Handbook of Indian Psychology K. Ramakrishna Rao 2008 Indian psychology is a distinct psychological tradition rooted in the native Indian ethos. It manifests in the multitude of practices prevailing in the Indian subcontinent for centuries. Unlike the mainstream psychology, Indian psychology is not overwhelmingly materialist-reductionist in character. It goes beyond the conventional third-person forms of observation to include the study of first-person phenomena such as subjective experience in its various manifestations and

associated cognitive phenomena. It does not exclude the investigation of extraordinary states of consciousness and exceptional human abilities. The quintessence of Indian nature is its synthetic stance that results in a magical bridging of dichotomies such as natural and supernatural, secular and sacred, and transactional and transcendental. The result is a psychology that is practical, positive, holistic and inclusive. The Handbook of Indian Psychology is an attempt to explore the concepts, methods and models of psychology systematically from the above perspective. The Handbook is the result of the collective efforts of more than thirty leading international scholars with interdisciplinary backgrounds. In thirty-one chapters, the authors depict the nuances of classical Indian thought, discuss their relevance to contemporary concerns, and draw out the implications and applications for teaching, research and practice of psychology.

The Oxford Handbook of Indian Foreign Policy David Malone 2015 Following the end of the Cold War, the economic reforms in the early 1990s, and ensuing impressive growth rates, India has emerged as a leading voice in global affairs, particularly on international economic issues. Its domestic market is fast-growing and India is becoming increasingly important to global geo-strategic calculations, at a time when it has been outperforming many other growing economies, and is the only Asian country with the heft to counterbalance China. Indeed, so much is India defined internationally by its economic performance (and challenges) that other dimensions of its internal situation, notably relevant to security, and of its foreign policy have been relatively neglected in the existing literature. This handbook presents an innovative, high profile volume, providing an authoritative and accessible examination and critique of Indian foreign policy. The handbook brings together essays from a global team of leading experts in the field to provide a comprehensive study of the various dimensions of Indian foreign policy.

Budhini Sarah Joseph 2021-08 On 6 December 1959, Prime Minister Jawaharlal Nehru went to Dhanbad district in Jharkhand to inaugurate the Panchet Dam across the Damodar river. A fifteen-year-old girl, Budhini, chosen by the Damodar Valley Corporation welcomed him with a garland and placed a tikka on his forehead. When these ceremonial gestures were interpreted as an act of matrimony, the fifteen-year-old was ostracized by her village and let go from her job as a construction worker, citing violation of Santal traditions. Budhini was outlawed for 'marrying outside her community'. Budhini Mejhan's is the tale of an uprooted life, told here through the contemporary lens of Rupri Murmu, a young journalist distantly related to her and determined to excavate her story. In this reimagined history, Sarah Joseph evokes Budhini with vigour, authority and panache, conjuring up a robust and endearing feminine character and reminding us of the lives and stories that should never be forgotten. Translated by her daughter, Sangeetha Sreenivasan, a fiercely individualistic novelist herself, Sarah Joseph's Budhini powerfully invokes the wider bio-politics of our relentless modernization and the dangers of being indifferent to ecological realities.

Indulekha O. Chandumenon 2005 Perhaps the only novel to have been reprinted nearly every year for over a hundred years, *Indulekha* (1889) is widely held to be the first Malayalam novel. Often called an 'accidental' and 'flawed' work, at its core lies a love story. The setting of the novel is the Nair community of Kerala, which had for centuries practised polyandrous matriliney, a most unusual form of inheritance through the woman whom both property and authority flavoured. It gives us glimpses of prevalent social practices much debated amongst a people already under colonial pressure to change their ways of life. Written by a Nair, *Indulekha* is not a grandiose outpouring but the author's effort to achieve certain social goals: firstly, to create a novel much like those of the English authors he had read, and secondly, to illustrate Nair society at that time, both of which met with success. The novel influenced the deliberations of the Malabar Marriage Commission which it predated, and of which Chandumenon was a member. This novel will appeal to general readers interested in Indian writings in translation. Students of literature, history and culture, political and legal theory, and gender studies, will also find it useful.
