**Pense como um imperador** Donald Robertson 2020-02-17 Resiliência é a capacidade de lidar da melhor forma possível com adversidades e sofrimentos inevitáveis Desde lidar com o trânsito engarrafado até uma dor crônica ou a morte, este livro é um guia prático para aumentar a resiliência e entender que não adianta preocupar-se com acontecimentos que estão além da sua capacidade. Não sofra com aquilo que não pode mudar. Foque no que depende de você e aja como um verdadeiro imperador romano. Donald Robertson organizou um kit de ferramentas, combinando técnicas e estratégias de mindfulness e aceitação com abordagens de prevenção e gerenciamento do estresse. Robertson ensina exercícios simples, apresenta os conceitos teóricos e as pesquisas que servem de base para as práticas e ainda oferece uma visão da resiliência a partir do estoicismo, que tem o imperador romano Marco Aurélio e suas meditações como grandes referências. Combinando histórias notáveis da vida de Marco Aurélio com insights da psicologia moderna e a sabedoria perene de um líder romano, *Pense como um imperador* dá um rosto ao estoicismo e proporciona orientação essencial para lidarmos com os desafios éticos e psicológicos atuais.

*The Ocean of Heroes* Tsunehiko Sugiki 2022-06-03 The Śrīḍākārṇavamahāyoginītantrarāja (abbreviated to Ḍākārṇava, "Ocean of Ḍākas or Heroes") is one of the last scriptures belonging to the Buddhist Saṃvara tradition in South Asia. It was composed in the eastern area of the Indian subcontinent sometime between the late 10th and 12th centuries, and its extant version was most likely compiled around the early 12th century. Chapter 15 of the Ḍākārṇava, (hereafter Ḍākārṇava 15) teaches a large-scale and elaborate maṇḍala of the highest god Heruka that comprises 986 major deities. This monograph presents the first critical edition and English translation (with annotation) of the Sanskrit text of the Ḍākārṇava 15, elucidates its form and meanings, and clarifies its significance in the history of Buddhism in South Asia. I also provide the first critical edition and English translation (with annotation) of Jayasena's Ratnapadmarāganidhi ("Precious Ruby Treasury," composed in the 12th century), which is the oldest manual for visualizing the Heruka maṇḍala of the Ḍākārṇava 15. In the last stage of the history of Tantric Buddhism in India, when various Buddhist Tantric traditions were already present, some texts were composed, such as the Kālacakratantra and the Vajrāvalī of Abhayākaragupta. These texts provide inclusive Tantric systems in which various preceding traditions are integrated and reorganized. The Ḍākārṇava is one such text. The Heruka maṇḍala in the Ḍākārṇava 15 is comprehensive and integrates deities from various Tantric traditions and components of the Buddhist cosmos within the framework of the Saṃvara system.

Duino Elegies Rainer Maria Rilke 1997 Perhaps no cycle of poems in any European language has made so profound and lasting an impact on an English-speaking readership as Rilke's Duino Elegies. These luminous new translations by Martyn Crucefix, facing the original German texts, make it marvellously clear how the poem is committed to the real world observed with acute and visionary intensity. Completed in 1922, the same year as the publication of Eliot's *The Waste Land*, the Elegies constitute a magnificent godless poem in their rejection of the transcendent and their passionate celebration of the here and now. Troubled by our insecure place in this world and our fractured relationship with death, the Elegies are nevertheless populated by a throng of vivid and affecting figures: acrobats, lovers, angels, mothers, fathers, statues, salesmen, actors and children. This bilingual edition offers twenty-first century readers a new opportunity to experience the power of Rilke's enduring masterpiece. Book jacket.

**The Daily Stoic** Ryan Holiday 2016-10-18 From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

**The Oldest Vocation** Clarissa W. Atkinson 2019-03-15 According to an old story, a woman concealed her sex and ruled as pope for a few years in the ninth century. Pope Joan was not betrayed by a lover or discovered by an enemy; her downfall came when she went into labor during a papal procession through the streets of Rome. From the myth of Joan to the experiences of saints, nuns, and ordinary women, *The Oldest Vocation* brings to life both the richness and the troubling contradictions of Christian motherhood in medieval Europe. After tracing the roots of medieval ideologies of motherhood in early Christianity, Clarissa W. Atkinson reconstructs the physiological assumptions underlying medieval notions about women's bodies and reproduction; inherited from Greek science and popularized through the practice of midwifery, these assumptions helped shape common beliefs about what mothers were. She then describes the development of "spiritual motherhood" both as a concept emerging out of monastic ideologies in the early Middle Ages and as a reality in the lives of certain remarkable women. Atkinson explores the theological dimensions of medieval motherhood by discussing the cult of the Virgin Mary in twelfth-century art, story, and religious expression. She also offers a fascinating new perspective on the women saints of the later Middle Ages, many of whom were mothers; their lives and cults forged new relationships between maternity and holiness. *The Oldest Vocation* concludes where most histories of motherhood begin—in early modern Europe, when the family was institutionalized as a center of religious and social organization. Anyone interested in the status of motherhood, or in women's history, the cultural history of the Middle Ages, or the history of religion will want to read this book.

**Metaphysical Animals** Clare Mac Cumhail 2022-05-10 A vibrant portrait of four college friends—Iris Murdoch, Philippa Foot, Elizabeth Anscombe, and Mary Midgley—who formed a new philosophical tradition while Oxford's men were away fighting World War II. The history of European philosophy is usually constructed from the work of men. In *Metaphysical*

Animals, a pioneering group biography, Clare Mac Cumhaill and Rachael Wiseman offer a compelling alternative. In the mid-twentieth century Elizabeth Anscombe, Mary Midgley, Philippa Foot, and Iris Murdoch were philosophy students at Oxford when most male undergraduates and many tutors were conscripted away to fight in the Second World War. Together, these young women, all friends, developed a philosophy that could respond to the war's darkest revelations. Neither the great Enlightenment thinkers of the past, the logical innovators of the early twentieth century, or the new Existentialist philosophy trickling across the Channel, could make sense of this new human reality of limitless depravity and destructive power, the women felt. Their answer was to bring philosophy back to life. We are metaphysical animals, they realized, creatures that can question their very being. Who am I? What is freedom? What is human goodness? The answers we give, they believed, shape what we will become. Written with expertise and flair, *Metaphysical Animals* is a lively portrait of women who shared ideas, but also apartments, clothes and even lovers. Mac Cumhaill and Wiseman show how from the disorder and despair of the war, four brilliant friends created a way of ethical thinking that is there for us today.

The Mushroom at the End of the World Anna Lowenhaupt Tsing 2017-09-19 What a rare mushroom can teach us about sustaining life on a fragile planet Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

On Sympathy Sophie Ratcliffe 2008-05-15 What happens when we engage with fictional characters? How do our imaginative engagements bear on our actions in the wider world? Moving between the literary and the philosophical, Sophie Ratcliffe considers the ways in which readers feel when they read, and how they understand ideas of feeling. *On Sympathy* uses dramatic monologues based on *The Tempest* as its focus, and broaches questions about fictional belief, morality, and the dynamics between readers, writers, and fictional characters. The book challenges conventionally accepted ideas of literary identification and sympathy, and asks why the idea of sympathy has been seen as so important to liberal humanist theories of literary value. Individual chapters on Robert Browning, W. H. Auden, and Samuel Beckett, who all drew on Shakespeare's late play, offer new readings of some major works, while the book's epilogue tackles questions of contemporary sympathy. Ranging from the nineteenth century to the present day, this important new study sets out to clarify and challenge current assumptions about reading and sympathetic belief, shedding new light on the idea and ideal of sympathy, the workings of affect and allusion, and the ethics of reading.
