*Discovering Computers 2014* Misty E. Vermaat 2013-07-05 Based on extensive customer feedback, DISCOVERING COMPUTERS ©2014 has been completely reexamined and revised to reflect the evolving needs of the concepts portion of the Introductory Computing course. This exciting new edition maintains many longstanding hallmarks, but is now highly focused on relevancy to provide students only with what they really need to know to be successful digital citizens in college and beyond. To better reflect the importance of certain topics in today's digital world, coverage of enterprise computing, ethics, Internet research skills, mobile computing, operating systems (other than Windows), browsers, security, and Web 2.0 has been expanded and integrated. New critical thinking and problem solving exercises are included in every feature throughout the text, engaging students in regular practice of higher-order thinking skills. In addition, students have more opportunity for hands-on practice with the completely revised end-of-chapter activities. With these enhancements and more, the new DISCOVERING COMPUTERS is an even more engaging teaching and learning tool for your classroom. **Dialogue With God** Dr. Mark Virkler 2001-04-01 Find out how prayerour link to Godis the most powerful and vital activity of our life. This book will lead you into a life-changing dimension of two-way communication with our loving GOD. Dialogue With God has dramatically changed my prayer life. I have found I can dialogue with Christ on a daily basis. I believe this inspired approach to be absolutely essential to the growth of every serious Christian." (Dr. Richard Watson, Dean of the School of Education, Oral Roberts University) Mark Virkler grew up conservative Baptist (Evangelical Baptist), and Patti grew up conservative Evangelical United Brethren. They met while at Roberts Wesleyan College in North Chili, N.Y., and married during their third year. They graduated in 1974, Patti graduating magna cum laude. Since then, Mark has received a Master of Theology from Miami Christian University and a Ph.D. from Carolina Christian University. He has also been included in "Whos Who in the World" each year since 2000, and "Who's Who in American Education" in 2006. Patti has received a Master of Ministry and Doctorate of Ministry from Vision International University. Mark and Judi have been active in ministry together since meeting in 1970. They founded a church, Pioneer Christian Fellowship, and worked on several church staffs over the years. They have helped develop three

networks of church-centered Bible schools, and currently head up Communion With God Ministries. WATCH AUTHOR VIDEO HERE: Video Link:

*Professional Communication* Winnie Cheng 2009-04-01 "Professional Communication" presents ten studies of communication practices in a variety of professional contexts. By drawing on diverse methodologies from fields such as conversation analysis, intercultural communication, and organizational studies, the essays here examine how language is constructed, managed, and consumed in various professional situations, ranging from academic settings to business negotiations. One important theme of the book is its emphasis on the collaboration between researchers and professionals. The contributors strongly believe that such collaborative partnership will provide direct implications for improving workplace communication and enhance better understanding of the construction of professional identity and organizational behaviour. This book will appeal to not only scholars and researchers in discourse analysis, intercultural communication and professional studies, but also practitioners in the related fields and disciplines.

*Five Short Plays* Martyn Ford 2003-01-01 Reading level: 1 [green].

**O Josephine** Jason 2019-06-05 Jason has caught the hiking bug and decides to walk the Wicklow Way, where he encounters more sheep than he had bargained for. Leonard Cohen's storied life has been well archived, but never with so many Jason-esque liberties taken. (Did you know he beat Fidel Castro in chess? Learned the Heimlich from Frederico Garcia Lorca?) Two detectives are on a mysterious stakeout, but as secrets and motives are revealed their snooping becomes fatal. And, finally, the remarkable rollercoaster love story of Napoleon and Josephine Baker.

Linear Circuit Analysis Raymond A. DeCarlo 1995 The combined three volumes of these texts cover traditional linear circuit analysis topics - both concepts and computation - including the use of available software for problem solution where necessary. The text balances emphasis on concepts and calculation so students learn the basic principles and properties that govern circuits behaviour, while they gain a firm understanding of how to solve computational techniques they will face in the world of professional engineers.

Teachers for Rural Schools Aidan Mulkeen 2008-01-01 Data for recent years show a turnaround in education: the gross enrollment rate in Sub-Saharan Africa increased from 78 percent in 1998 99 to 84 percent in 2000 01 and to 91 percent in 2002 03, reflecting broad-based growth in access not seen since the 1970s. However, key challenges remain, including (a) enrolling the last 10 15 percent of out-of-school children, including a growing number of HIV/AIDS orphans (one of every 10 African children by 2010); (b) improving learning outcomes; and (c) reducing dropout. Maintaining progress will require continuing the reforms to (a) implement cost-effect.

**Introduction to Logic and Critical Thinking** Merrilee H. Salmon 1989

*'Nature and the Greeks' and 'Science and Humanism'* Erwin Schrödinger 2014-11-06 Nobel laureate Erwin Schrödinger was one of the most distinguished scientists of the twentieth century; his lectures on the history and philosophy of science are legendary. *'Nature and the Greeks'* and *'Science and Humanism'* makes available for the first time in many years the texts of two of Schrödinger's most famous lecture series. *'Nature and the Greeks'* offers a comprehensive historical account of the twentieth-century scientific world picture, tracing modern science back to the earliest stages of Western philosophic thought. *'Science and Humanism'* addresses some of the most fundamental questions of the century: what is the value of scientific research? And how do the achievements of modern science affect the relationship between material and spiritual matters? A foreword by Roger Penrose sets the lectures in a contemporary context, and affirms they are as relevant today as when they were first published.
