of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Just Needed to Talk Carla Harrison Hester 2021-01-15 From the heart comes my innermost thoughts. Friends and family have encouraged me to share them. By reading my poems, I hope one can find peace and comfort with these words. Some will console the grieving heart; others will bring happy remembrances of birthdays and Mother's Day. Some poems are dedicated to the military and those who sacrificed their lives for our freedom. And for the animal lovers, as myself, a devotion to our furry friends. Follow me through my comical marriage up to the ultimate phase of widowhood. My intention is to touch on every aspect of life. I hope the reader will find comfort in some of my poems because they were written with love to all.
