**The Visual MBA** Jason Barron 2019-05-02 Learn an entire MBA course without spending thousands and waving goodbye to two years of your life. If you want to succeed in business then an MBA programme is the best way to build expertise, knowledge and experience. But an MBA programme at any top school is an enormous investment in time, effort and money. In *The Visual MBA*, Jason Barron offers a radical solution, explaining all key business school concepts through illustrations. When Barron started his MBA course, he decided to draw all his notes so that other people could benefit from them. And it's a good thing he did, because research shows that more than 65% of us are visual learners and that our brains process illustrations 60,000 times faster than text. From Marketing, Ethics and Accounting to Organisational Behaviour, Finance, Operations and Strategy, *The Visual MBA* distils the most important principles of an MBA into an accessible, informative and easily-digestible guide. Jason Barron is a product manager and illustrator who helps people realise their creative ideas through visual learning. He spent 516 hours in class and countless hours studying at home completing his MBA. Along the way, rather than taking notes that he would never read again, Jason created sketchnotes for each class and has turned them into an interesting and engaging resource so that you don't have to sit through another class again!

*Key Account Management* Diana Woodburn 2012-11-13 "This book is crammed with distilled, practical wisdom for key account managers and their directors. Organizations claiming to practise key account management should equip everyone involved with a copy, so they really understand what they are supposed to be doing. Anything less is just old-fashioned selling." Developing successful business-to-business relationships with more customers in highly competitive markets requires processes and skills that go beyond traditional selling activity. The very best state-of-the-art strategies are set out clearly in this book by intentionally known authors who have worked at the highest levels with more key and strategic account managers worldwide than probably any other

leading advisors. Based on the hugely influential KEY CUSTOMERS it looks at: Why has account management become so critical to commercial success? What are the key challenges and how do successful companies respond? What part does key account management play in strategic planning? How do companies build profitable relationships with their customers? How does key account management actually work? What does a successful key account manager look like and what skills does he/she need? How should key account managers be evaluated and rewarded? How do companies achieve key account management? By addressing these key questions Woodburn and McDonald provide tools and processes for success honed by tough consultancy projects with the boards of some of the world's leading companies. The book stresses the elements that really matter - from developing a customer categorization system that really works and analyzing the needs of key accounts; to understanding the new skills required by key account managers and ensuring that key account plans are implemented. The 'real world' approach is backed by tested principles and the latest research from the renowned Cranfield School of Management. Key Account Management comes from authors who have taught leading companies how to approach their most powerful and demanding customers and still make money. It is essential reading for all senior management with strategic responsibility, for key or strategic account directors, and for marketing and sales executives. The clear and authoritative approach also makes it an outstanding text for the serious MBA and executive student as well as business-to-business company directors and key account managers.

**Gower Handbook of Supply Chain Management** John Gattorna 2003 Provides up-to-date information for manufacturers on the logistics of obtaining supplies and distributing materials to business customers, as practiced by companies in Asia, Europe, and North America.

Behavioral Finance: The Second Generation Meir Statman 2019-12-02 Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

The Curriculum Stanley Bing 2014-04-15 From the mind of the ultimate corporate gunslinger comes this no-nonsense, real-world curriculum, designed to

augment—if not replace—the more traditional path to achieving mastery of the business universe. Conquer this sharp, practical and often amusing course of study and save \$250,000 of wasted business school tuition. Unlike those august, Ivy-encrusted factories that churn out masterful business administrators, The Curriculum will teach you the art of business, employing a smart, tactical battle plan that will prove infinitely more awesome as you make your way in the world. We begin, in the Core Curriculum, with the acquisition and maintenance of Power. Included are such essentials as Not Appearing Stupid (an early career requirement), Fabricating A Sustainable Business Personality, and the arts of Management and Selling. The Advanced Curriculum hones the skills that are required to seize Success by the throat and shake it until valuable prizes fall out of its pockets, including fundamentals on Strategic Thinking, Self-Branding, mastering Electronic Communications, and dealing with Crazy People. Tutorials and Electives, which students may pursue as their interest or discretion advises, include lessons on Giving an Effective Presentation, Business Drinking, and the Care and Feeding of Ultra-Senior Officers. Lavishly enhanced with numerous charts, graphs, and other illuminating business illustrations, and backed up by years of study from Mr. Bing's proprietary research organization (The National Association of Serious Studies), The Curriculum will occupy a place of pride on any bookshelf dedicated to the study of business, how it works, and how it can be used against those who don't know how it works.

*Zero to One* Peter Thiel 2014-09-16 #1 NEW YORK TIMES BESTSELLER • “This book delivers completely new and refreshing ideas on how to create value in the world.”—Mark Zuckerberg, CEO of Meta “Peter Thiel has built multiple breakthrough companies, and *Zero to One* shows how.”—Elon Musk, CEO of SpaceX and Tesla The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In *Zero to One*, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we’re too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won’t make a search engine. Tomorrow’s champions will not win by competing ruthlessly in today’s marketplace. They will escape competition altogether, because their businesses will be unique. *Zero to One* presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

Post Corona Scott Galloway 2020-11-24 New York Times bestseller! "Few are better positioned to illuminate the vagaries of this transformation than Galloway, a tech entrepreneur, author and professor at New York University's Stern School. In brisk prose and catchy illustrations, he vividly demonstrates how the largest technology companies turned the crisis of the pandemic into the market-share-grabbing opportunity of a lifetime." --The New York Times "As good an analysis as you could wish to read." --The Financial Times From bestselling author and NYU Business School professor Scott Galloway comes a keenly insightful, urgent analysis of who stands to win and who's at risk to lose in a post-pandemic world The COVID-19 outbreak has turned bedrooms into offices, pitted young against old, and widened the gaps between rich and poor, red and blue, the mask wearers and the mask haters. Some businesses--like home exercise company Peloton, video conference software maker Zoom, and Amazon--woke up to find themselves crushed under an avalanche of consumer demand. Others--like the restaurant, travel, hospitality, and live entertainment industries--scrambled to escape obliteration. But as New York Times bestselling author Scott Galloway argues, the pandemic has not been a change agent so much as an accelerant of trends already well underway. In *Post Corona*, he outlines the contours of the crisis and the opportunities that lie ahead. Some businesses, like the powerful tech monopolies, will thrive as a result of the disruption. Other industries, like higher education, will struggle to maintain a value proposition that no longer makes sense when we can't stand shoulder to shoulder. And the pandemic has accelerated deeper trends in government and society, exposing a widening gap between our vision of America as a land of opportunity, and the troubling realities of our declining wellbeing. Combining his signature humor and brash style with sharp business insights and the occasional dose of righteous anger, Galloway offers both warning and hope in equal measure. As he writes, "Our commonwealth didn't just happen, it was shaped. We chose this path--no trend is permanent and can't be made worse or corrected."

**Global Marketing Management** Kiefer Lee 2005 Providing coverage of the issues which define marketing in the world today, this title covers long-standing topics, integrates and draws on new and existing theoretical insights from other management disciplines including services marketing, knowledge management, relationship marketing, e-commerce and e-business and corporate social responsibility.

Pharmacy on a Bicycle Eric Bing 2013-05-06 Every four minutes, over 50 children under the age of five die. In the same four minutes, 2 mothers lose their lives

in childbirth. Every year, malaria kills nearly 1.2 million people, despite the fact that it can be prevented with a mosquito net and treated for less than \$1.50. Sadly, this list goes on and on. Millions are dying from diseases that we can easily and inexpensively prevent, diagnose, and treat. Why? Because even though we know exactly what people need, we just can't get it to them. They are dying not because we can't solve a medical problem but because we can't solve a logistics problem. In this profoundly important book, Eric G. Bing and Marc J. Epstein lay out a solution: a new kind of bottom-up health care that is delivered at the source. We need microclinics, micropharmacies, and microentrepreneurs located in the remote, hard-to-reach communities they serve. By building a new model that "scales down" to train and incentivize all kinds of health-care providers in their own villages and towns, we can create an army of on-site professionals who can prevent tragedy at a fraction of the cost of top-down bureaucratic programs. Bing and Epstein have seen the model work, and they provide example after example of the extraordinary results it has achieved in Africa, Asia, and Latin America. This is a book about taking health care the last mile—sometimes literally—to prevent widespread, unnecessary, and easily avoided death and suffering. Pharmacy on a Bicycle shows how the same forces of innovation and entrepreneurship that work in first-world business cultures can be unleashed to save the lives of millions.
