The Second Multiplication Tables Colouring Book Hilary McElderry 1999-02 Following the pattern of her previous book, this second collection by Hilary McElderry offers new pictures to colour and further opportunity and encouragement for children to learn and practise their multiplication tables. It is intended to act as an encouragement for children to learn their tables. On every page there are diagrams made up of small numbered areas. If that number will divide by the number being studied, then the area has to be coloured. When all the target areas of a particular puzzle are coloured, then the hidden picture is revealed. There are also other charts and hundred squares to colour and the book is then rounded off with a target test to confirm the progress being made.

Fun-Schooling Math Mysteries - Add, Subtract, Multiply, Divide Sarah Hobbs 2016-10-03 Do you remember playing the game Mad-Libs as a child? You would add your own words to create a funny story. Become a master builder of your own Minecraft smarts with The Know-It-All Trivia Book for Minecrafters! Inside you will find awesome trivia such as: Herobrine isn't a real character programmed into the game. Urban legends insist that he's a dead miner, or that Notch's deceased brother haunts the game. It's just a glitch that makes Steve sometimes appear to have spooky white eyes. They're probably just bleary from playing too much Minecraft. The name of the main miner character in the game is Steve, right? Well, sort of. He didn't ever have one until someone asked Notch in an interview if the character had a name. Notch's response: "Steve?" The name stuck. We still don't know what his last name is, though. This book is complete with silly illustrations to make becoming a master of Minecraft facts even more fun. Whether you're at home or school, you can have all your friends and family in awe of your Minecraft knowledge!
