*Power in Action* Steven Friedman 2019-03-01 Argues that South Africans, like everyone else, need democracy for a more equal society What are democracies meant to do? And how does one know when one is a democratic state? These incisive questions and more by leading political scientist, Steven Friedman, underlie this robust enquiry into what democracy means for South Africa post 1994. Democracy is often viewed through a lens reflecting Western understanding. New democracies are compared to idealized notions by which the system is said to operate in the global North. The democracies of Western Europe and North America are understood to be the finished product and all others are assessed by how far they have progressed towards approximating this model. Power in Action persuasively argues against this stereotype. Friedman asserts that democracies can only work when every adult has an equal say in the public decisions that affect them. Democracy is achieved not by adopting idealized models derived from other societies—rather, it is the product of collective action by citizens who claim the right to be heard not only through public protest action, but also through the conscious exercise of influence on public and private power holders. Viewing democracy in this way challenges us to develop a deeper understanding of democracy's challenges and in so doing to ensure that more citizens can claim a say over more decisions in society.

*Identity and Nation in African Football* Chuka Onwumehili 2014-04-08 The 2010 South African World Cup launched African football onto the global stage and its footballers are increasingly present at the best clubs in the world, yet it is rare to find compelling scholarship on the subject of African football. This book brings some of the top scholars on African football together to produce a collection that covers the diverse regions of the continent and diverse football topics. Focussing on aspects of identity, it spans issues of race, radicalization and self-identification, exploring the imagined continuation of war in support of a Nigerian club, the use of songs in support of a club and an ethnic community, and the effects of transnational broadcasting on supporter identification with football in Africa. This collection provides a valuable contribution to debates about African sport and identity and also contains an interview with one of Africa's first migrant footballers, Paul Bonga Bonga.

*The Performance of Gender* Cecilia Busby 2020-08-21 *The Performance of Gender* presents a vivid description of everyday life in order to explore the concept of performance for an anthropology of gender. A detailed and evocative account of the lives of men and women in a South Indian fishing community reveals new ways of framing gender relations, the body and kinship. The ethnographic account is set within the context of social and cultural theory, notably the ideas of Judith Butler, Pierre Bourdieu and Michel Foucault. The study sheds new light on the ways in which gender is understood as both performative, that is enacted through everyday practices, and also substantial and embodied, that is marked out in the separate sexual fluids and procreative capacities of husbands and wives.

**George Weah** Emmanuel Clarke 2022-01-17 This book chronicles the life on George Opong Manneh Weah, the greatest African football player who won every football title in the world in 1996. Mr. Weah is currently the President of the Republic of Liberia.

**This Is How It Goes** Neil LaBute 2005-03-05 Belinda and Cody Phipps appear a typical Midwestern couple: teenage sweethearts, children, luxurious home. Typical except that Cody is black--"rich, black, and different," in the words of Belinda, who finds herself attracted to a former (white) classmate. As the battle for her affections is waged, Belinda and Cody frankly doubt the foundation of their initial attraction, opening the door wide to a swath of bigotry and betrayal. Staged on continually shifting moral ground that challenges our received notions about gender, ethnicity, and even love itself, *This Is How It Goes* unblinkingly explores the myriad ways in which the wild card of race is played by both black and white in America.

**On Leopard Rock: A Life of Adventures** Wilbur Smith 2018-05-17 Wilbur Smith has lived an incredible life of adventure, and now he shares the extraordinary true stories that have inspired his fiction. I've been writing novels for over fifty years. I was lucky enough to miss the big wars and not get shot, but lucky enough to grow up among the heroes who had served in them and learn from their example. I have lucked into things continuously. I have done things which have seemed appalling at the time, disastrous even, but out of them have come another story or a deeper knowledge of human character and the ability to express myself better on paper, write books which people enjoy reading. Along the way, I have lived a life that I could never have imagined. I have been privileged to meet people from all corners of the globe, I have been wherever my heart has desired and in the process my books have taken readers to many, many places. I always say I've started wars, I've burned down cities and I've killed hundreds of thousands of people - but only in my imagination! From being attacked by lions to close encounters with deadly reef sharks, from getting lost in the African bush without water to crawling the precarious tunnels of gold mines, from marlin fishing with Lee Marvin to near death from crash-landing a Cessna airplane, from brutal school days to redemption through writing and falling in love, Wilbur Smith tells us the intimate stories of his life that have been the raw material for his fiction. Always candid, sometimes hilarious and never less than thrillingly entertaining, *On Leopard Rock* is testament to a writer whose life is as rich and eventful as his novels are compellingly unputdownable.

*The Politics of Sport* Paul Gilchrist 2013-09-13 Sport is an essential part of community structure, membership and identity. Whether on the field of play, in stadia, or on the streets, sport has consistently brought together disparate individuals to share culture, values and memories. Nowadays these relationships are being rewritten through the effects of global socio-economic practices, the interventions of government, the impact of cultural imperialism and, at the local level, through the actions of individuals and new constituencies that are emerging in response. Furthermore, this generates discourse on matters of regional and national identity. This themed issue presents a range of essays that examine the relationship between sport and society through the conceptual lenses of community, mobility and identity. Drawing upon insights from contemporary history and current political phenomena from leading academic specialists in the field, the issue addresses cross-cutting themes such as loyalty and allegiance, migration and integration, identity and collective memory, and the politics of resistance and change, which will be of interest to the political scientist, the contemporary historian and sport scholar alike.

This book was previously published as a special edition of the journal Sport in Society.

The Ball is Round David Goldblatt 2007-08-30 THE DEFINITIVE, CRITICALLY ACCLAIMED BOOK ABOUT FOOTBALL 'Football conquered the world with its capacity to astonish, and this is its definitive history' The Independent There may be no cultural practice more global than soccer. Rites of birth and marriage are infinitely diverse, but the rules of soccer are universal. No world religion can match its geographical scope. The single greatest simultaneous human collective experience is the World Cup final. In this extraordinary tour de force, David Goldblatt tells the full story of football's rise from chaotic folk ritual to the world's most popular sport. The Ball Is Round illuminates football's role in the political and social histories of modern societies, but never loses sight of the beauty, joy, and excitement of the game.

'Goldblatt writes with authority, humour, and passion, not least in the accounts of famous or significant matches scattered throughout the book' Times Literary Supplement 'Since it became a worldwide phenomenon, nobody has attempted to write an overall history of the game. Now David Goldblatt's stunning book will be the measure against which all other such volumes are judged' The Guardian 'Goldblatt's magnum opus . . . Anyone with a brain and an interest in football will enjoy this book' The Daily Telegraph (London)

**Conquering the Pitch** Bernd Frick 2012-07-01 Soccer has become "big business." The aggregated market value of the first and second division teams from the "Big 5" European Leagues (England, France, Germany, Italy and Spain) is nearly €12 billion. Using systematic and anecdotal evidence from the "Big 5" and additional evidence from other European and some of the South American Leagues (Brazil and Argentina), this book explores the development of soccer as the world's most important team sport and addresses competitive balance across the a large number of leagues. The book also provides the reader with a thorough understanding of the market for players, coaches and referees as well as the demand for soccer, both on TV, at the gate, and in the betting office. Finally, the economic implications of pertinent recent problems, such as hooliganism and racism, are addressed. Most of the discussion about player salaries, head coach dismissals, stadium subsidies, ticket prices and TV contracts is not very well informed and is based on prejudices. Assembling and interpreting the relevant and available information from an economic viewpoint provides the reader with a fresh new perspective on those subjects. Econometric evidence is presented in the form of graphs and figures instead of regression coefficients and is supplemented by anecdotal evidence. "Economic jargon" will be limited to a minimum in order to give readers a more intuitive understanding of the material.

**Beyond Digital** Paul Leinwand 2021-12-07 Two world-renowned strategists detail the seven leadership imperatives for transforming companies for success in the digital era. Yes, the world is chaotic, and no one knows the details of where we're headed. But leaders must not let themselves be held hostage by fear. More than ever, you need to take charge and write your vision for your company's future. This book is your guide. For companies to succeed in the digital age, executives must reimagine their businesses before they reimagine being digital. They must courageously shed the past to rethink their place in the world and how they compete and collaborate with others to create value. Companies need to undergo a fundamental transformation, building a new type of competitive advantage—one that is fueled by scale in their differentiating capabilities. They must focus on the few capabilities that power their value proposition. And they must be measurably better than their competitors. In their new book, Paul Leinwand and Mahadeva Matt Mani, both members of the PwC US partnership and its Strategy & global team, help leaders navigate these profound and historic shifts and provide a road map for reshaping their companies. Building on a major new body of research, along with case studies of companies on the vanguard of this major shift, the authors identify the seven imperatives that leaders must follow as the digital age continues to evolve: Reimagine your company's place in the world Build privileged insights into your customers Create value through ecosystems Break up the traditional organization Reposition your leadership team Reinvent the social contract with your people Disrupt your own leadership approach Together, these seven imperatives comprise a playbook for designing and executing the transformations that are required for companies to succeed in the digital age.

*Coach's Guide to Teaching* Doug Lemov 2020-12-07 The mark of a great coach is a constant desire to learn and grow. A hunger to use whatever can make them better. The best-selling author of *Teach Like a Champion* and *Reading Reconsidered* brings his considerable knowledge about the science of classroom teaching to the sports coaching world to create championship caliber coaches on the court and field. What great classroom teachers do is relevant to coaches in profound ways. After all, coaches are at their core teachers. Lemov knows that coaches face many of the same challenges found in the classroom, so the science of learning applies equally to them. Unfortunately, coaches and organizations have a mixed level of understanding of the research and study of the science of learning. Sometimes coaches and organizations build their teaching on myths and platitudes more than science. Sometimes there isn't any science applied at all. While there are thousands of books and websites a coach can consult to better understand technical and tactical aspects of the game, there is nothing for a coach to consult that explicitly examines the teaching problems on the field, the court, the rink, and the diamond. Until now. Intended to offer lessons and guidance that are applicable to coaches of any sporting endeavor including everyone from parent volunteers to professional coaches and private trainers, Lemov brings the powerful science of learning to the arena of sports coaching to create the next generation of championship caliber coaches.

**The Frontline** Che Walker 2008 Saturday night outside the tube: God, strip bars, weed, crack, lost old men, unemployed actors and vegans all collide in a riptide of chaos on the streets of London. There's Beth the reformed Christian and Erkenwald the hot-dog seller, old Ragdale on a quest to find his daughter, actor-playwright and egomaniac Mordechai Thurrock, and Cockburn, Elliot and Clayton the dealers and junkies whose trade both sustains and destroys the

lives of those around them. In this vibrant and darkly comic new play, a dozen private stories emerge and their voices give utterance to a storm of subjects and feelings: pop culture and sexual fantasy, the ruins of empire and the delusions of religion, foreign oil and prehistoric London. A panorama of contemporary London encompassing the cruel and the tender, the gutter and the stars. Che Walker's *The Frontline* premiered at Shakespeare's Globe Theatre, London, in July 2008. 'The brusque, bathetic poetry of back-street Camden is Walker's lingua franca. Flesh and blood and honour are his themes' Time Out on Ché Walker's *Flesh Wound*

**Global Cultural Economy** Christiaan De Beukelaer 2018-09-21 *Global Cultural Economy* critically interrogates the role cultural and creative industries play in societies. By locating these industries in their broader cultural and economic contexts, Christiaan De Beukelaer and Kim-Marie Spence combine their repertoires of empirical work across four continents to define the 'cultural economy' as the system of production, distribution, and consumption of cultural goods and services, as well as the cultural, economic, social, and political contexts in which it operates. Each chapter introduces and discusses a different theme, such as inclusion, diversity, sustainability, and ownership, highlighting the tensions around them to elicit an active engagement with possible and provisional solutions. The themes are explored through case studies including Bollywood, Ghanaian music, the Korean Wave, Jamaican Reggae, and the UN Creative Economy Reports. Written with students, researchers, and policy-makers in mind, *Global Cultural Economy* is ideal for anyone interested in the creative and cultural industries, media and cultural studies, cultural policy, and development studies.

**Cultivating the Spirit** Alexander W. Astin 2010-11-16 *Cultivating the Spirit* THIS GROUNDBREAKING WORK IS BASED on a five-year study of how students change during the college years and the role college plays in facilitating the development of their spiritual qualities. Students, the authors argue, grapple with the big questions in life: Who am I? What are my values? Do I have a mission in life? Why am I in college? What kind of person do I want to be? What sort of world do I want to help to create? Their answers to these questions help determine their academic and career choices and are tied to the development of personal qualities such as empathy, caring, and social responsibility. The study finds that, while students' religious engagement declines during college, at the same time they become substantially more caring, tolerant, connected with others, and actively engaged in a spiritual quest. Spiritual growth also enhances academic performance, leadership development, and satisfaction with college. The study provides strong evidence pointing to specific experiences during college that can contribute to students' spiritual growth. The need for spiritual development in college is apparent. Two-thirds of the students in the study express a strong interest in spiritual matters, well over half report that their professors never encourage discussions of religious or spiritual matters, and about the same proportion report that professors never provide opportunities to discuss the purpose and meaning of life. *Cultivating the Spirit* aims to raise the awareness of academic administrators, faculty, and the public at large to the vital role that spirituality plays in student learning and development. Throughout the book, the authors identify strategies for enhancing students' development and encourage the academy to give greater priority to the spiritual aspects of students' educational and personal development.

**The Curse of Teko Modise** Nikolaos Kirkinis 2017 *Teko 'the General' Modise* is

one of the best footballers South Africa has ever produced. But life wasn't always kind. At eight years old, Teko was kicked out of his home for the very thing that would catapult him to stardom - football. After a series of contractual battles that saw him passed from team to team in Limpopo, he got his big break when he was signed to SuperSport United, a premier-league team. At the height of his career he played for the Orlando Pirates, becoming the superstar of South African football. His downward spiral came when he went through a messy and public divorce and developed a nasty drinking habit. It was at this stage that Teko was approached by a powerful medicine man, a king from the Congo. This story tells it all, from poverty to fame, from love to divorce. It is the story of a fatherless father trying to make sense of parenthood and a man who never had money trying to make sense of an abundance of wealth and the evils it brings, all the while maintaining his status as the greatest South African footballer of the modern era.

Anxious Joburg Nicky Falkof 2020-10-01 An interdisciplinary account of the life of Johannesburg, South Africa's "global south city" Anxious Joburg focuses on Johannesburg, the largest and wealthiest city in South Africa, as a case study for the contemporary global South city. Global South cities are often characterised as sites of contradiction and difference that produce a range of feelings around anxiety. This is often imagined in terms of the global North's anxieties about the South: migration, crime, terrorism, disease and environmental crisis. Anxious Joburg invites readers to consider an intimate perspective of living inside such a city. How does it feel to live in the metropolis of Johannesburg: what are the conditions, intersections, affects and experiences that mark the contemporary urban? Scholars, visual artists and storytellers, all look at unexamined aspects of Johannesburg life. From peripheral settlements to the inner city to the affluent northern suburbs, from precarious migrants and domestic workers to upwardly mobile young women and fearful elites, Anxious Joburg presents an absorbing engagement with this frustrating, dangerous, seductive city. It offers a rigorous, critical approach to Johannesburg revealing the way in which anxiety is a vital structuring principle of contemporary life. The approach is strongly interdisciplinary, with contributions from media studies, anthropology, religious studies, urban geography, migration studies and psychology. It will appeal to students and teachers, as well as to academic researchers concerned with Johannesburg, South Africa, cities and the global South. The mix of approaches will also draw a non-academic audience.
