The Atheist's Bible: Diderot's 'Éléments de physiologie' Caroline Warman 2020-11-16 'Love is harder to explain than hunger, for a piece of fruit does not feel the desire to be eaten': Denis Diderot's *Éléments de physiologie* presents a world in flux, turning on the relationship between man, matter and mind. In this late work, Diderot delves playfully into the relationship between bodily sensation, emotion and perception, and asks his readers what it means to be human in the absence of a soul. *The Atheist's Bible* challenges prevailing scholarly views on Diderot's *Éléments*, asserting its contemporary philosophical importance, and prompting its readers to inspect more closely this little-known and little-studied work. In this timely volume, Warman establishes the place of Diderot's *Éléments* in the trajectory of materialist theories of nature and the mind stretching back to Epicurus and Lucretius, and explores the fascinating reasons behind scholarly neglect of this seminal work. In turn, Warman outlines the hitherto unacknowledged dissemination and reception of Diderot's *Éléments*, demonstrating how Diderot's *Éléments* was circulated in manuscript-form as early as the 1790s, thus showing how the text came to influence the next generations of materialist thinkers. This book is accompanied by a digital edition of Jacques-André Naigeon's *Mémoires historiques et philosophiques sur la vie et les ouvrages de Denis Diderot* (1823), a work which, Warman argues, represents the first publication of Diderot's *Éléments*, long before its official publication date of 1875. *The Atheist's Bible* constitutes a major contribution to the field of Diderot studies, and will be of further interest to scholars and students of materialist natural philosophy in the Age of Enlightenment and beyond.

A Horse to Love Nancy Springer 2014-12-30 Caring for a horse isn't always a picnic Erin is thrilled when her parents agree to buy her a horse. And having a horse means lots of extra responsibility—feeding her, grooming her, training her. Luckily, Erin's aunt Lexie knows a thing or two about horses and is willing to show her the ropes. **The Body of the Artisan** Pamela H. Smith 2018-01-16 Since the time of Aristotle, the making of knowledge and the making of objects have generally been considered separate enterprises. Yet during the late sixteenth and early seventeenth centuries, the two became linked through a "new" philosophy known as science. In *The Body of the Artisan*, Pamela H. Smith demonstrates how much early modern science owed to an unlikely source-artists and artisans. From goldsmiths to locksmiths and from carpenters to painters, artists and artisans were much sought after by the new scientists for their intimate, hands-on knowledge of natural materials and the ability to manipulate them. Drawing on a fascinating array of new evidence from northern Europe including artisans' objects and their writings, Smith shows how artisans saw all knowledge as rooted in matter and nature. With nearly two hundred images, *The Body of the Artisan* provides astonishingly vivid examples of this Renaissance synergy among art, craft, and science, and recovers a forgotten episode of the Scientific Revolution-an episode that forever altered the way we see the natural world.

**Armies and Ecosystems in Premodern Europe** Sander Govaerts 2021-04-30 Using the ecosystem concept as his starting point, the author examines the complex relationship between premodern armed forces and their environment at three levels: landscapes, living beings, and diseases. The study focuses on Europe's Meuse Region, well-known among historians of war as a battleground between France and Germany. By analyzing soldiers' long-term interactions with nature, this book engages with current debates about the ecological impact of the military, and provides new impetus for contemporary armed forces to make greater effort to reduce their environmental footprint.

**Obomsawin of Sioux Junction** Daniel Poliquin 2010-09-01 One fine spring morning, a float plane lands on a lake near the northern Ontario town of Sioux Junction, and three men get out: a judge, a Crown prosecutor and a defence attorney. The trial of Thomas Obomsawin, a native painter who has been accused of setting fire to his mother's house, is scheduled to begin. It soon becomes clear that it is not only the painter who is on trial but everyone in Sioux Junction - from Jo and Cécil Constant, who own the town's only hotel, to the Sauvé brothers, whose decision to close down the sawmill has spelled the death of Sioux Junction, right up to the judge and the lawyers themselves. But at the heart of this novel is the tumultuous life of Thomas Obomsawin: his life and his art, his wives and his weaknesses, his talent and his tragedy. Filled with humour and compassion, biting satire and flashing insight, *Obomsawin of Sioux Junction* is the story of a town—and a country—divided and united by language and history.

**The Diary of Ma Yan** Ma Yan 2009-09-08 Wednesday, November 7 My father gave me and my brother a little money. My stomach is all twisted up with hunger, but I don't want to spend the money on anything as frivolous as food. Because it's money my parents earn with their sweat and blood. I have to study well so that I won't ever again be tortured by hunger. . . . In a drought-stricken corner of rural China, an education can be the difference between a life of crushing poverty and the chance for a better future. But money is scarce, and the low wages paid for backbreaking work aren't always enough to pay school fees. Ma Yan's heart-wrenching, honest diary chronicles her struggle to escape hardship and bring prosperity to her family through her persistent, sometimes desperate, attempts to continue her schooling. First published in France in 2002, the diary of ma yan created an outpouring of support for this courageous teenager and others like her -- support that led to the creation of an international organization dedicated to helping these children . . . all because of one ordinary girl's extraordinary diary.
