Intermediate Accounting Donald E. Kieso 2022-04-26 *Intermediate Accounting* by Donald Kieso, Jerry Weygandt, and Terry Warfield has always been, and continues to be, the gold standard. Through significant updates, the 18th Edition presents a refreshed, accessible, and modern approach with new perspectives that help connect students to the what, the why, and the how of accounting information. In the intermediate accounting course, it can be difficult for students to understand the technical details and retain and recall core course topics. To move beyond basic understanding, students work through new integrated practice right at the point of learning and high-quality assessment at varying levels, helping them to learn concepts more efficiently and create connections between topics and real-world application. Throughout the course, students also work through various hands-on activities including Critical Thinking Cases, Excel Templates, and Analytics in Action problems, all within the chapter context. These applications help students develop an accounting decision-making mindset and improve the professional judgement and communication skills needed to be successful in the profession. With *Intermediate Accounting, 18th Edition*, you will be able to spark efficient and effective learning, help create the bridge to student success, and inspire and prepare students to be the accounting professionals of tomorrow.

Care Without Coverage Institute of Medicine 2002-06-20 Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital-based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million-one in seven-working-age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

Welfare Economics and Antitrust Policy - Vol. I Richard S. Markovits 2021-10-18 This book is Volume I of a two-volume set on antitrust policy, analyzing the economic efficiency and moral desirability of various tests for antitrust legality, including those promulgated by US and EU antitrust law. The overall study consists of three parts. Part I (Chapters 1-8) introduces readers to the economic, moral, and legal concepts that play important roles in antitrust-policy analysis. Part II (Chapters 9-16) analyzes the impacts of eight types of conduct covered by antitrust policy and various possible government responses to such conduct in terms of economic efficiency, the securing of liberal moral rights, and the instantiation of various utilitarian, non-utilitarian-egalitarian, and mixed conceptions of the moral good. Part III (Chapters 17-18) provides detailed information on US antitrust law and EU competition law, and compares the extent to which-when correctly interpreted and applied-these two bodies of law could ensure economic efficiency, protect liberal moral rights, and instantiate various morally defensible conceptions of the moral good. This

first volume contains Part I and the first two chapters of Part II of the overall study—the two chapters that focus on oligopolistic and predatory conduct of all kinds, respectively. The book will appeal to undergraduate and graduate students of economics and law who are interested in welfare economics, antitrust legality and the General Theory of the Second Best.
