History Textbooks American Textbook Council 1994 Based on expert review and research, this book provides an innovative standard and guide to social studies textbooks used in kindergarten through 12th grade classrooms for content,

style, and design. The standards provide a foundation for individuals to select satisfactory textbooks and to help educators and school boards in the adoption of instructional materials. Chapter 1 addresses the problems of textbook content and style. Chapter 2 discusses the vast business of social studies publishing and the increased complexity of textbook packaging with the movement away from state-level adoption of textbooks. Chapter 3 focuses on the content of social studies textbooks with a comparison of past and present textbooks, a discussion of revisionism and reality, and a look at religion in textbooks. Chapter 4 examines the style and story of textbooks and finds that although the content of past textbooks may be flawed, the prose is superior to recent textbooks. Ideas on narrative, readability, vocabulary, instructional design, history, and style provide ways for textbooks to improve. Chapter 5 addresses the issue of format and proposes clarity and simplicity in technical design of books. Chapter 6 provides an outline to review textbooks for content and style and instructional activities and teacher guidance materials for usefulness. Chapter 7 includes an annotated list of the major U.S. and world history textbooks. (CK)

The Mad Lover About the Book: The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive. About the Author : Richard Edward Connell, Jr. was an American author and journalist, best known for his short story "The Most Dangerous Game." Connell was one of the best-known American short story writers of his time and his stories appeared in the Saturday Evening Post and Collier's Weekly. Connell had equal success as a journalist and screenwriter. He was nominated for an Academy Award in 1942 for

World History and Geography California. Dept. of Education 1994-01-01 This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

Hannibal and Scipio Africanus 2020-04-20 *Includes pictures *Includes excerpts of ancient accounts *Includes a bibliography for further reading Carthage was one of the great ancient civilizations, and at its peak, the wealthy Carthaginian empire dominated the Mediterranean against the likes of Greece and Rome, with commercial enterprises and influence stretching from Spain to Turkey. In fact, at several points in history it had a very real chance of replacing the fledgling Roman empire or the failing Greek poleis (city-states) altogether as master of the Mediterranean. Although Carthage by far preferred to exert economic pressure and influence before resorting to direct military power (and even went so far as to rely primarily on mercenary armies paid with its vast wealth for much of its history, it nonetheless produced a number of outstanding generals, from the likes of Hanno Magnus to, of course, the great bogeyman of Roman nightmares himself: Hannibal. In the history of war, only a select few men always make the list of greatest generals. Napoleon. Caesar. Alexander. They are always joined by Hannibal, who has the distinction of being the only man who nearly brought Rome to its knees before its decline almost 700 years later. Rome never suffered a more horrifying defeat in its history than at Cannae, and indeed, Hannibal nearly rewrote the course of Western history during the Second Punic War. Even today there remains great debate on just how he accomplished his masterful invasion of Italy across the Alps. Since his army included war elephants, historians still argue over exactly where and how he

crossed over 2,000 years after he managed that incredible feat. Hannibal will always be listed among history's greatest generals, and his military campaign in Italy during the Second Punic War will always be studied, but part of the aura and mystique surrounding the Carthaginian legend is that there is still a lot of mystery. Since Carthage was destroyed by Rome a generation after Hannibal, most of what is known about Hannibal came from the very people he tormented in the late 2nd century BCE, and thus much of his background is unknown. Moreover, even as military historians are still amazed that he was able to maintain his army in Italy near Rome for nearly 15 years, they are still puzzled over some of his decisions, including why he never attempted to march on Rome in the first place. While he remains far less known than Hannibal, Publius Cornelius Scipio, the man who has become known to history as Scipio Africanus, is widely regarded as one of the greatest military leaders of all time. In the space of less than 10 years, the genius of Scipio took Rome from being on the brink of utter destruction to becoming the dominant power in the Mediterranean. He displayed not just acute understanding of the tactical needs of the battlefield but also a strategic overview that consistently allowed him to confound his enemies. Scipio has been described as "the embodiment of grand strategy, as his campaigns are the supreme example in history of its meaning." However, like many other successful military leaders, Scipio proved much less able to deal with the envy and political machinations of the Roman Senate, and he ended his life not in glory but in bitter, self-imposed retirement, much the same way Hannibal did. Both men left legacies of military genius, catastrophic defeats, perseverance in the face of setbacks, astounding victories. Their stories also heavily involve ingratitude, envy, and enmity from within. Hannibal and Scipio Africanus: The Lives and Careers of the Second Punic War's Legendary Generals chronicles the two rivals, their campaigns, and their lasting legacies. Along with pictures depicting important people, places, and events, you will learn about Hannibal and Scipio Africanus like never before.

I Know Why the Caged Bird Sings Maya Angelou 2010-07-21 Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, I Know Why the Caged Bird Sings will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

The First Americans James Adovasio 2009-01-16 J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the

background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science.”

This Modern Library edition, published to celebrate the seventy-fifth anniversary of Random House, is a facsimile of the first book ever released under the Random House colophon. It includes the timeless illustrations by Rockwell Kent, a twentieth-century artist whose wit and genius serve as a counterpart and compliment to Voltaire’s.
