Pivot Jenny Blake 2017-09-19 What's next? is a question we all have to ask and answer more frequently in an economy where the average job tenure is only four years, roles change constantly even within that time, and smart, motivated people find themselves hitting professional plateaus. But how do you evaluate options and move forward without getting stuck? Jenny Blake--a former training and career development specialist at Google who now runs her own company as a career and business consultant and speaker--has a solution: the pivot. Pivoting is a crucial strategy for Silicon Valley tech companies and startups but it can also be a successful strategy for individuals looking to make changes in their work lives. This book will introduce you to the Pivot Method and show you how to take small, smart steps to move in a new direction--now and throughout your entire career. No matter your age, industry, or bank account balance, Jenny's advice will help you move forward with confidence. Pivot also includes valuable insight for leaders who want to have more frequent career conversations with their teams to help talented people move and grow within their roles and the broader organization. If change is the only constant, let's get better at it. Your career success and satisfaction depends on your ability to navigate change well and this book can help you do so.

The Making of a Manager Julie Zhuo 2019-03-19 Instant Wall Street Journal Bestseller! Congratulations, you're a manager! After you pop the champagne, accept the shiny new title, and step into this thrilling next chapter of your career, the truth descends like a fog: you don't really know what you're doing. That's exactly how Julie Zhuo felt when she became a rookie manager at the age of 25. She stared at a long list of logistics--from hiring to firing, from meeting to messaging, from planning to pitching--and faced a thousand questions and uncertainties. How was she supposed to spin teamwork into value? How could she be a good steward of her reports' careers? What was the secret to leading with confidence in new and unexpected situations? Now, having managed dozens of teams spanning tens to hundreds of people, Julie knows the most important lesson of all: great managers are made, not born. If you care enough to be reading this, then you care enough to be a great manager. *The Making of a Manager* is a modern field guide packed everyday examples and transformative insights, including: * How to tell a great manager from an average manager (illustrations included) * When you should look past an awkward interview and hire someone anyway * How to build trust with your reports through not being a boss * Where to look when you lose faith and lack the answers Whether you're new to the job, a veteran leader, or looking to be promoted, this is the handbook you need to be the kind of manager you wish you had.

Lean In Sheryl Sandberg 2013-03-11 The #1 international best seller In Lean In, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to "sit at the table," seek challenges, take risks, and pursue their goals with gusto. Lean In continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can't do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, Lean In is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

Human Rights in India Satvinder Juss 2019-10-15 This volume presents an integrated collection of essays around the theme of India's failure to grapple with the big questions of human rights protections affecting marginalized minority groups in the country's recent rush to modernization. The book traverses a broad range of rights violations from: gender equality to sexual orientation, from judicial review of national security law to national security concerns, from water rights to forest rights of those in need, and from the persecution of Muslims in Gulberg to India's parallel legal system of Lok Adalats to resolve disputes. It calls into question India's claim to be a contemporary liberal democracy. The thesis is given added strength by the authors' diverse perspectives which ultimately create a synergy that stimulates the thinking of the entire field of human rights, but in the context of a non-western country, thereby prompting many specialists in human rights to think in new ways about their research and the direction of the field, both in India and beyond. In an area that has been under-researched, the work will provide valuable guidance for new research ideas, experimental designs and analyses in key cutting-edge issues covered in this work, such as Acid Attacks or the right to protest against the 'nuclear' state in India.

The Mueller Report Robert S. Mueller 2019-04-26 This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a

detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

Beliefs, Reasoning, and Decision Making Roger C. Schank 2013-06-17 It is not unusual for a festschrift to include offerings from several areas of study, but it is highly unusual for those areas to cross disciplinary lines. This book, in doing just that, is a testimony to Bob Abelson's impact on the disciplines of social psychology, artificial intelligence and cognitive science, and the applied areas of political psychology and decision-making. The contributors demonstrate that their association with Abelson, whether as students or colleagues, has resulted in an impressive intellectual cross-fertilization.

Conducting Research with Human Participants Nathan Durdella 2022-02-15
Conducting Research with Human Participants: An IRB Guide for Students and Faculty by Nathan Durdella is the only guidebook students and faculty will need to navigate the IRB process and secure swift approval of research protocols. This book serves as an advisor to walk researchers through all the details of drafting, submission, and revision of materials for Institutional Review Boards so they can complete their research projects or dissertations faster. This text walks readers through the history of Institutional Review Boards, the contemporary context of ethical research, strategies to effectively draft, submit, and revise an IRB protocol, and guidance on working with an approved protocol in the field. The latest updates to the Common Rule and other regulatory frameworks, including special protections for working with vulnerable groups, are covered throughout the text. Not every research project goes according to plan, so adverse events and reporting receive special coverage. A final chapter on ethical research practices beyond IRB compliance encourages researchers to think through how to exit the field of research and ensure their research benefits the individuals, families, and communities in which they work. Take the guesswork out of the IRB process from start to finish with this handy guide.

High School Dropout: a Qualitative Interpretive Study of African American Males
Dr. Heather I.H. Washington Dos Santos 2018-12-27 Dr. Heather I.H. Washington Dos Santos is a loving wife and mother of five young children who has served as a public urban school teacher and administrator for more than two decades. She has dedicated her life to studies that have served to further both her knowledge base and skillset as it relates to advocacy and public service for underrepresented and minority youth in the public school sector. As a champion for "at risk" youth in schools, Heather has worked tirelessly to remove institutional barriers that serve to detach underrepresented youth from their educational programs; thrusting them into our nation's juvenile justice system as part of the school-to-prison pipeline. With a specific focus on the study of African American males in our nation's schools, Heather vows to be a catalyst for change as part of her zealous pursuit of justice and equity in practice for African American males across the country.

Leadership Solutions David S. Weiss 2010-03-02 An organizational guide to assessing, measuring, and building leadership capacity Leadership capacity has emerged as a key source of competitive advantage in today's economy. But many organizations struggle to develop the capacity they need to succeed. This book offers concrete and precise strategies to close the leadership gap. It explains in detail how to conduct a leadership analysis, determining exactly where the gaps are in both organizational and individual leadership; analyzes the challenges a company faces; helps in understanding an organization's leadership deficit; and generates leadership solutions tailored to the organization's particular needs and shortcomings.

Dunhuang Manuscript Culture Imre Galambos 2020-12-07 "Dunhuang Manuscript Culture" explores the world of Chinese manuscripts from ninth-tenth century Dunhuang, an oasis city along the network of pre-modern routes known today collectively as the Silk Roads. The manuscripts have been discovered in 1900 in a sealed-off side-chamber of a Buddhist cave temple, where they had lain undisturbed for almost nine hundred years. The discovery comprised tens of thousands of texts, written in over twenty different languages and scripts, including Chinese, Tibetan, Old Uighur, Khotanese, Sogdian and Sanskrit. This study centres around four groups of manuscripts from the mid-ninth to the late tenth centuries, a period when the region was an independent kingdom ruled by local families. The central argument is that the manuscripts attest to the unique cultural diversity of the region during this period, exhibiting—alongside obvious Chinese elements—the heavy influence of Central Asian cultures. As a result, it was much less 'Chinese' than commonly portrayed in modern scholarship. The book makes a contribution to the study of cultural

and linguistic interaction along the Silk Roads.

Tools for Ideas Christian Gänshirt 2007-01-01 Architects today must position themselves within an extremely wide-ranging field of qualifications. This makes it all the more important to have a fresh introduction to the field that makes up one of their core competences, the field of design. This introductory presentation describes and analyzes the theories, strategies, and tools of creative design for the purposes of practical work. With thoughtfulness and expertise, it opens the reader's eyes to the processes that underlie design and demonstrates different ways of communicating about complex design work. The first section focuses on the much-discussed relationship between design and research, between architecture and the sciences. The second section describes basic design approaches, from Vitruvius and Alberti through Erwin Panofsky and Wolfgang Kemp to Otl Aicher and Vilém Flusser. The third and largest section presents the elementary tools of design, from gestures and words through drawings, models, and simulations to critique, all as instruments of creative design in architecture and its related fields.
