DK Eyewitness Books: Ancient China Arthur Cotterell 2005-09-05 Here is a spectacular and informative guide to the history of the great Chinese empire and the customs and traditions of its people. Stunning real-life photographs and lifelike models offer a unique "eyewitness" view of life in imperial China, from its earliest beginnings in the Bronze Age to its final days in the early years of the 20th century. See the stunning bronze work of the ancient Chinese, an early irrigation machine, a set of antique acupuncture needles, the beautiful implements used for Chinese calligraphy. Learn why the First Emperor created the terra-cotta army, what kinds of goods were carried along the Silk Route, who invented paper, how a Chinese house was constructed, why tombs were filled with pottery figures, and what a civil servant's job entailed. Discover why emperors were known as Sons of Heaven, what kinds of weapons were used in early battles, why families worshiped their ancestors, how fishermen used bivas to catch fish, and much, much more. Discover the history of Imperial China - from the Great Wall to the days of the last emperor.

A First Course in the Calculus of Variations Mark Kot 2014-10-06 This book is intended for a first course in the calculus of variations, at the senior or beginning graduate level. The reader will learn methods for finding functions that maximize or minimize integrals. The text lays out important necessary and sufficient conditions for extrema in historical order, and it illustrates these conditions with numerous worked-out examples from mechanics, optics, geometry, and other fields. The exposition starts with simple integrals containing a single independent variable, a single dependent variable, and a single derivative, subject to weak variations, but steadily moves on to more advanced topics, including multivariate problems, constrained extrema, homogeneous problems, problems with variable endpoints, broken extremals, strong variations, and sufficiency conditions. Numerous line drawings clarify the mathematics. Each chapter ends with recommended readings that introduce the student to the relevant scientific literature and with exercises that consolidate understanding.

Loosening the Grip Jean Kinney 2003

Cuny Janssen: Whatever Works Cuny Janssen 2021-09-07 Twenty years ago I set out to photograph children all around the world. My first trip was to the south of India. I started in the province of Tamil Nadu, first living in a Church Women Centre in the city of Chennai, then in Mugaiyur, a small village. For six months I took pictures and had conversations with roommates, guides, and members of the families who had taken me in as a guest. I had very many questions, as did they. After children, the main subject was always love.

Everything I heard from them and saw around me there filled me with both surprise and doubt, but above all with admiration. I admired their courage and faith. Their arranged marriages were a fascinating mystery to me. One way to understand arranged marriages was to make portraits. I photographed women and men various ages, engaged or planned couples and married couples.

2022 Daily Planner 2021-05

Mystical Lenormand Regula Elizabeth Fiechter 2014-01-01 A perfect companion to the Mystical Lenormand cards. In the book, Regula Elizabeth Fiechter describes each card, both the image and the interpretation. Each card is also presented in combination to each other card. Just as you never enter the same river twice, each reader will find his and her own interpretation. To have trust in one's own intuition here is the key to a successful and helpful interpretation. Due to the description of each card/combination the book is also well suited for beginners in cartomancy.

The Bullet Journal Method Ryder Carroll 2021-12 THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls "intentional living": making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald.
