutified is a collection of poetry written by the author Robert Benefiel. The poems contained within it are from a larger cache of poems written in 2019. The pieces themselves range from narrative to abstract, bibliographical to fictionalized, allowing for a fuller range of expression and voice. What each piece carries is the idea of surviving the brutality of the world, others, and even one's self, in hopes of gaining insight and retaining one's compassion. Whether the piece is addressing the idea of finding one's own art at a junk store, or stumbling across a love note written before, but after, a lover has left them, or even watching a young midget be chased through the mall, the author never ceases to try and present the emotion and meaning at the core of each piece in a blatant yet subtle way.

Several People Are Typing Calvin Kasulke 2021-08-31 A Good Morning America Book Club Pick! • A work-from-home comedy where WFH meets WTF. "An absurd, hilarious romp through the haunted house of late-stage capitalism."—Carmen Maria Machado, author of *In the Dream House* Told entirely through clever and captivating Slack messages, this irresistible, relatable satire of both virtual work and contemporary life is *The Office* for a new world. Gerald, a mid-level employee of a New York-based public relations firm has been uploaded into the company's internal Slack channels—at least his consciousness has. His colleagues assume it's an elaborate gag to exploit the new work-from-home policy, but now that Gerald's productivity is through the roof, his bosses are only too happy to let him work from . . . wherever he says he is. Faced with the looming abyss of a disembodied life online, Gerald enlists his co-worker Pradeep to help him escape, and to find out what happened to his body. But the longer Gerald stays in the void, the more alluring and absurd his reality becomes. Meanwhile, Gerald's colleagues have PR catastrophes of their own to handle in the real world. Their biggest client, a high-end dog food company, is in the midst of recalling a bad batch of food that's allegedly poisoning Pomeranians nationwide. And their CEO suspects someone is sabotaging his office furniture. And if Gerald gets to work from home all the time, why can't everyone? Is true love possible between two people, when one is just a line of text in an app? And what in the hell does the :dusty-stick: emoji mean? In a time when office paranoia and politics have followed us home, Calvin Kasulke is here to capture the surprising, absurd, and fully-relatable factors attacking our collective sanity...and give us hope that we can still find a human connection.

Jerusalem Boaz Yakin 2013-04-16 *Jerusalem* is a sweeping, epic graphic novel that follows a single family—three generations and fifteen very different people—as they are swept up in chaos, war, and nation-making from 1940-1948. Faith, family, and politics are the heady mix that fuel this ambitious, cinematic graphic novel. With *Jerusalem*, author-filmmaker Boaz Yakin turns his finely-honed storytelling skills to a topic near to his heart: Yakin's family lived in Palestine during this period and was caught up in the turmoil of war just as his characters are. This is a personal work, but it is not a book with a political ax to grind. Rather, this comic seeks to tell the stories of a huge cast of memorable characters as they wrestle with a time when nothing was clear and no path was smooth.

Buyology Martin Lindstrom 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

Things That Matter David Galler 2016-07-27 'David Galler also shows rare courage in weaving his own, personal stories into his teaching about the technologies of care. This book will equally deepen the awareness of clinicians and enlighten the lay reader. It is a gift to both.' Donald M. Berwick, MD, MPP In this highly articulate, down-to-earth, generous book, Dr David Galler tells stories of life and death from his position as Intensive Care specialist at Middlemore Hospital. Written lyrically and warmly, these stories are based on real life events describing the everyday dilemmas and challenges that doctors and patients commonly face. It aims to explain and demystify much of the work doctors do, cast light on the workings of the medical establishment and how medicine operates, in the hope that it will encourage patients to seek to be better informed and play a greater role in the decisions that will affect them and their loved ones. It speaks to the resilience of individuals and families and their extraordinary generosity and dignity under the most extreme pressure. This book is about realistic optimism and is a celebration of life. It is also a very personal story about David Galler's life, his family and about his own slow coming of age as a doctor, from the sadness and helplessness he felt about his father's death to at last feeling that he was of some use to his most important patient, his mother.
